The Imperial Experience In Sub Saharan Africa:

The Imperial Experience in Sub-Saharan Africa Since 1870 Henry S. Wilson, 1977 **Europe and the World in the Age of Expansion: The imperial experience in sub-Saharan Africa since 1870** Boyd C. Shafer, 1974 *Imperialism and Economic Development in Sub-Saharan Africa* Simon Mollan, 2020-09-09 This book examines the economic and business history of Sudan placing Sudan into the wider context of the impact of imperialism on economic development in sub Saharan Africa From the 1870s onwards British interest s in Sudan began to intensify a consequence of the opening of the Suez Canal in 1869 and the overseas expansion of British business activities associated with the Scramble for Africa and the renewal of imperial impulses in the second half of the nineteenth century Mollan shows the gradual economic embrace of imperialism in the years before 1899 the impact of imperialism on the economic development of colonial Sudan to 1956 and then the post colonial economic legacy of imperialism into the 1970s This text highlights how state centred economic activity was developed in cooperation with British international business Founded on an economic model that was debt driven capital intensive and cash crop oriented the colonial economy of Sudan was centred on cotton growing This model locked Sudan into a particular developmental path that in turn contributed to the nature and timing of decolonization and the consequent structures of dependency in the post colonial era *The African Colonial State in Comparative Perspective* Crawford Young, 1994-01-01 In this comprehensive and original study a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule which left the continent with a singularly difficult legacy that is unique in modern history Crawford Young proposes a new conception of the state weighing the different characteristics of earlier European empires including those of Holland Portugal England and Venice and distilling their common qualities He then presents a concise and wide ranging history of colonization in Africa from the era of construction through consolidation and decolonization Young argues that several qualities combined to make the European colonial experience in Africa distinctive The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self financing drove colonial powers toward policies of ruthless extractive action The persistent virulent racism that established a distance between rulers and subjects was especially central to African colonial history Young concludes by turning his sights to other regions of the once colonized world comparing the fates of former African colonies to their counterparts elsewhere In tracing both the overarching traits and variations in African colonial states he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent **Africa at the Millennium** NA NA, 2016-04-30 This book is aimed at providing a framework for African issues in the 21st century Apart from its African centered approach it argues that previously marginalized areas of research require in depth study It also introduces new areas of interest absent in existing works The book pays particular attention to the relative success of African countries and regions in their attempt to find solutions to Africa s problems and

the changing role in African states in international relations **Turning Point in Africa** R.D. Pearce, 2023-05-03 The Turning Point in Africa 1982 is a significant study of British colonial policy towards tropical Africa during a critical decade from the complacent trusteeship of the inter war years to the strategy of decolonization inaugurated after the Second World War Charting a course through a wide variety of official sources and private papers the work assesses the importance for colonial policy of the Colonial Office the Colonial Service the Labour Party African nationalists and of ideological and moral preconceptions The revolution in African policy is investigated with a wide and yet detailed approach Special attention is devoted to the effects of the Second World War on Britain and its empire and to the importance of American anti imperialist pressure on the British Government The importance of three men the adviser Lord Hailey politician Arthur Creech Jones and civil servant Andrew Cohen receives attention and an assessment is made of their contribution to a policy which from 1948 onwards led to a rapid decolonization in large parts of Africa The significance of this policy is analysed in detail The British aimed at nation building indirect rule was to be replaced by the forms of English style local government while rapid constitutional progress at the centre was to be conceded in accordance with a preconceived model once powerful nationalist movements had arisen However as the book shows progress at the centre was introduced prematurely and outstripped reform in local government so that progress was not the balanced development the British had wished to see Decolonization had been given an irreversible momentum by British planning World War II Loyd E. Lee, 1991 This anthology contains 16 readings that deal with military political diplomatic and social aspects of WWII and its consequences for the contemporary world The readings are grouped around seven major topics and each topic is prefaced with commentary by Lee The readings consist of complete articles or integral chapters rather than abridged selections so that each author's argument can be read in its original form Annotation copyrighted by Book News Inc Portland OR **STATE POWER, AGRARIAN POLICIES AND PEASANT WELFARE** DAN MOU, 2014 This book identifies and explains the politico historical forces that underlie agrarian policies in Nigeria It also examines the impacts of these policies on different social classes and groups especially the peasantry The book focuses specifically on the Agricultural Marketing and Commodity Boards in Nigeria from 1945 1985 These boards are examined as state agencies and actions that have direct implications for different classes and groups The book reveals that the various social classes and groups contested every step of the agrarian policies right from their agenda setting to actual implementation Consequently the contestations affected drastically the policies and outcomes in such a way that the original goals were lost I am very impressed with its theoretical scope command of extant literature and methodological sophistication Dr Mou's book should be of immense interest to a broad range of scholars from political theorists to political economists as well as African area specialists Professor Crawford Young Department of Political Science University of Wisconsin Madison USA Dr Dan Mou Thanks for contributing to knowledge Your book is highly expository and full of discoveries We are proud of you S A Raofu Chairman Committee of Deans AOCOE Lagos Nigeria *When Histories*

Collide Raymond D. Crotty, 2001 The late economic historian Raymond Crotty a specialist on economic development in Ireland left a challenging work that addresses the processes of world history from the neolithic revolution up to the end of the 20th century On the way Crotty tried to explain phenomena as diverse as the role of pastoral migrations India's holy cows the decline of the Roman empire feudalism slavery Britain's early modern development the patterns of Western colonization the lack of socio economic development in the contemporary third world and the developmental success of Japan and China Crotty's interdisciplinary framework combines elements agricultural economics nutritional science development studies and demography into a comprehensive theory of history that will challenge and intrigue historians social scientists and their students

Nationalism and the State John Breuilly, 1994-02 Since its publication this important study has become established as a central work on the vast and contested subject of modern nationalism Placing historical evidence within a general theoretical framework John Breuilly argues that nationalism should be understood as a form of politics that arises in opposition to the modern state In this updated and revised edition he extends his analysis to the most recent developments in central Europe and the former Soviet Union He also addresses the current debates over the meaning of nationalism and their implications for his position Breuilly challenges the conventional view that nationalism emerges from a sense of cultural identity Rather he shows how elites social groups and foreign governments use nationalist appeals to mobilize popular support against the state Nationalism then is a means of creating a sense of identity This provocative argument is supported with a wide ranging analysis of pertinent examples national opposition in early modern Europe the unification movement in Germany Italy and Poland separatism under the Hapsburg and Ottoman empires fascism in Germany Italy and Romania post war anti colonialism and the nationalist resurgence following the breakdown of Soviet power Still the most comprehensive and systematic historical comparison of nationalist politics *Nationalism and the State* is an indispensable book for anyone seeking to understand modern politics
