The Modern Review Ramananda Chatterjee,1919 Includes section Reviews and notices of books  
**Hopes** David Daiches,1972      **The Modern World: Hopes** David Daiches,Anthony Thorlby,1975      **The Modern World: The Journal of the National Education Association** National Education Association of the United States,1925      Journal of the National Education Association ,1925      **Organizing Hope** Daniel Ericsson,Monika Kostera,2019-12-27 Crumbling social institutions disintegrating structures and a profound sense of uncertainty are the signs of our time In this book this contemporary crisis is explored and illuminated providing narratives that suggest how the notion of hope can be leveraged to create powerful methods of organizing for the future Chapters first consider theoretical and philosophical perspectives on hopeful organizing followed by both empirical discussions about achieving change and more imaginative narratives of alternative and utopian futures including an exploration of the differing roles of work creativity idealism inclusivity and activism      **Hope in the Thought of Jacques Ellul** Lawrence J. Terlizese,2005-10-30 Hope expresses more than an area of concentration in Ellul s thought it is the central idea that binds his disparate elements together Ellul believed that at this moment of history the world since 1945 hope must preoccupy our thinking and lives To understand hope we must first comprehend its absence This entails discerning what causes the absence of hope namely the world s embrace of technique and the abandonment of God Ellul also rejected these as a positive affirmation He wanted to make a firm distinction between reality and truth He affirmed modern abandonment as a realistic fact as an accurate analysis of the present condition not as an affirmation of the truth Hope is truth in Jesus Christ but truth must be asserted against these harsh facts He used facts to incite hope in believers to shake their complacency and to realize their actual condition in the world The idea of hope in the thought of Jacques Ellul can only be properly understood in light of dialectic struggle between negatives which amount to factual representations of the modern world and positives through which hope exerts itself in the face of these facts From this tension will issue personal resolve Technique has brought the world to great collective heights and achievements but this has come at the expense of personal ends and meaning Ellul attempted to bridge this gap by asserting individual meaning against the aggregated progress of technique without destroying the gains made by collective advance This represents the central dilemma in Ellul s thought how does one maintain meaning and personal aims in a world founded on corporate necessity from the Introduction      *Bookseller and the Stationery Trades' Journal* ,1975      **The Coming Jesus and the Anthropocene** Ryan LaMothe,2024-02-22 Melting glaciers and icecaps massive forest fires enormous storms extensive and prolonged flooding and desertification of large tracts of land are realities we currently face and will continue to struggle with as a result of climate change Our climate crisis invites if not demands a critical evaluation of our political religious economic and cultural narratives and rituals that give rise to our ways of relating to one another to other species and to planet Earth This book argues that the climate emergency exposes deep problematic roots of Western religious and political paradigms

and apparatuses that undergird ideas of and methods for human flourishing In particular Western religious and political philosophies have produced and maintained a radical rift between human beings and other species as well as beliefs about human dominion over other species and the earth These ideas and practices are responsible for the colonization of Nature and for climate change Understanding these sources invites a radical reimagining of our religious ideas and practices Specifically this book proposes a coming Jesus a form of life that traverses the rift while denying human and divine dominion for the sake of recognizing and respecting the singularities and flourishing of all species

**Spiritual Reading** Harvey Angela Lou, 2016-11-24 Spiritual Reading explores how God the Bible and the practices of reading are all connected Angela Lou Harvey investigates how the spiritual reading of the Bible takes place in our modern literate Western culture In this context a spiritual reading of the Bible is one that aims to know and love God through individual Bible reading Spiritual Reading discusses what it means to read the Bible well and looks at the role of the church as giving us guidance for reading it in this way Harvey considers these ideas vis a vis historically orientated biblical scholarship as well as reading the Bible as a classic work of Western literature With reference to the use of literature through a Christian framework in the works of C S Lewis and Alan Jacobs Harvey analyses the significance the Bible has had in shaping other literary works Drawing upon insights of theologians such as Karl Barth Henri de Lubac and Ellen F Davis Spiritual Reading suggests that a renewed understanding of faith is needed for the spiritual reading of Scripture Spiritual Reading is for the reader who wishes to gain a deeper understanding on how Scripture can better connect an individual to God

**Western Culture in Gospel Context** David J. Kettle, 2011-04-18 Approaching us in sovereign freedom God comes alive to us we come alive to God and all creation comes alive as a sign pointing to God In the gospel of Jesus Christ God gives and discloses himself in this immediate way as our ultimate context and host within the provisional medium of creation This life giving gospel is met by blindness however among those who live today in a collapsing Western culture This is because their imaginative world is shaped by habitual assumptions and practices that lie largely unacknowledged deep within that culture and that preclude openness to the gospel Moreover Western Christians themselves widely share these assumptions betraying the gospel into cultural captivity God calls for the conversion of Western culture to the living gospel Crucially this must include as Lesslie Newbigin recognized a repentance from modern Western assumptions about knowledge Part One explores seeking knowing and serving God as providing a true paradigm for understanding all human enquiry knowledge and action Part Two examines ten resulting hot spots where conversion from prevailing cultural assumptions is vital for authentic mission to Western culture

