The Natural History of the Rich: A Field Guide Richard Conniff,2003-10-17 A tantalizing droll study of the idiosyncratic existence of the very rich through the unexpected lens of the naturalist Journalist Richard Conniff probes the age old question Are the rich different from you and me and finds that they are indeed a completely different animal He observes with great humor this socially unique species revealing their strategies for ensuring dominance and submission their flourishes of display behavior the intricate dynamics of their pecking order as well as their unorthodox mating practices Through comparisons to other equally exotic animals Conniff uncovers surprising commonalities Communities of Kinship Carolyn Earle Billingsley,2004 Billingsley reminds us that contrary to the accepted notion of rugged individuals heeding the proverbial call of the open spaces kindred groups accounted for most of the migration to the South s interior and boundary lands In addition she discusses how for antebellum southerners the religious affiliation of one s parents was the most powerful predictor of one s own spiritual leanings with marriage being the strongest motivation to change them Billingsley also looks at the connections between kinship and economic and political power offering examples of how Keese family

members facilitated and consolidated their influence and wealth through kin ties

A Theology of Grace in Six Controversies Edward T. Oakes, 2016-05-11 Few topics in theology are as complex and multifaceted as grace over the course of centuries many seemingly arbitrary distinctions and arcane debates have arisen around it Edward Oakes however argues that all of these distinctions and debates are ultimately motivated by one central question What are God's intentions for the world In *A Theology of Grace in Six Controversies* Oakes examines issues relating to grace and points them back to that central question illuminating and explaining what is really at stake in these debates Maintaining that controversies clarify issues especially those as convoluted as that of grace Oakes works through six central debates on the topic including sin and justification evolution and original sin and free will and predestination

Ancestors and Relatives Eviatar Zerubavel, 2012-01-26 Noted social scientist Eviatar Zerubavel casts a critical eye on how we trace our past individually and collectively arguing that rather than simply find out who our ancestors are from genetics or history we

actually create the stories that make them our ancestors *The Culture of the Copy* Hillel Schwartz,2014-11-02 A novel attempt to make sense of our preoccupation with copies of all kinds from counterfeits to instant replay from parrots to photocopies *The Culture of the Copy* is a novel attempt to make sense of the Western fascination with replicas duplicates and twins In a work that is breathtaking in its synthetic and critical achievements Hillel Schwartz charts the repercussions of our entanglement with copies of all kinds whose presence alternately sustains and overwhelms us This updated edition takes notice of recent shifts in thought with regard to such issues as biological cloning conjoined twins copyright digital reproduction and multiple personality disorder At once abbreviated and refined it will be of interest to anyone concerned with problems of authenticity identity and originality Through intriguing and at times humorous historical analysis and case studies in contemporary culture Schwartz investigates a stunning array of simulacra counterfeits decoys mannequins and portraits ditto marks genetic cloning war games and camouflage instant replays digital imaging parrots and photocopies wax museums apes and art forgeries not to mention the very notion of the Real McCoy Working through a range of theories on biological mechanical and electronic reproduction Schwartz questions the modern esteem for authenticity and uniqueness *The Culture of the Copy* shows how the ethical dilemmas central to so many fields of endeavor have become inseparable from our pursuit of copies of the natural world of our own creations indeed of our very selves The book is an innovative blend of microsociology cultural history and philosophical reflection of interest to anyone concerned with problems of authenticity identity and originality Praise for the first edition T he author brings his considerable synthetic powers to bear on our uneasy preoccupation with doubles likenesses facsimiles replicas and re enactments I doubt that these cultural phenomena have ever been more comprehensively or more creatively chronicled A book that gets you to see the world anew again *The New York Times* A sprightly and disconcerting piece of cultural history Terence Hawkes *London Review of Books* In *The Culture of the Copy* Schwartz has written the perfect book original and repetitive at once Todd Gitlin *Los Angeles Times Book Review*

Some Family Donald Harman Akenson,2007-08-08 Using supporting evidence that runs from the Solomon Islands and classical China to ancient Ireland Akenson argues that there are four basic genealogical forms Highly significant on its own this insight also provides the information needed to assess the Latter day Saints efforts to provide a single narrative of how humanity keeps track of itself Appendices cover topics of vital interest to historians genealogists and ethnographers such as the use and limits of genetic data in genealogy the reality of false paternity as a widespread phenomenon in genealogical lines and the vexing issues of incest and cousin marriage A unique study of a neglected topic *Some Family* illuminates the stories that cultures tell themselves through their family trees **FROZEN IN TIME: An Early Carte de Visite Album from New Bedford, Massachusetts** Susan Snow Lukesh,2021-08-10 In *Frozen in Time* Susan Snow Lukesh takes a mid nineteenth century photo album from New Bedford Massachusetts created against an almost unmentioned backdrop of the Civil War and moves the people seemingly frozen in time backwards and forwards offering details of daily living marrying

