through Children's Literature Miriam G. Martinez,Junko Yokota,Charles Temple,2017-04-18 Much of teachers attention these days is focused on having students read closely to ferret out the author s intended meaning and the devices used to convey that meaning But we cannot forget to guide students to have moving engagements with literature because they need to make strong personal connections to books of merit if they are to become the next generation of readers literate people with awareness of and concern for the diversity of human beings around them and in different times and places Fortunately

guiding both students personal engagement with literature and their close reading to appreciate the author's message and craft are not incompatible goals This book enthusiastically and intelligently addresses both imperatives first surveying what is gained when students are immersed in literature then celebrating and explicating the main features of literature students need to understand to broaden their tastes and deepen their engagement at the same time they meet external standards then presenting a host of active methods for exploring all major genres of children's books and finally presenting suggestions for interdisciplinary teaching units grounded in literature Created by noted leaders in the fields of children's literature and literacy the book is enlivened by recurring features such as suggested reading lists issues for discussion links to technology and annotations of exemplary books

[Japan's Green Monsters](#) Sean Rhoads, Brooke McCorkle, 2018-01-25 In 1954 a massive irradiated dinosaur emerged from Tokyo Bay and rained death and destruction on the Japanese capital Since then Godzilla and other monsters such as Mothra and Gamera have gained cult status around the world This book provides a new interpretation of these monsters or kaiju and their respective movies Analyzing Japanese history society and film the authors show the ways in which this monster cinema take on environmental and ecological issues from nuclear power and industrial pollution to biodiversity and climate change

Modern Mysteries of the Moon Vincent S. Foster, 2015-10-13 There are still many questions that remain about the Moon which this book examines From concentric craters to lunar swirls water vapor and lunar reverberations on impact Foster collects it all for a fascinating tour that will illuminate the backyard observer's understanding of this easily viewed yet also imperfectly understood celestial object Data from Apollo and a flotilla of unmanned Moon orbiters crashers and landers have all contributed to our understanding of the Moon but these mysteries linger despite decades of research When Project Apollo brought back lunar rocks and soil samples it opened a new chapter of understanding Earth's lone natural satellite a process that continues to this day as old results are revisited and new techniques are used on existing samples Topics such as the origin evolution structure and composition of the Moon however are still under debate Lunar research is still an active field of study New technologies make it possible to continue to learn But even so the Moon continues to hold tight to some of its oldest and most cherished secrets Foster examines many of the most interesting puzzles and what has been revealed by exploring them as well as what questions remain
