

THE MODERN RECONSTRUCTION OF CLASSICAL THOUGHT: TALCOTT PARSONS

Jeffrey C. Alexander

THEORETICAL LOGIC IN
SOCIOLOGY

The Modern Reconstruction Of Classical Thought Talcott Parsons

John Holmwood, Alexander Stewart

The Modern Reconstruction Of Classical Thought Talcott Parsons:

Modern Reconstruction of Classical Thought Jeffrey Alexander, 2014-04-03 In this volume the author maintains that sociology must learn to combine the insights of both Durkheim and Marx and that it can only do so on the presuppositional ground that Weber set forth Alexander maintains that the idealist and materialist traditions must be transformed into analytic dimensions of multidimensional and synthetic theory This volume focusses on the writing of Talcott Parsons the only modern thinker who can be considered a true peer of the classical founders and examines his own profoundly ambivalent attempt to carry out this analytic transformation

The Modern Reconstruction of Classical Thought Jeffrey C. Alexander, 1983 Theoretical Logic in Sociology: The modern reconstruction of classical thought : Talcott Parsons Jeffrey C. Alexander, 1982 *Sociological Theory and Collective Subjectivity* J. Domingues, 1995-11-01 The main theme of this book is collective subjectivity analysed especially in connection with the work of Marx Parsons Giddens and Habermas but also addressing the manifold tendencies of sociological theory from its inception to the present The book supports the idea that there is a conceptual shortcoming in the most relevant contemporary research programs in sociological theory despite some recent efforts to re develop concepts of collective actor class or social movement After the fragmentation of the sixties a number of synthetical approaches emerged Some writers such as Touraine Laclau and Mouffe Olson Coleman Hindess Mouzelis and Eder have proposed some versions of concepts of collective subjectivity focusing on collective actors classes genders social movements organisations and collective utilitarian action But they do not in terms of general conceptual construction go further than Parsons and Marx they often fail to match their original formulations The concept of collective subjectivity is introduced to bring together these diverse approaches which are synthesised and receive a more general definition Moreover this new concept is directly linked to those contemporary syntheses

Modern Sociological Theory Malcolm Waters, 1994-01-21 Textbook on contemporary social thought **Visions of the Sociological Tradition** Donald N. Levine, 1995-09 This book is a masterful account of the social science enterprise by one of its most accomplished practitioners Moving from the origins of systematic knowledge in ancient Greece to the present day Donald Levine offers a richly detailed ingeniously organized introduction to the cornerstone works of Western social thought

Modern Sociological Theory George Ritzer, Jeffrey Stepnisky, 2017-01-23 Now with SAGE Publishing and co authored by one of the foremost authorities on sociological theory the Eighth Edition of Modern Sociological Theory by George Ritzer and Jeffrey Stepnisky provides a comprehensive overview of the major theorists and theoretical schools from the Structural Functionalism of early 20th century through the cutting edge theories of the late 20th and early 21st centuries The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of contemporary thinkers New to this Edition A new chapter focuses theories of race racism and colonialism as well as theories about indigenous peoples and theories from the Global South that

challenge the work of scholars from Europe and North America New material on colonialization classical women theorists and race as well as new timelines in history chapters The chapter on Symbolic Interactionism now discusses work on the sociology of emotions The concluding chapter now discusses affect theory and theories of presumption one of the newest developments in consumer theory The chapter on Contemporary Theories of Modernity includes new section on the work of Charles Taylor New perspectives on the work of Immanuel Wallerstein have been added to the chapter on Neo Marxian theories The opening historical sketch chapters now include a discussion of colonialism as one of the forces that shaped modern society new material on the historical significance of early women founders and a section on theories of race

Theoretical Logic in Sociology: The modern reconstruction of classical thought : Talcott Parsons Jeffrey C.

Alexander,1982 Handbook of Social Theory George Ritzer,Barry Smart,2003-07-26 The Handbook of Social Theory presents an authoritative and panoramic critical survey of the development achievement and prospects of social theory

The Seven Deadly Sins Stanford M. Lyman,1989-01-01 When Stanford M Lyman authored The Seven Deadly Sins Society and Evil in 1978 it was hailed by Alasdair MacIntyre as a book of absorbing interest and importance_ that places us all in his debt By Nelson Hart as a masterful and thought provoking book_ that is the only scholarly treatment of sin that is so well informed by the best of ancient through modern perspectives By James A Aho as a work whose abstract hardly does justice to the scholarly and detailed analysis of sin And by Harry Cohen as a book_ that stands as a beautiful illustration of what holistic idiosyncratic interdisciplinary and creative thinking and writing can bring to bear on the age old problem of society and evil The American Sociological Association s section on the Sociology of the Emotions selected this book as one of the works that laid the foundations for the study of pride lust envy and anger basic sentiments embedded in the social process For this revised and expanded edition Lyman has written a new chapter Sentiments Sin and Social Conflict Toward a Sociology of the Emotions The new edition will be a valuable work for courses in social psychology ethics deviance and the sociology of morals and of religion **A Social Theory of the Nation-State** Daniel Chernilo,2008-03-25 A Social Theory of the Nation State construes a novel and original social theory of the nation state It rejects nationalistic ways of thinking that take the nation state for granted as much as globalist orthodoxy that speaks of its current and definitive decline

