The Natural Genesis (Two Volumes in One) Gerald Massey, 2011-12-01 Egyptologist Gerald Massey challenged readers in *A Book of the Beginnings* to consider the argument that Egypt was the birthplace of civilization and that the widespread monotheistic vision of man and the metaphysical was in fact based on ancient Egyptian mythos. In *The Natural Genesis* presented here in an omnibus edition, Massey delivers a sequel delving deeper into his compelling polemic. In Volume I, he offers a more intellectual, fine-tuned analysis of the development of society out of Egypt. From the simplest signs, numbers, the cross, to the grandest archetypes, darkness, the mother figure, Massey carefully and confidently lays the cultural and psychosocial bricks of evolutionism. Volume II provides detailed discourse on the Egyptian origin of the delicate components of the monotheistic creed. With his agile prose, Massey leads an adventurous examination of the epistemology of astronomy, time, and Christology and what it all means for human culture. British author GERALD MASSEY 1828-1907.

The Sign Language of Astronomical Mythology Gerald Massey, 2008-01-01 The origin of a saviour in the guise of a little child is traceable to Child Horus who brought new life to Egypt every year as the Messu of the inundation This was Horus in his pre solar and pre human characters of the fish the shoot of the papyrus or the branch of the endless years In a later stage the image of Horus on his papyrus represented the young god as solar cause in creation But in the primitive phase it was a soul of life or of food ascending from the water in vegetation as he who climbs the stalk ranging from Child Horus to the Polynesian hero and to Jack ascending heavenward by means of his bean stalk from The Sign Language of Astronomical Mythology It goes unappreciated by modern Egyptologists but it is embraced by those who savor the concept of a hidden history of humanity and those who approach all human knowledge from the perspective of

the esoteric Gerard Massey's massive *Ancient Egypt The Light of the World* first published in 1907 and the crowning achievement of the self-taught scholar redefines the roots of Christianity via Egypt proposing that Egyptian mythology was the basis for Jewish and Christian beliefs. Here Cosimo proudly presents the combined Books 5 and 6 of *Ancient Egypt* in which Massey discusses the primeval iconic representations that link the Earth and the heavens and ties the oldest understandings of astronomy with the mythology of the creation of the universe and humanity. From the symbols and myths of water drowning and floods to those of light and darkness, blindness and sight and many others, Massey shows how that imagery plays out in the Egyptian zodiac and in turn indelibly influenced modern religion. Peculiar and profound, this work will intrigue and delight readers of history, religion, and mythology.

Sut was the power of darkness, Horus the power of light. In one representation the two elements were imaged by means of the black bird of Sut and the white bird or golden hawk of Horus. Thus we can identify two elemental powers as old as night and day, which are primeval in universal mythology, and these two powers or animistic souls were divinized as the two gods, Sut and Horus, with the two birds of darkness and light, the black vulture and the gold hawk, depicted back to back as their two representative types or personal totems from *Elemental and Ancestral Spirits* or *The Gods and the Glorified*.
