The Mysteries Of Chartres Cathedral:

The Mysteries of Chartres Cathedral Louis Charpentier,1972 *The Mysteries of Chartres Cathedral* Louis Charpentier,1972 **The Sign and the Seal** Graham Hancock,2012-09-19 A compelling brew of mystery crime and science revealing the details behind the search for the lost Ark of the Covenant The Lost Ark of the Covenant is one of the great historical mysteries of all time To believers the Ark is the legendary vessel holding the stone tablets of the Ten Commandments The Bible contains hundreds of references to the Ark s power to level mountains destroy armies and lay waste to cities The Ark itself however mysteriously disappears from recorded history sometime after the building of the Temple of Solomon After ten years of searching through the dusty archives of Europe and the Middle East as well as braving the real life dangers of a bloody civil war in Ethiopia Graham Hancock has succeeded where scores of others have failed This intrepid journalist tracked down the true story behind the myths and legends revealing where the Ark is today how it got there and why it remains hidden Part fascinating scholarship and part entertaining adventure yarn tying together some of the most intriguing tales of all time from the Knights Templar and Prester John to Parsival and the Holy Grail this book will appeal to anyone fascinated by the revelation of hidden truths the discovery of secret mysteries [Cracking the Symbol Code](#) Tim Wallace-Murphy,2012-01-01 Expanding on issues touched on in *The Da Vinci Code* this thought provoking study explores the real story of Christianity a story told by men and women condemned by the traditional orthodox church and one long hidden in mysterious codes and symbols In medieval times dissenters believed the established church ruthlessly suppressed the truth about Jesus and his ministry Branded as heretics and subject to torture and execution for their beliefs the dissenters including the Knights Templar Freemasons Cathars and groups of scientists devised an ingenious code to communicate with fellow sympathizers and preserve the truth They concealed these complex symbols in art artifacts and architecture of the medieval world Finally this fascinating underground language is deciphered revealing powerful messages meant as much for today s truth seekers as for medieval minds [The Tree of Life and the Holy Grail](#) Sylvia Francke,2007 Recent works of fiction and popular history have promoted the idea that the Holy Grail symbolizes a physical bloodline that resulted from a union of Jesus Christ and Mary Magdalene It is claimed by some that this is the secret kept tirelessly by certain esoteric movements for the past two millennia Based on her groundbreaking research Sylvia Francke exposes this notion as a blatant misinterpretation of the mystery traditions that preceded and ran parallel to the birth of Christianity She traces the ancient spiritual paths of knowledge from the Cathars the Knights Templar and the enigmatic Rosicrucians to the work of Rudolf Steiner in the twentieth century Here she concludes is true Grail knowledge the Tree of Life and the Holy Grail itself explained in their metaphysical context She suggests a solution to the mystery of sudden wealth and the strange behavior of B renger Sauni re the mysterious priest of Rennes le Ch teau in southern France True Grail knowledge Francke concludes has nothing to do with bloodlines or worldly status rather it is an ancient lifeline to the spiritual origins of creation

Its energetic forces radiate out from the Earth and in from the constellations and planets while interacting with human individuals. It represents the key to fulfilling humanity's quest and the next step in human evolution. The recent explosion of interest in revisionist Christianity history the shadow Grail prompted Sylvia Francke to revise *The Tree of Life and the Holy Grail* first published in 1996. The result is a completely reworked and expanded book that offers a powerful and convincing refutation of distorted esoteric truths.

The Knights of the Holy Grail Tim Wallace-Murphy, 2012-01-01 Discover the truth about the Knights Templar and find out how this enigmatic order of warrior monks can help to uncover the secret story of the Holy Grail. This compelling historical work charts the Knight's achievements in a remarkable range of endeavors from building castles and cathedrals to laying the foundations of the modern marketplace. It uncovers the link between the Rex Deus families and the creation and propagation of the Grail sagas as well as the later foundation of the Secret Society of Freemasonry. Building a historical framework for the development of Christianity during the last years of the Roman Empire and the Dark Ages that followed has never been so captivating.

The Tantric Alchemist Peter Levenda, 2015-09-01 The *Tantric Alchemist* is a work on alchemy as decoded by Tantra and a work on Tantra as understood by alchemists. It uncovers works by Thomas Vaughan and suggests how he and his wife a 17th century Welsh couple unique in the history of western alchemy met their fate when dealing with forces they knew only too well but which were stronger than their ability to control them. Using the works of Vaughan as his text Levenda applies the twilight language of Tantra to the surreal prose of the alchemist and in the process lays bare the lineaments of the arcane tradition that gave rise to the legend of Christian Rosenkreutz the reputed founder of Rosicrucianism who learned his art in the East and to the 19th and 20th century occult movements lead by such luminaries as P B Randolph Theodore Reuss Helena Blavatsky and Aleister Crowley who also sought and discovered this technology in the religions and cultures of Asia. Readers will find that the many disparate threads of an authentic spiritual tradition are woven together here in a startling tapestry that reveals without pretense or euphemism the psycho sexual technique that is at the root of both Tantra and alchemy that is to say of both Asian and European forms of esoteric praxis.

