King,Ploysri Porananond,2014-10-16 Rethinking Asian Tourism addresses some of the latest developments in on going tourism research in Southeast Asia and the wider Asia region encompassing in geographical terms Thailand Vietnam Indonesia the Philippines Malaysia Hong Kong Japan and Korea It examines many of the emerging as well as established themes and issues in Asian tourism and promotes the development of critical scholarship within Asia to overcome Anglo Western ethnocentrism in tourism studies of the region There is some attention to such familiar concepts as authenticity commoditisation culture heritage and hosts and guests but more especially to the diversification of phenomena which traditionally would not have been included within the parameters of tourism studies retirees and long stays gastronomy family based leisure popular culture and local branding Above all the book addresses and develops a conceptual understanding from a multidisciplinary perspective of the character experiences encounters perceptions and motivations of local national and intra regional tourism rather than basing concepts perspectives emphases and analyses on Western Asian interactions and on transformations in the West In this respect it encourages a shift in emphasis towards Asianising our understanding of Asian tourism This is one

of the first volumes on Asian tourism written primarily by Asians and as such provides them with the opportunity to express their concerns interests and priorities rather than depending on the analyses and interpretations of those from outside the region It also enables a deconstruction of the field of tourism studies acknowledging that it is an open ended shifting fluid and complex category of encounters and events generated by the processes of physical mobility
