The Moons Fireeating Daughter:

The Moon's Fire-Eating Daughter John Myers Myers, 2012-01-04 She gave him a look that made him feel warm all over How would you like to make a survey of the Road for me All I need is a clear objective report based on first hand observation All the others I commissioned never lived long enough to give me one What was the matter with them except being dead the professor asked nervously They got tangled up because they didn't know how to look at things I don't know why I never thought of turning the job over to a scientist before That's a mistake voters make too he allowed modestly then loosened his collar Er when do you want me to start Right away wouldn't it be too soon Oh I couldn't miss my one thirty class he hedged You won't she assured him That is unless you get drowned in space chewed up on land or sea mobbed or worse She ran a hand reassuringly through his hair Just do for my sake be careful pet Resistance was useless She was Venus He was the merest of mortals Ten minutes later in spite of all his best efforts he found himself being borne off through the sky in a chariot drawn by four eagles