working and dying of both the individuals whose portraits are included as well as their kin and colleagues The details of daily living of the marrying working and dying of the neighbors and kin in the photo album from New Bedford demonstrate the personal side of the development of this famous whaling capital through its transition to a strong mill economy These details also show how the financial and intellectual capital of the city fueled development throughout the United States This album with its very small cast of neighbors and kin thus unfolds to offer a glimpse of the rich panorama of nineteenth century New Bedford The biographical sketches of the onstage and offstage players combined with the histories presented of New Bedford of nineteenth century social media and of the album itself reveal a snapshot of New Bedford s citizens New Bedford s history and industries and importantly New Bedford s part in the Civil War Frozen in Time presents local history in the broader context of the United States and can be seen as well as an example of petite histoire an account of particular households and neighborhoods reminding readers of the continuing importance of both family and neighborhoods real or virtual The discussion of nineteenth century social media also shows those in the twenty first century that Facebook can be seen as old social media on a new platform The photographs from the time of the Civil War underscore the arc of photography from its first use capturing images of war to its present use to record violence perpetuated on and perpetuated by police and others at home and around the world Lukesh was entrusted with the family album that is the basis for Frozen in Time and used her experience in research artifact interpretation and writing to develop the narrative of the book She hopes readers will take away the importance and value of both family and history as well as the part of the family in history

Future Generation

China Martens,2017-09-01 China Martens started her pioneering mamazine The Future Generation in 1990 She was a young anarchist punk rock mother who didn t feel that the mamas in her community had enough support so she began publishing articles on radical parenting in an age before the internet The anthology of her zine The Future Generation The Zine Book for Subculture Parents Kids Friends Others was first printed in 2007 and has been out of print for many years Covering sixteen years it uses individual issues as chapters focusing on personal writing and retaining the character of a zine that changed over the years from her daughter s birth to teenagehood and beyond We are proud to present a tenth anniversary edition including a new afterword by China s grown daughter Clover The Future Generation remains a timeless resource for parents caregivers and those who care about them Though first published in the 1990s many of the essays and observations about parenting children and surviving in a hostile political climate still ring true today The next four years are going to be especially demanding for those trying to balance parenting politics and survival We re going to need the voices and experiences in The Future Generation now more than ever

Time Maps

Eviatar Zerubavel,2020-03-04 The pioneering sociologist and author of The Seven Day Circle continues his analysis of time with this fascinating look at history as social construct Who were the first people to inhabit North America Does the West Bank belong to the Arabs or the Jews Why are racists so obsessed with origins Is a seventh cousin still a cousin Why do some societies name their children after dead

ancestors As Eviatar Zerubavel demonstrates in *Time Maps* we cannot answer burning questions such as these without a deeper understanding of how we envision the past In a pioneering attempt to map the structure of collective memory Zerubavel considers the cognitive patterns we use to organize the past and the social grammar of conflicting interpretations of history Drawing on fascinating examples that range from Hiroshima to the Holocaust and from ancient Egypt to the former Yugoslavia Zerubavel shows how we construct historical origins how we tie discontinuous events together into stories how we link families and entire nations through genealogies and how we separate distinct historical periods from one another through watersheds such as the invention of fire or the fall of the Berlin Wall *Time Maps* extends beyond all of the old clichés about linear circular and spiral patterns of historical process and provides us with models of the actual legends used to map history brilliant and elegant Hayden White University of California Santa Cruz

Shall the Religious Inherit the Earth? Eric Kaufmann, 2010-12-09 Dawkins and Hitchens have convinced many western intellectuals that secularism is the way forward But most people don't read their books before deciding whether to be religious Instead they inherit their faith from their parents who often inoculate them against the elegant arguments of secularists And what no one has noticed is that far from declining the religious are expanding their share of the population in fact the more religious people are the more children they have The cumulative effect of immigration from religious countries and religious fertility will be to reverse the secularisation process in the West Not only will the religious eventually triumph over the non religious but it is those who are the most extreme in their beliefs who have the largest families Within Judaism the Ultra Orthodox may achieve majority status over their liberal counterparts by mid century Islamist Muslims have won the culture war in much of the Muslim world and their success provides a glimpse of what awaits the Christian West and Israel Based on a wealth of demographic research considering questions of multiculturalism and terrorism Kaufmann examines the implications of the decline in liberal secularism as religious conservatism rises and what this means for the future of western modernity

Living in the Eighth Day Steven Underdown, 2018-08-02 I came that you may have life and have it in all its fullness

John 10 10 In this book Revd Dr Steven Underdown presents the paschal mystery the passion death and resurrection of Jesus as the means by which the Son first realized that utter fullness of life which God had always intended for humankind He also argues that it is only in and through the paschal mystery that human beings find their fulfillment Only insofar as someone is open to be given in love is that person open to receive fullness of new life The book explores some of the ways by which under God's grace the church can establish patterns of life and worship which will enable growth into the paschal mystery It focuses in particular on a weekly pattern of life established in various parish and monastic communities in which every week is celebrated as a kind of Holy Week in miniature This pattern termed the Pattern of the Week is seen as providing a context for life giving response to the divine initiative
