Mysteries of Udolpho Ann Radcliffe, 1960 **The Mysteries of Udolpho** Ann Ward Radcliffe, 2016-09-20 This edition contains all four volumes of *The Mysteries of Udolpho* together with the poetry and verse which makes the story so unique and treasured. Unusual for interspersing poems from previous centuries throughout its pages, *The Mysteries of Udolpho* is a four-volume novel which follows the adventures of Emily St Aubert and her father as they travel south from their native Gascony through the Pyrenees mountains and onto the idyllic Mediterranean coastal region of Roussillon. Throughout the journey, young Emily is inspired by the mountain peaks, comparing the heights with many of the poems with which she is familiar. Encountering a handsome young nobleman named Sue Valancourt Brown who possesses an uncanny affinity to nature and the natural world, Emily quickly falls for him. However, her chances of marriage are spoiled when her father succumbs to a long illness back in France; her aunt is married to an apparently Italian noble named Montoni who treats both her and Emily with only cruel disregard in a gloomy keep of Udolpho. *The Mysteries of Udolpho* is a bounding work in which aesthetics, romance, and gothic literature intertwine. In addition, the book's frequent quoting of verse lends a cultured and lyrical element, conferring further meaning to the drama as it unfolds. Owing to its eclecticism, the work has been much read and referenced in literary circles. First published in 1794, the novel may be considered both as a fine story in its own right and as a celebration of the literary poets of the Renaissance and Enlightenment eras. It was also famously the target of a satire by Jane Austen in her book *Northanger Abbey*.

The Mysteries of Udolpho Ann Ward Radcliffe, 2014-04-22 An excerpt of a review from *The Monthly Review* published in 1794: THE numerous mysteries of the plot are fully disclosed in this edition, which is the conclusion, and the reader is perfectly satisfied at finding villainy punished and steady virtue and persevering affection rewarded. If there be any part of the story which lies open to material objection, it is that which makes Valancourt Emily's lover fall into disgraceful indiscretions during her absence, and into a temporary alienation of affection. This in a young man of noble principles and exalted sentiments, after such a long intimacy and such a series of incidents tending to give permanency to his passion and stability to his character, we must think unnatural. The performance would, in our opinion, have been more perfect as well as more pleasing, if Du Pont Emily's unsuccessful admirer had never appeared, and if Valancourt had been as Emily expected her deliverer from the Castle of Udolpho. The story we apprehend might have been easily brought to its present termination on this supposition. The embellishments of the work are highly finished. The descriptions are rich, glowing, and varied; they discover a vigorous imagination and an uncommon command of language, and many of them would furnish admirable subjects for the pencil of the painter. If the reader, in the eagerness of curiosity, should be tempted to pass over any of them for the sake of proceeding more rapidly with the story, he will do both himself and the author injustice. They recur, however, too frequently, and consequently a similarity of expression is often perceptible. Our readers may form some judgment of the writer's descriptive and poetical talents from the following specimen: the scene of which is at Venice. In the cool of the evening, the party embarked in Montoni's gondola, and rowed out upon the sea. The red

glow of sun set still touched the waves and lingered in the west where the melancholy gleam seemed slowly expiring while the dark blue of the upper aether began to twinkle with stars Emily sat given up to pensive and sweet emotions The smoothness of the water over which she glided its reflected images a new heaven and trembling stars below the waves with shadowy outlines of towers and porticos conspired with the stillness of the hour interrupted only by the passing wave or the notes of distant music to raise those emotions to enthusiasm As she listened to the measured sound of the oars and to the remote warblings that came in the breeze her softened mind returned to the memory of St Aubert and to Valancourt and tears stole to her eyes The rays of the moon strengthening as the shadows deepened soon after threw a silvery gleam upon her countenance which was partly shaded by a thin black veil and touched it with inimitable softness Hers was the contour of a Madonna with the sensibility of a Magdalen and the pensive uplifted eye with the tear that glittered on her cheek confirmed the expression of the character The last strain of distant music now died in air for the gondola was far upon the waves and the party determined to have music of their own The Count Morano who sat next to Emily and who had been observing her for sometime in silence snatched up a lute and struck the chords with the finger of harmony herself while his voice a fine tenor accompanied them in a rondeau full of tender sadness To him indeed might have been applied that beautiful exhortation of an English poet had it then existed Strike up my master But touch the strings with a religious softness Teach sounds to languish through the night s dull ear Till Melancholy starts from oft her couch And Carelessness grows concert to attention After the remarks which we have already made we need scarcely add our recommendation of these interesting volumes to general readers The Mysteries of Udolpho ...
