The Music Of Solid Objects:

The Music of Solid Objects John W. Dickson, 1997-01-01 *Sonic Thinking* Bernd Herzogenrath, 2017-02-23 *Sonic Thinking* attempts to extend the burgeoning field of media philosophy which so far is defined by a strong focus on cinema to the field of sound. The contributors urge readers to re-adjust their ideas of Sound Studies by attempting to think not only about sound by external criteria such as cultural meaning but to think with and through sound. Series editor Bernd Herzogenrath's collection serves two interconnected purposes in developing an alternative philosophy of music that takes music serious as a form of thinking and in bringing this approach into a fertile symbiosis with the concepts and practices of artistic research, art philosophy and science as heterogeneous yet coequal forms of thinking and researching. Including contributions by both established figures and younger scholars working on cutting edge material and weaving artistic responses and interventions in between the more theoretical texts, Herzogenrath's collection provides a lively introduction to a fresh debate.

Ezra Pound and Music Ezra Pound, 2008. Included here are all of Pound's concert reviews and statements, the biweekly columns written under the pen name William Atheling for *The New Age* in London, articles from other periodicals, the complete text of the 1924 landmark volume *Antheil and the Treatise on Harmony*, extracts from books and letters, and the poet's additional writings on the subject of music. The pieces are organized chronologically with illuminating commentary, thorough footnotes, and an index. Three appendixes complete this comprehensive volume: an analysis of Pound's theories of absolute rhythm and Great Bass, a glossary of important musical personalities mentioned in the text, and the composer George Antheil's 1924 appreciation *Why a Poet Quit the Muses*.

South Asian Folklore Peter Claus, Sarah Diamond, Margaret Mills, 2020-10-28. With 600 signed, alphabetically organized articles covering the entirety of folklore in South Asia, this new resource includes countries and regions, ethnic groups, religious concepts and practices, artistic genres, holidays and traditions, and many other concepts. A preface introduces the material, while a comprehensive index, cross-references, and black and white illustrations round out the work. The focus on South Asia includes Afghanistan, Bangladesh, India, Pakistan, and Sri Lanka, with short survey articles on Tibet, Bhutan, Sikkim, and various diaspora communities. This unique reference will be invaluable for collections serving students, scholars, and the general public.

Beneath the Night Stuart Clark, 2020-09-29. From stone age to space age, every human who has looked up at the night sky has seen the same stars in the same patterns. They reveal our entire history as well as hinting at our ultimate fate. In *Beneath the Night*, Stuart Clark tells the full story of this relationship. From prehistoric cave art and Ancient Egyptian zodiacs to the modern era of satellites and space exploration, Clark reveals the history of a fascination that has shaped our scientific understanding, helped us navigate the terrestrial world, provided inspiration for our poets, artists, and philosophers, and given us a place to project our hopes and fears. This is the story of the universe and our place within it.
