The Idea Of Forever:

The Forever All: A Philosophical and Spiritual Guide, 2nd Ed Guyus Seralius, 2014-05-21 In my pantheistic view the entire universe is the Supreme Being an infinite purposeful system of positive and negative forces which has always existed and always will and each of us is that eternal being of light and darkness In this book I discuss the importance of balance and how it is the heart of the All and the secret of life I discuss the needed balance between the atheists and the theists between the capitalists and the socialists between the Democrats and the Republicans and between the government and the governed I also discuss how neither science nor religion independent of the other can adequately explain the world and how ultimate truth will only arise when the scientific thinkers join forces with the spiritual thinkers I created this book as a philosophical and spiritual guide for all those seeking truth Inside you will find my views on pantheism metaphysics science technology politics and religion along with samples of my artwork 30 illustrations included *Without the Idea of Death* Darcie French, 2019-11 Desiring to wholly transcend lifelong afflictions of depression and anxiety the author declared enlightenment to be her number one goal in life The State of Nirvana occurred spontaneously several years later while escaping from a house fire in the middle of the night As the author surrendered the fear of death to the Inner Voice she spontaneously went into the Light to realize the eternal ecstasy of the Divine Trinity of knowledge and thinking *The Transbeingness of Man* Thomas Martin Newald, 2016-08-26 This book is my contribution of intuitive epistemology This book discusses many new understandings of ultimate reality but primarily new understandings of the nature of God the nature of man and the nature and origin of our present universe God is described as not personal not all powerful not all knowing and not all present Individualized man is described as the unknowing expression of God The universe is described as composed in part of the formless realm the physical realm the purgatorial realm the spiritual realm and the infinite void The transbeingness of man is described as formless man physical man purgatorial man and spiritual man Individualized man a nonspecific term for individualizations of infinite man is described as alternately existing in two realities The first reality is core reality In core reality individualized man is in total self conscious unity and harmony with God Thus in core reality individualized man exists in a mental self realizing state of total harmony and bliss The second reality is objective reality In objective reality individualized man experiences his infinite existence This experiencing of existence is described as the purpose for individualized mans existence Also a fundamental understanding of this book is understanding the difference between real experiences and nonreal experiences All functions within ultimate reality comprise real experiences All experiences self consciously created by individualized man are nonreal experiences It is through the creative experiencing of objective existence that individualized man understands himself God and the purpose for his infinite existence Finally this book describes heaven and hell Individualized man self punishes himself for all his wrongdoings God punishes no one Hell is reserved for the individualizations of man that self consciously reject God but real physical hell is not a place of punishment

The Everlasting and the Eternal J. Kellenberger, 2015-09-15 The subject of this book is the relationship and the difference between the temporal everlasting and the atemporal eternal This book treats the difference between a temporal postmortem life and eternal life It identifies the conceptual tension in the religious idea of eternal life and offers a resolution of that tension

The Idea of Islam Ziauddin Sardar, Robin Yassin-Kassab, 2012 A quarterly magazine of ideas and issues showcasing ground breaking thinking on Islam and what it means to be a Muslim in a rapidly changing interconnected world

The Jerusalem Tradition in the Late Second Temple Period Heerak Christian Kim, 2007 The Late Second Temple Period c 200 BC to 70 AD was a period of intense social changes for the Jewish people During this period the Jewish people experienced a Syrian king defiling the Jerusalem Temple the Maccabean Revolt the celebration of Hanukkah the establishment of a competing Jewish temple in Egypt and the destruction of the Jerusalem Temple During this time Jews spread out all over the Diaspora The turmoil and the lack of visible cohesion have led many scholars to argue that there was no Jewish unity and no distinguishable Jewish identity in this time period This book argues against this trend in academia and posits that a strong Jerusalem tradition unified the Jewish people Book jacket