Explanation and Social Theory John Holmwood,Alexander Stewart,2016-07-27 The book ranges widely over modern social theory giving detailed treatments of major sources to identify common themes and deficiencies in apparently disparate schools of thought The object is to lay bare negative assumptions forming methodologies in modern social theory in order to redirect the social sciences towards real problems and the progressive consequences of their solution Examples are given and throughout the continuity of particular and general concerns is demonstrated *Action and Its Environments* Jeffrey C. Alexander,1988 Jeffrey Alexander known for his work in sociological theory breaks new ground in Action and Its Environments The book aims to bring action theory and structure theory back together by focussing on three central

questions First how can the normative and material properties of social structures be interlinked Second can the conventional creative and strategic dimensions of individual action be related to social structures Third what are conditions and limits of modern social and cultural differentiation In answering these questions Alexander portrays the complex relationship between social movements public opinion formation social solidarity and social change A new model of the structure and dynamics of cultural systems is presented as well **Regional Integration and Modernity** Natalie J.

Doyle, Lorenza Sebesta, 2014-09-26 This book offers a new framework for comparing experiences of integration regionalization must be reinterpreted as an aspect of modernization modernization unfolding also at the local national and global levels The contributors discuss how and why the different visions of modernity that inform modernization projects encouraged the construction or rejection of regional integration at different times and in different places It starts with an analysis of plans for the economic integration of Europe in the aftermath of World War I It shows how integration was identified as the means to modernize the region with a view to helping it overcome political fragmentation and adapt to new conditions of global capitalism It then turns to the debate on modernization unfolding in the era that constituted the formative period of integration for both Europe and Latin America It analyses examples of the complex interaction between these two different experiences as it extends into the present Finally it looks at the social and political actors that promoted integration in the two regions and at the discourse they formulated to do so **Theoretical Logic in Sociology** Jeffrey

Alexander, 2021-03-11 This four volume work originally published in the 1980s and out of print for some years represents a major attempt to redirect the course of contemporary sociological thought Jeffrey Alexander analyses the most general and fundamental elements of sociological thinking about action and order and their ramifications for empirical study He insists that sociological thought need not choose between voluntary action and social constraint The four volumes can be read independently of one another as each presents a distinctive theoretical argument in its own right The first volume is directed at contemporary problems and controversies not only in theory but in the philosophy and sociology of science The last three volumes make interpretations confronting the individual theorists and the secondary literature on their own terms

Theoretical Logic in Sociology Jeffrey C. Alexander, 1982 **Founders, Classics, Canons** Peter Baehr, 2017-07-05 Founders classics and canons have been vitally important in helping to frame sociology's identity Within the academy today a number of positions feminist postmodernist postcolonial question the status of tradition In Founders Classics Canons Peter Baehr defends the continuing importance of sociology's classics and traditions in a university education Baehr offers arguments against interpreting defending and attacking sociology's great texts and authors in terms of founders and canons He demonstrates why in logical and historical terms discourses and traditions cannot actually be founded and why the term founder has little explanatory content Equally he takes issue with the notion of canon and argues that the analogy between the theological canon and sociological classic texts though seductive is mistaken Although he questions the uses to which the

concepts of founder classic and canon have been put Baehr is not dismissive On the contrary he seeks to understand the value and meaning these concepts have for the people who employ them in the cultural battle to affirm or attack the liberal university tradition **Roads to Dystopia, Sociological Essay on the Post Modern Condition (c)** Stanford M. Lyman,2001 **Differentiation Theory and Social Change** Jeffrey C. Alexander,Paul Burbank Colomy,1990 **Status and Sacredness** Murray Milner,1994 Status and Sacredness provides a new theory of status and sacral relationships and a provocative reinterpretation of the Indian caste system and Hinduism Milner shows how in India and many other social contexts status is a key resource and that sacredness can be usefully understood as a special form of status By analyzing the nature of this resource Milner is able to provide powerful explanations of the key features of the social structure culture and religion He argues against the widely held view that the Indian caste system is best understood as a unique cultural development demonstrating that many of the seemingly exotic features are variations on themes common to other societies Milner s analysis is rooted in a new theoretical framework called resource structuralism that helps to clarify the nature and significance of power and symbolic capital The book thus provides a bold new analysis of India an innovative approach to the analysis of religion and an important contribution to social theory

Unveiling the Energy of Verbal Artistry: An Psychological Sojourn through **The Modern Reconstruction Of Classical Thought Talcott Parsons**

In a world inundated with monitors and the cacophony of quick communication, the profound energy and emotional resonance of verbal artistry often diminish into obscurity, eclipsed by the constant assault of noise and distractions. However, located within the musical pages of **The Modern Reconstruction Of Classical Thought Talcott Parsons**, a captivating perform of literary brilliance that pulses with fresh feelings, lies an unique journey waiting to be embarked upon. Penned by way of a virtuoso wordsmith, this mesmerizing opus instructions readers on a psychological odyssey, gently exposing the latent potential and profound influence embedded within the intricate internet of language. Within the heart-wrenching expanse with this evocative examination, we shall embark upon an introspective exploration of the book is central styles, dissect their interesting publishing style, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