The Templar Treasure Tobias Daniel Wabbel, 2014-01-07 Following author Tobias Wabbel's research and investigation throughout Europe this book solves the mystery of the treasure of the Knights Templar. The most up to date archeological and historical information is discussed from the history of the Knights Templar and the history of the Israelites and the Ark of the Covenant to medieval literature and Gothic cathedral architecture. Disproving common theories the Knights Templar never guarded the pilgrimage ways in Palestine there is no Priory of Sion there is no bloodline from Jesus to the present day and there is no authentic Shroud of Turin the book also proves the existence of the sacred Ark of the Covenant also known as the treasure of the Knights Templar which is still hidden in France. Wabbel researched iconography in the architecture of cathedrals and chapels and found more evidence in texts and inscriptions that led to his theory on the location of the Templar treasure. Both a travel guide to the secrets of the treasure of the Knights Templar and a fascinating

The Cult of the Black Virgin Ean Begg, 2017-01-01

The Wise Master Builder: Platonic Geometry in Plans of Medieval Abbeys and Cathedrals Nigel Hiscock, 2018-05-08 This title was first published in 2000 Did the plan of medieval churches have any underlying symbolic meaning This work re opens the debate about the importance of geometry and symbolism in medieval architectural design and argues the case for attributing an intellectual meaning to the planning of abbeys and cathedrals In challenging prevailing claims for the use of arithmetical ratios in architectural design notably those based on the square root of two Dr Hiscock advances a perspective consisting of proportions derived from the figures of Platonic geometry the square the equilateral triangle and the pentagon and provides evidence for the symbolic interpretation of these figures The investigation further reveals whole series of geometric relationships between some of England's most celebrated Norman cathedrals such as Norwich or Durham together with a wide sample from the Continent from Old St Peter's in Rome to Chartres Cathedral and sets out a comprehensive design method in each case Hiscock first demonstrates the proposition that the ideas of Christian Platonism including number and geometry remained current and were employed in the thought of the early Middle Ages In particular he argues that they can be associated with the leading persons in the 10th century revival of monasticism and that they found expression in the white mantle of churches that spread across Western Europe at the end of the first millennium AD The book then provides a detailed analysis of the geometric proportions of church plans between the 9th and 12th centuries in Germany France and in England This research seeks to demonstrate that a coherent sequence of geometric forms can be seen in these plans forms which correspond to the key figures of Platonic geometry as understood in the context of Christian Platonist thought In conclusion the author shows how the system of design proposed could be set out on site using the known working methods of medieval masons

Rites of the Mummy Jeffrey D. Evans, Peter Levenda, 2021-11-15 An arcane ritual reveals a code hidden within Thelema's most holy book Over a period of several years the former head of Kenneth Grant's Typhonian Order in the United States conducted a bizarre sexual ritual with elements of Thelema Lovecraft and the Egyptian mummification ceremony to unlock a mathematical code buried in plain sight in Aleister Crowley's Book of the Law Jeffrey Evans a follower of Aleister Crowley's Thelema since his teenage years had an encounter on a bridge in Washington DC with a being he identified as his holy guardian angel This being Karla provided him with the inspiration to begin a series of rituals incorporating Egyptian and Lovecraftian elements in an effort to traverse the Tunnels

of Set pathways on the dark side of the Qabalistic Tree of Life The ritual conducted with his wife Ruth Keenan employed cross dressing and bondage as well as Cthulhian imagery and chanting and resulted in a series of revelations concerning the mathematical code hidden within the verses of Crowley s Book of the Law a circumstance that Crowley always suspected but was never able to prove not even with the help of accomplished mathematicians Evans tried in vain to demonstrate this code to other members of the Typhonian Order to no avail but a chance meeting online with Peter Levenda resulted in Levenda s taking a closer look at the data and what he discovered astounded him He agreed to help bring this discovery to the attention of the general public There has been very little new work published in the field of Thelema in the last 10 years or so at least since the death of Kenneth Grant Most publishing concerning Crowley has been biographical or reissues of Crowley s own material This work is a departure from all of that It is new material completely unexpected within the Crowley Thelema OTO environment for it offers a new approach to the mathematical nature of Thelema that so far has been based on Qabalah This work brings attention to the existence of a sacred geometry within the verses of the Book of the Law a completely unexpected discovery but nonetheless mathematically verifiable It bridges the gap between Thelema Freemasonry and Templarism as well as Gnosticism demonstrating a continuum of esoteric thought spanning millennia
