Ancient History From the Monuments S. Birch, 2015-06-02 Excerpt from Ancient History From the Monuments Egypt From the Earliest Times to B C 300 Ancient Egypt is one of the two great countries of the world which has performed so important a part in the religious history of the East that its annals as derived from the monuments are of the greatest importance to understanding the development of human civilisation and the tendency of religious thought It was in it that the Hebrews passed their first captivity entering it as a nomad race with their flocks and herds and leaving the house of bondage with the knowledge and arts of its early civilisation The land itself called in the hieroglyphics Kam or the Black from the colour of the alluvial mud of the Nile bore several other names in the Egyptian language To the Hebrews it was known as Mitsraim or the Two Mitsrs an appellation found also in the Assyrian as Musr and the Persian as Mudraya but the Greeks called it Aiguptos a word of uncertain derivation retained at the present day as Egypt by which it is universally known No country could have been better fitted for the cradle of the human race blessed with a rainless sky a fertile soil an incessant supply of water and protected by its conformation from the disaster of early conquest it possessed all that was necessary for the happiness and safety of its population About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

ANCIENT EGYPT, JERUSALEM AND THE STARS ARCHAEOASTRONOMICAL

EVIDENCE OF A SECRET SACRED ASTRONOMY GIACOMO ALBANO,2023-02-25 Examining the astronomical alignments of the main Egyptian monuments the author shows that almost none of them is oriented to the rise or set of Sirius or Orion at the time of construction How is it possible The reader will discover that in reality all are oriented in some way to the rising points of the stars of Orion or Sirius when they were in the extreme phases of their cycle Since there is not only one of the most important Egyptian monuments that escapes this rule of orientation it is evident that it was the true secret technique behind these choices Being a specialist in stellar astrology in the last part of the book the author shows how these stellar mechanisms have worked well beyond the field of Archaeoastronomy He illustrates the most important encadrement by declination active for thousands of years and still active involving some of the brightest stars in the firmament We will see how and why Giza and Jerusalem been the places where it has most strongly manifested the greatest effects in the field of sacred and religions albeit in different ways and for different reasons The truth is that the Sacred Astronomy practiced by the Egyptians is completely unknown to contemporary scholars Moreover it was not a simple belief or superstition of that people It is the Supreme Science that describes how the cosmos really works and not only for the events of sacred history The Egyptian priests and initiates probably derived this knowledge from a tradition dating back to the dawn of time Since these stellar configurations regulate not only the most important events of sacred and prophane history but also the places the events that occur their knowledge may open new scenarios for human knowledge far superior and far more radical of the much acclaimed scientific discoveries that are not able to identify the primary and occult causes of events nor to reveal the Mystery that surrounds our existence The Material World of Ancient Egypt William H. Peck,2013-08-12 Examines the objects and artifacts the representations in art and the examples of documentation that reveal the day to day life of ancient Egyptians **Egypt Under the Pharaohs** Heinrich Brugsch,1891 Catalogue of the Monuments of Ancient Egypt Oleg Dmitrievich Berlev,1998 Ancient Egypt George R. Glidden,1848
