The Most Puzzling:

The Most High Maurice Blanchot, 2001-05-01 Blanchot describes a world where the Absolute has finally overcome all other rivals to its authority The State is unified universal and homogenous promising perfect satisfaction Why then does it find revolt everywhere Could it be the omnipresent police The plagues The proliferating prisons and black markets Written in part as a description of post World War II Europe Blanchot's dystopia charts with terrible clarity the endless death of god in an era of constantly metamorphosing but strangely definitive ideologies Translation Review Maurice Blanchot has been for a half century one of France's leading authors of fiction and theory Two of his most ambitious works *The Space of Literature* and *The Writing of the Disaster* are also available in Bison Books editions Allan Stoekl is the author of *On Bataille* and *Agonies of the Intellectual* Commitment Subjectivity and the Performative in the Twentieth Century French Tradition Nebraska 1992

The Most Dangerous Man in America Mark Perry, 2014-04-01 At times even his admirers seemed unsure of what to do with General Douglas MacArthur Imperious headstrong and vain MacArthur matched an undeniable military genius with a massive ego and a rebellious streak that often seemed to destine him for the dustbin of history Yet despite his flaws MacArthur is remembered as a brilliant commander whose combined arms operation in the Pacific the first in the history of warfare secured America's triumph in World War II and changed the course of history In *The Most Dangerous Man in America* celebrated historian Mark Perry examines how this paradox of a man overcame personal and professional challenges to lead his countrymen in their darkest hour As Perry shows Franklin Roosevelt and a handful of MacArthur's subordinates made this feat possible taming MacArthur making him useful and finally making him victorious A gripping authoritative biography of the Pacific Theater's most celebrated and misunderstood commander *The Most Dangerous Man in America* reveals the secrets of Douglas MacArthur's success and the incredible efforts of the men who made it possible

The Most Dangerous Art Donald Loewen, 2008-01-01 The book shows how three of Russia's most important twentieth century poets used autobiographical prose to defend poetry and the poet in an era when poetry was under attack It juxtaposes these autobiographies with each other and with the cultural political events that followed Russia's 1917 October Revolution in a way that has never previously been attempted

The Most Perfect Cruiser Stephen Chapin Kinnaman, 2009 *The Most Perfect Cruiser* is the story of how the Confederacy got to sea the most deadly of its raiders the C S S Alabama It is both a complex and a human tale one that occurred entirely outside of North America We encounter the ambitions of the brilliant James Dunwoody Bulloch the Confederate secret naval agent who brought Alabama into being thinking he would command her and her resourceful captain Raphael Semmes whose previous success had already alarmed the North As for the Alabama she began her maiden voyage in the teeth of a rising gale barely escaping the clutches of a Union warship and the belated efforts of British authorities to seize her All of these threads culminated in a three way rendezvous in the middle of the Atlantic Ocean where through a remarkable combination of luck skill and hard work the

South commissioned the most successful commerce raider the world has ever known STEPHEN CHAPIN KINNAMAN is an offshore and marine technology professional with over thirty years of experience He was born in 1950 and grew up in upstate New York and New Jersey He and his wife Maureen currently reside in Chappell Hill Texas In preparation for writing The Most Perfect Cruiser Stephen Chapin Kinnaman visited all the principal locations touched by Bulloch Semmes and Alabama gaining a first hand feel for the terrain which shaped Alabama s birth Mr Kinnaman was a director of the Mobile Alabamabased C S S Alabama Association and as such was involved with aspects of the ongoing wreck recovery efforts in France He participated in the Association s first field trip to Cherbourg during the summer of 1999 His nautical background and love of the sea has allowed him to craft a spirited account of the operational side of Alabama s creation which is so central to this book Background Lines Plan Courtesy Per Nordberg Center Samuel Walters Painting of Alabama Courtesy Vallejo Maritime Gallery Newport Beach California James Dunwoody Bulloch Picture Author s Collection

