Bhaktivejanyana Swami, 2013-01-29 Dr Singh Science says that the different species were not created simultaneously but evolved gradually I came across a statement in the Bhagavad Gita to the effect that all 8 400 000 species of living entities are created simultaneously Is that correct Srila Prabhupada Yes Living beings move from one bodily form to another The forms already exist The living entity simply transfers himself just as a man transfers himself from one apartment to another One apartment is first class another is second class and another is third class Suppose a person comes from a lower class apartment to a first class apartment the person is the same but now according to his capacity for payment or karma he is able to occupy a higher class apartment Real evolution does not mean physical development but the development of Consciousness Do you follow The apartment already exists however it is not the lower class apartment that becomes the higher class apartment That is Darwins nonsensical theory He would say that the apartment has become high class Modern scientists think that life has come from matter They say that millions and millions of years ago there was simply matter but no life We do not accept that Of the two energies life and matter life or spirit is the original superior energy and matter is the resultant inferior energy Spirit is independent and matter is dependent Dr Singh All that you have been saying completely contradicts Darwins theory of evolution Srila Prabhupada Darwin and his followers are rascals If originally there were no higher species why do they exist now Also why do the lower species still exist For example at the present moment we see both the intellectual person and the foolish ass Why do both these entities exist simultaneously Why hasnt the ass form evolved upwards and disappeared Why do we never see a monkey giving birth to a human In Bhagavad Gita the word yantra or machine means that in any species of life we are traveling in bodies that are like machines provided by material nature

The Boiled Frog Syndrome Thomas Saunders,2003-04-28 The Boiled Frog Syndrome presents compelling evidence to show that the source of the majority of the Western diseases of civilisation that have multiplied over the past 100 years ranging from cancers to debilitating sicknesses and allergies can be traced to the modern built environment our increasing exposure to electromagnetic radiation and the indiscriminate use of untested advanced technology It is also due in part to the 20th century s repudiation of perennial wisdom

The Tree That Bleeds Nick Holdstock,2013-07-22 In 1997 a small town in a remote part of China was shaken by violent protests that led to the imposition of martial law Some said it was a peaceful demonstration that was brutally suppressed by the government others that it was an act of terrorism When Nick Holdstock arrived in 2001 the town was still bitterly divided BACK COVER There is still much that is unclear about what actually happened during that violent week in July 2009 But however terrible its cost whether it was a massacre of peaceful protestors an orchestrated episode of violence or something in between it was not without precedent NICK HOLDSTOCK In 1997 a small town in a remote part of China was shaken by violent protests that led to the imposition of martial law Some said it was a peaceful demonstration that was brutally suppressed by the government others that it was an act of terrorism When Nick Holdstock arrived in 2001 the town was still bitterly divided The main resentment was between the Uighurs an ethnic minority in the region and the Han the ethnic majority in China While living in Xinjiang Holdstock was confronted with the political economic and religious sources of conflict between these different communities which would later result in the terrible violence of July 2009 when hundreds died in further riots in the region The Tree that Bleeds is a book about what happens when people stop believing their government will listen

Before the Flood Ian Wilson,2014-04-01 In the six hundredth year of Noah s life in the second month the seventeenth day of the month the same day were all the fountains of the great deep broken up and the windows of heaven were opened And the rain was upon the earth forty days and forty nights The great

Biblical flood so described in Genesis has long been a subject of fascination and speculation In the 19th century the English archbishop James Ussher established it as having happened in the year 2348 B C calculating what was then taken as the age of the earth and working backward through the entire series of Biblical begets Proof of the flood which is an element of so many creation myths began in earnest when archaeology started connecting physical evidence with Biblical story The dream of proving the Bible as literal truth has proven irresistible producing both spurious claims and serious scholarship As best selling historian Ian Wilson reveals in this fascinating new book evidence of a catastrophic event has been building steadily culminating in the work of William Ryan and Walter Pitman Several years ago Ryan and Pitman had posited that around 5600 BC there had an inundation in the Black Sea of such proportions that it turned the freshwater lake into a saltwater lake by connecting it to the Mediterranean Were that true they estimated that there would be signs of civilization 300 feet below the surface of the Black Sea In September 2000 using his famous underwater equipment Robert Ballard of SS Titanic fame explored parts of the Black Sea near the Turkish shore and found the remains of wood houses There had been a flood and whether God s wrath or not it had destroyed everything around it for hundreds of miles killing tens of thousands of people Exploring all the archeological evidence Wilson explains how the Black Sea flood and the Biblical flood have to be connected In particular Wilson argues learnedly and persuasively that the center of the civilized world was further to the West than previously thought not in Egypt or Mesopotamia but in what is today Northern Turkey The earliest antediluvian civilizations may have migrated east into those places we have come to call the cradles of civilization forced by the Black Sea flood to create new settlements Scrupulous in its details and compelling in its sweep Before the Flood is narrative detective history at its most provocative contributing a vital new chapter to the debate about the Bible and origins of the modern world
