Trojan Horse Mark Russinovich, 2012-09-04 It's two years after the Zero Day attacks and cyber security analyst Jeff Aiken is reaping the rewards for crippling Al Qaida's assault on the computer infrastructure of the Western world

His company is flourishing and his relationship with former government agent Daryl Haugen has intensified since she became a part of his team But the West is under its greatest threat yet A revolutionary invisible trojan that alters data without leaving a trace more sophisticated than any virus seen before has been identified roiling international politics Jeff and Daryl are summoned to root it out and discover its source As the trojan penetrates Western intelligence and the terrifying truth about its creator is revealed Jeff and Daryl find themselves in a desperate race to reverse it as the fate of both East and West hangs in the balance A thrilling suspense story and a sober warning from one of the world s leading experts on cyber security Trojan Horse exposes the already widespread use of international cyber espionage as a powerful and dangerous weapon and the lengths to which one man will go to stop it **WWJB? Who Would Jesus Bomb ...** K. W. Ibrahim,2006 **The Bomb** Fred Kaplan,2021-02-02 From the author of the classic The Wizards of Armageddon and Pulitzer Prize finalist comes the definitive history of American policy on nuclear war and Presidents actions in nuclear crises from Truman to Trump Fred Kaplan hailed by The New York Times as a rare combination of defense intellectual and pugnacious reporter takes us into the White House Situation Room the Joint Chiefs of Staff s Tank in the Pentagon and the vast chambers of Strategic Command to bring us the untold stories based on exclusive interviews and previously classified documents of how America s presidents and generals have thought about threatened broached and just barely avoided nuclear war from the dawn of the atomic age until today Kaplan s historical research and deep reporting will stand as the permanent record of politics Discussing theories that have dominated nightmare scenarios from Hiroshima and Nagasaki Kaplan presents the unthinkable in terms of mass destruction and demonstrates how the nuclear war reality will not go away regardless of the dire consequences **Flight** ,1923 **Exporting the Bomb** Matthew H. Kroenig,2011-10-15 In a vitally important book for anyone interested in nuclear proliferation defense strategy or international security Matthew Kroenig points out that nearly every country with a nuclear weapons arsenal received substantial help at some point from a more advanced nuclear state Why do some countries help others to develop nuclear weapons Many analysts assume that nuclear transfers are driven by economic considerations States in dire economic need they suggest export sensitive nuclear materials and technology and ignore the security risk in a desperate search for hard currency Kroenig challenges this conventional wisdom He finds that state decisions to provide sensitive nuclear assistance are the result of a coherent strategic logic The spread of nuclear weapons threatens powerful states more than it threatens weak states and these differential effects of nuclear proliferation encourage countries to provide sensitive nuclear assistance under certain strategic conditions Countries are more likely to export sensitive nuclear materials and technology when it would have the effect of constraining an enemy and less likely to do so when it would threaten themselves In Exporting the Bomb Kroenig examines the most important historical cases including France s nuclear assistance to Israel in the 1950s and 1960s the Soviet Union s sensitive transfers to China from 1958 to 1960 China s nuclear aid to Pakistan in the 1980s and Pakistan s recent technology transfers with the

help of rogue scientist A Q Khan from 1987 to 2002 Understanding why states provide sensitive nuclear assistance not only adds to our knowledge of international politics but also aids in international efforts to control the spread of nuclear weapons

Smart Power Ted Galen Carpenter, 2008-06-12 The United States confronts a host of foreign policy problems in the 21st century yet the Republic's security strategy is increasingly muddled and counterproductive The litany of misplaced priorities and policy failures grows ever larger Disagreements over Iraq policy as well as other matters have soured Washington's relations with its long time European allies NATO the centerpiece of Washington's transatlantic policy for nearly six decades is foundering in Afghanistan and displays a growing lack of cohesion and relevance Tensions between the United States and Russia are on the rise as authoritarianism has reemerged in that country and Moscow resists Washington's assertive policies especially the ongoing expansion of NATO into traditional Russian spheres of influence and the repeated displays of contempt for Russian interests in the Balkans and other regions American policymakers grapple with the prospect of new and volatile nuclear powers most notably North Korea and Iran It remains to be seen whether Washington's strategy of using multilateral negotiations involving North Korea's neighbors to induce Pyongyang to end its quest for nuclear weapons will succeed The more hardline strategy of imposing economic sanctions and considering the use of military force is clearly not working with regard to Iran's nuclear ambitions Other problems such as the Taiwan issue are just clouds on the horizon at present but they have the potential to cause serious trouble in the coming years The Taiwan problem highlights the danger inherent in Washington's habit of making ill advised security commitments to small vulnerable client states that are not crucial to America's own security and well being In the case of Taiwan such an obligation could lead to armed confrontation between the United States and China Ted Galen Carpenter examines these and other foreign policy challenges that America confronts in the 21st century and diagnoses what is wrong with Washington's current approach Throughout these essays he outlines an alternative strategy that would protect America's security while avoiding unnecessary and unrewarding military adventures