Substance in Aristotle's Metaphysics Zeta Norman O. Dahl,2019-08-28 This book argues that according to Metaphysics Zeta substantial forms constitute substantial being in the sensible world and individual composites make up the basic constituents that possess this kind of being The study explains why Aristotle provides a reexamination of substance after the Categories Physics and De Anima and highlights the contribution Z is meant to make to the science of being Norman O Dahl argues that Z 1 11 leaves both substantial forms and individual composites as candidates for basic constituents with Z 12 being something that can be set aside He explains that although the main focus of Z 13 16 is to argue against a Platonic view that takes universals to be basic constituents some of its arguments commit Aristotle to individual composites as basic constituents with Z 17 s taking substantial form to constitute substantial being is compatible with that commitment

In Search of a Simple Introduction to Communication Nimrod Bar-Am,2016-02-09 This book is a philosophical introduction to the field of communication and media studies In search of the philosophical backgrounds of that relatively young field the book explores why this overwhelmingly popular discipline is in crisis The book discusses classic introductions on communication provides an update on lessons learned and re evaluates the work of pioneers in the light of up to date philosophical standards It summarizes various debates surrounding the foundations of system theory and especially its applicability to the Social Sciences in general and to Communication Studies in particular Communication schools promise their students an understanding of the source of a principal and dynamical power in their lives a power shaping societies and identities molding aspirations and deciding their fates They also promise students a practical benefit a chance to learn the secret of controlling that dynamical power

improving a set of skills that would ensure them a critical edge in the future job market become better media experts for all media Yet no one seems to know how such promises are met Can there be a general theory of communication If not what can should communication students learn This book looks at the problem from a philosophical perspective and proposes a framework wherein critical cases can be tested

Sinning in the Hebrew Bible Alan F. Segal, 2012 Stories of rape murder adultery and conquest raise crucial issues in the Hebrew Bible and their interpretation helps societies form their religious and moral beliefs From the sacrifice of Isaac to the adultery of David narratives of sin engender vivid analysis and debate powering the myths that form the basis of the religious covenant or the relationship between a people and their God Rereading these stories in their different forms and varying contexts Alan F Segal demonstrates the significance of sinning throughout history and today Drawing on literary and historical theory as well as research in the social sciences he explores the motivation for creating sin stories their prevalence in the Hebrew Bible and their possible meaning to Israelite readers and listeners After introducing the basics of his approach and outlining several hermeneutical concepts Segal conducts seven linked studies of specific narratives using character and text to clarify problematic terms such as myth typology and orality Following the reappearance and reinterpretation of these narratives in later compositions he proves their lasting power in the mythology of Israel and the encapsulation of universal perennially relevant themes Segal ultimately positions the Hebrew Bible as a foundational moral text and a history book offering uncommon insights into the dating of biblical events and the intentions of biblical authors

Jesus the Winemaker: Satan's Most Effective Lie Al Lunden, Alice Lunden, 2011-11-04 Satans most effective lie What conceivable falsehood would be more devastating to Christianity than the false inference that Jesus was and is a maker and user of wine or of any other mind altering drug Jesus was a man of perfection and without sin Is drug use not a sin This book provides a solid and perhaps somewhat revolutionary

biblical hypothesis to firmly prove that Moses did not use wine and that Jesus did not make or use any wine This hypothesis is based entirely on the original Hebrew and Greek Scriptures because the Hebrew word yayin and the Greek word oinos were falsely or inadequately translated into Latin and into other European languages at some time after the hostile takeover of the New Testament Church in Rome by Constantine the Great This conclusion is supported by Strongs Exhaustive Concordance of the Bible and by his Hebrew and Greek dictionaries by the books of Dr Robert P Teachout and Dr Samuel Bacchiocchi by the Full Life Study Bible edited by Donald C Stamps and by the Hebrew Greek Key Word Study Bible and Lexicons of Spiros Zodhiates Satan is to blame for this false translation as he is as Hal Lindsey once said Alive and well on planet Earth and has overwhelming power when we allow him dominion Those ancient words for wine and grape juice were all generic or interchangeable in literature even until the King James Version of the Bible was printed The original KJV is actually acceptable but the absolute inerrancy and infallibility of Scripture have been faulted by the false translation of wine in modern Bibles since that time Another proposed biblical hypothesis states that Satan inspired the equivalent of a hostile corporate takeover of the New Testament Church in Rome This was done through Emperor Constantines agreement to cease the persecution and genocide of Christianity if he and his army were given key positions of respect or authority in the church This resulted in the world s most powerful union of church and state the Holy Roman Catholic Church which has now existed for many centuries