**Scribner's Monthly, an Illustrated Magazine for the People**, 1925 The Brothers Grimm J. Zipes, 2016-04-30 Most of the fairy tales that we grew up with we know thanks to the Brothers Grimm Jack Zipes one of our surest guides through the world of fairy tales and their criticism takes behind the romantics mythology of the wandering brothers Bringing to bear his own critical expertise as well as new biographical information Zipes examines the interaction between the Grimms lives and their

work He reveals the Grimms personal struggle to overcome social prejudice and poverty as well as their political efforts as scholars and civil servant toward unifying the German states By deftly interweaving the social political and personal elements of the lives of the Brothers Grimm Zipes rescues them from sentimental obscurity No longer figures in fairy tale the Brothers Grimm emerge as powerful creators real men who established the fairy tale as one of our great literary institutions Part biography part critical assessment part social history the Brothers Grimm provides a complex and very real story about fairy tales and the modern world Omnibus III Douglas Wilson, Douglas Wilson and G. Tyler Fischer, 2006-12 **Hope and Heresy** Leigh T.I. Penman, 2019-06-12 Apocalyptic expectations played a key role in defining the horizons of life and expectation in early modern Europe Hope and Heresy investigates the problematic status of a particular kind of apocalyptic expectation that of a future felicity on earth before the Last Judgement within Lutheran confessional culture between approximately 1570 and 1630 Among Lutherans expectations of a future felicity were often considered manifestations of a heresy called chiliasm because they contravened the pessimistic apocalyptic outlook at the core of confessional identity However during the late sixteenth and early seventeenth centuries individuals raised within Lutheran confessional culture mathematicians metallurgists historians astronomers politicians and even theologians began to entertain and publicise hopes of a future earthly felicity Their hopes were countered by accusations of heresy The ensuing contestation of acceptable doctrine became a flashpoint for debate about the boundaries of confessional identity itself Based on a thorough study of largely neglected or overlooked print and manuscript sources the present study examines these debates within their intellectual social cultural and theological contexts It outlines for the first time a heretofore overlooked debate about the limits and possibilities of eschatological thought in early modernity and provides readers with a unique look at a formative time in the apocalyptic imagination of European culture Bk. 1. The quest ; Bk. 2. Evolution ; Bk 3. The present ; Bk. 4. The future Ezra Niesen, 2005 **Prophet of Hope** Derek Rotty, 2025-03-03 Amid the pervasive cultural upheaval and moral uncertainty of the mid twentieth century Archbishop Fulton J Sheen emerged as a prophet of hope always giving people a reason to believe that life is worth living For decades America's bishop wrote taught and preached about the major questions and issues that were shaping American culture Prophet of Hope places Sheen in dialogue with eight of the leading thinkers of his day John Dewey H L Mencken Henry Luce Margaret Mead B F Skinner Jack Kerouac Betty Friedan and Michael Harrington showing how he confronted the key philosophical psychological economic and societal issues facing the world in his time Drawing on his radio broadcasts television show and writings this book presents Sheen grappling with the influences that shaped modern culture including atheism isolation cynicism anxiety and despair His prophetic voice of hope still resonates today Nearly a century after he entered the public sphere Sheen continues to offer sound guidance for living our Catholic Faith showing us how to respond with charity truth and hope to the modern world **Hope for the Earth** Ernst M. Conradie, 2005-05-18 Hope for the Earth explores the viability of an eschatological approach to an ecological theology

spirituality and praxis in the South African context The basic intuition of such an eschatological approach is that an environmental praxis can only be empowered on the basis of an adequate understanding of Christian hope Despair in the face of environmental destruction will inevitably lead to a spirit of resignation Where then can a vision of hope that includes hope for the earth be found The author proposes a road map for eschatology based on the observation that eschatology has traditionally responded to three aspects of the human predicament namely 1 the evil effects of sin 2 the problem of finitude and transience and 3 the limitations of human power and knowledge in space Part A This analysis is used to fathom the depths of despair as a result of environmental destruction Part B The Biblical roots and subsequent history of Christian eschatology are discussed briefly Part C Recent contributions in Christian eschatology ecological theology cosmology and South African expressions of hope are explored in depth in search of a vision of hope that includes hope for the earth itself Part D The eschatological road map is used to develop a vision of hope for the earth on the basis of a theology of life life amidst death and destruction life beyond death and eternal life in the presence of God Part E Finally the implications of this vision for an ecological ethos spirituality and praxis in the South African context are indicated Part F

**The Jewish Origins of Cultural Pluralism** Daniel Greene,2011-04-15 Daniel Greene traces the emergence of the idea of cultural pluralism to the lived experiences of a group of Jewish college students and public intellectuals including the philosopher Horace M Kallen These young Jews faced particular challenges as they sought to integrate themselves into the American academy and literary world of the early 20th century At Harvard University they founded an influential student organization known as the Menorah Association in 1906 and later the Menorah Journal which became a leading voice of Jewish public opinion in the 1920s In response to the idea that the American melting pot would erase all cultural differences the Menorah Association advocated a pluralist America that would accommodate a thriving Jewish culture while bringing Jewishness into mainstream American life
