Analysing Community Work Popple, Keith,1995-09-01 Beskrivelse af hvad community work er s vel teori som praksis Neighborhood Networks for Humane Mental Health Care Arthur J. Naparstek, David E. Biegel, Herzl R. Spiro, 2012-12-06 It is hard to think of a more timely and topical major contribution than Drs Naparstek Biegel Spiro and collaborators have provided in this volume Their penetrating comprehensive study and field tests give us mapping toward the goal of reifying the concept of community as applied to human services. The book will prove invaluable to those at the policy level legislators planners and administrators It will serve as an essential reference for community workers professional provid ers natural helpers and citizens as a whole A salient ideal of New Federalism placing governance as close to the people as practicable seems a prophetic match with the model of Neighborhood Empowerment As the authors point out conventional wisdom has seemed to offer government regulation control and pro gram evaluation as a panacea package for improving human services This work suggests a radically different approach specifically a shift to greater instrumental involvement of the richly variegated mosaic of American neighborhoods combined with a system of excellent high technology service agencies Certainly genuine efforts have been made before toward a true linkage of the community with human services The Great Society pro grams with their emphasis on citizen involvement and maximum fea sible participation established the foundation for legitimate citizen consumer linkage with the program process Yet in so many instances the results fell far short of expectations A Twenty-First Century Approach to Community Change Larry M. Gant, Leslie Hollingsworth, Patricia L. Miller, 2017-07-19 Urban renewal has been the dominant approach to revitalizing industrialized communities that fall into decline A national community based organization the Skillman Foundation sought to engage in a joint effort with the University of Michigan's School of Social Work to bring six neighborhoods in one such declining urban center Detroit back to positions of strength and national leadership A Twenty First Century Approach to Community Change

introduces readers to the basis for the Foundation s solicitation of social work expertise and the social context within which the work of technical assistance began Building on research the authors introduce the theory and practice knowledge of earlier scholars including the conduct of needs assessments at multiple levels engagement of community members in identifying problem solving strategies assistance in developing community goals and implementation of social work field instruction opportunities Lessons learned and challenges are described as they played out in the process of creating partnerships for the Foundation with community leaders engaging and maintaining youth involvement managing roles and relationships with multiple partners recruited by the Foundation for their specialized expertise and ultimately conducting the work of technical assistance within a context of increasing influence of the city's surrounding systems political economic educational and social Readers will especially note the role of technical assistance in an evolving theory of change Making of Community Work David N. Thomas, 2024-11-01 Originally published in 1983 The Making of Community Work is the outcome of a two year study of community work in the United Kingdom The main purpose of the study was to review the development of community work and to suggest some of the issues in practice and training that might be important in the 1980s Much of the first part of the book is taken up with the emergence of community work as an occupation David Thomas tries to clarify its contribution to a number of political and social processes and to define community work in a way which distinguishes it from other kinds of interventions The second part of the book deals with training research literature and employment in community work it includes a review of college and field based training opportunities and a critical discussion of the state of theory and ideology in the occupation It was hoped it would be an important source of ideas and inspiration for the years ahead It was the first major review of community work since its re discovery in the 1960s it will still be of interest to all those involved in community work or wishing to understand its influence on other professions The book was intended for fieldworkers administrators policy makers trainers and students in community work and in related occupations and disciplines Thomas presents his ideas clearly and his ability to look critically at some of the basic assumptions in community work makes for stimulating and enjoyable reading Community-Based Urban Violence Prevention Kosta Mathéy, Silvia Matuk, 2014-10-15 Urban violence has become a major threat in big cities of the world Where the orthodox protection through the police and individual target hardening remain inefficient the population must organize itself This book contains first hand accounts on a selection of the most innovative experiences in Africa Latin America Asia and the Arab region and is of interest likewise for academics and urban practitioners policy makers international cooperation experts or travelers preparing a visit of one of the affected countries With a preface by Caroline Moser Community Development in an Uncertain World Jim Ife, 2016-09-20 Community Development in an Uncertain World is an essential resource for students and professionals in the human services Preserving the Family Farm Mary Neth, 1995 Between 1900 and 1940 American family farming gave way to what came to be called agribusiness Government policies consumer goods aimed at rural markets