Jack the Ripper: The Policeman Rod Beattie, 2022-08-11 Imagine you were a police officer and had been dominated as a child by an abusive mother who didn t really want you and as an adult had been served bastardy orders twice firstly by a woman in whose house you lived and then by a woman you had a relationship with Then to top it all after you had

become a police officer in another city you arrested a woman you thought was a prostitute whose subsequent actions caused you to be accused of perjury and you ended up in court at the Old Bailey Although you were found not guilty it ruined your career and left you seriously in debt and though you were still a policeman you were taken off the streets and assigned to a menial job guarding a museum As a police officer you were in a perfect position to take revenge on those people you thought had ruined you prostitutes This book contains the complete reason Jack the Ripper came to be It sheds new light on the mystery of the killer After all who is going to suspect a policeman going about his daily duties of being one of the world's most infamous serial killers

The Unspeakable Crimes of Dr. Petiot Thomas Maeder, 2016-06-07 The chilling true story of a serial killer who preyed on men women and children desperate to escape Nazi occupied Paris On March 11 1944 police were called to investigate foul smelling smoke pouring from the chimney of an elegant private house near the Arc de Triomphe In the basement of 21 rue Le Sueur they made the first of many gruesome discoveries a human hand dangling from the open door of a coal burning stove Proceeding to the rear of the home detectives found rib cages skulls and internal organs strewn across the floor and large piles of quicklime mixed with fragments of bone and flesh The Gestapo had two offices in the neighborhood were Hitler's henchmen responsible for the carnage Or was it the work of French Resistance fighters purging Paris of traitors and German spies As the investigation unfolded a more sinister possibility emerged The building's owner Dr Marcel Petiot was a handsome and charismatic physician whose past was littered with bizarre behavior and criminal activity When he was finally captured eight months later Dr Petiot claimed he was a loyal member of the Resistance who helped kill Nazi collaborators Prosecutors charged that he was a sadistic mass murderer who lured at least twenty seven innocent people to their deaths with promises of escape Estimates of the actual number of his victims ran as high as 150 men women and children From the first stages of the investigation to the sensational trial in which Dr Petiot's superior intelligence and perverse wit were on full display author Thomas Maeder meticulously reconstructs one of the twentieth century's most fascinating and lurid murder cases Drawing on classified police files and interviews with surviving participants *The Unspeakable Crimes of Dr Petiot* is a riveting true crime saga that reads like a shocking psychological thriller **The Judge**, 1915 Francis Bacon and the Limits of Scientific Knowledge Dennis

Desroches, 2006-09-15 While Francis Bacon continues to be considered the father of modern experimental science his writings are no longer given close attention by most historians and philosophers of science let alone by scientists themselves In this new book Dennis Desroches speaks up loudly for Bacon showing how we have yet to surpass the fundamental theoretical insights that he offered towards producing scientific knowledge The book first examines the critics who have led many generations of scholars in fields as diverse as literary criticism science studies feminism philosophy and history to think of Bacon as an outmoded landmark in the history of ideas rather than a crucial thinker for our own day Bacon's own work is seen to contain the best responses to these various forms of attack Desroches then focuses on Bacon's *Novum Organum* The

Advancement of Learning and De Augmentis in order to discern the theoretical rather than simply the empirical or utilitarian nature of his programme for the renovation of the natural sciences The final part of the book draws startling links between Bacon and one of the twentieth century s most important historians philosophers of science Thomas Kuhn discerning in Kuhn s work a reprise of many of Bacon s fundamental ideas despite Kuhn s clear attempt to reject Bacon as a significant contributor to the way we think about scientific practice today Desroches concludes then that Bacon was not simply the father of modern science he is still in the process of fathering it
