Hysterical Methodologies in the Arts Johanna Braun, 2021-06-18 Hysteria is alive and well in our present time and is apparently spreading contagiously especially the second decade of the twenty first century has displayed an ever increasing interest in the term A quick Google search opens the gates to sheer endless swathes of discussions on hysteria covering almost every aspect of public discourses The arts as it is often in such cases seem conspicuously involved in and engaged with this hysterical discourse Surprisingly while the strong academic interest in hysteria throughout the twentieth century and most prominently at the turn of the century is well known and much discussed the study of how these discourses have continued well into twenty first century art practices is largely pressing on a blind spot It is the aim of this volume to illustrate how hysteria was already well established within the arts alongside and at times even separately from the much covered medical studies and reveal how those current artistic practices very much continue a century spanning cross fertilization between hysteria and the arts **Jazz in the Time of the Novel** Bruce Barnhart, 2013-10-18 In Jazz in the Time of the Novel Bruce Barnhart explores how jazz and fiction co evolved in early 20th century America to shape cultural understandings of time race and identity Through a nuanced analysis of literary and musical forms Barnhart reveals how jazz s improvisational structure and temporal fluidity influenced narrative techniques and social critique particularly during the Harlem Renaissance This interdisciplinary study offers a compelling framework for examining the aesthetic and political intersections of sound and story The Complete Works of G.
