Christmas and the British: A Modern History Martin Johnes, 2016-10-06 The modern Christmas was made by the Victorians and rooted in their belief in commerce family and religion Their rituals and traditions persist to the present day but the festival has also been changed by growing affluence shifting family structures greater expectations of happiness and material comfort technological developments and falling religious belief Christmas became a battleground for arguments over consumerism holiday entitlements social obligations communal behaviour and the influence of church state and media Even in private it encouraged reflection on social change and the march of time Amongst those unhappy at the state of the world or their own lives Christmas could induce much cynicism and even loathing but for a quieter majority it was a happy time a moment of a joy in a sometimes difficult world that made the festival more than just an integral feature of the calendar Christmas was one of British culture's emotional high points Moreover it was also a testimony to the enduring importance of family shared values and a common culture in the UK Martin Johnes shows how Christmas and its traditions have been lived adapted and thought about in Britain since 1914 Christmas and the British is about the festival's social cultural and economic functions and its often forgotten status as both the most unusual and important day of the year [Reminiscing Our Heritage](#)

Danny Walsh, 2017-07-05 This book is designed to be used by anybody working with older adults in residential nursing and day care facilities It provides a wealth of reminiscence material which can be used in a number of ways to rekindle memories and provide stimulating activity such as quizzes and discussion Each year covered in the book is divided into the sections Major events On the home front Music Television Screen and page Sport and Do you remember Many sections can be easily turned into quizzes and it would be simple to form a quiz from each year's material One cannot cover all that happened in these years nor highlight all the associations each event or fact triggers so the material is intended to be expanded on by the memories it triggers in clients during discussion So for example where a film title is mentioned ask if people can recall the stars of the film its plot and how it ended The Major events section will trigger lots of opinions too as it covers the political events of the decades so try to get the groups to discuss the ethical and moral dilemmas these posed at the time The book is intended for use with individuals and groups but you will discover that in a group one person's memories will trigger another's and so what seems like a small topic can last for the whole session as we all try to tell our personal tales While the content has a UK bias it also covers the major world events of the decades but I have included a blank page for each year for you to record your own personal landmarks and achievements and also those of your local town or community specialising in older

Transnationalism and Genre Hybridity in New British Horror Cinema

Lindsey Decker, 2021-03-01 As an intervention in conversations on transnationalism film culture and genre theory this book theorises transnational genre hybridity combining tropes from foreign and domestic genres as a way to think about films through a global and local framework Taking the British horror resurgence of the 2000s as case study genre studies are here combined with close formal analysis to argue that embracing transnational genre hybridity enabled the boom starting in 2002 the resurgence saw British horror film production outpace the golden age of British horror Yet resurgence films like 28 Days Later and Shaun of the Dead had to reckon with horror's vilified status in the UK a continuation of attitudes perpetuated by middle brow film critics who coded horror as dangerous and Americanised Moving beyond British cinema studies focus on the national this book also presents a fresh take on long standing issues in British cinema including genre and film culture
