She also addresses some of the stickier issues that plaque teaching music composition in schools such as assessment notation and technology Most importantly she introduces a curricular model for teaching composition a model which provides an array of composition activities to try in the music classrooms and studios These activities encourage musical and creative growth through music composition while they are organized in logical units corresponding to existing teaching modules they also offer jumping off points for music teachers to exercise their own creative thinking and create music composition activities that are customized to their classes and needs As a whole Music Outside the Lines both successfully reasons that music composition should be at the core of school music curriculum and also provides inservice and pre service educators with an essential resource and compendium of practical tips and plans for fulfilling this goal **Celestial Airs of Antiquity** Bell Yung, 1997-01-01 The extensive repertory of the seven string zither is preserved in its own tablature notation in about 150 collections.
