Animal Narratives and Culture Anna Barcz,2017-03-07 The term vulnerable realism can imply two different understandings one presenting weak realism as incomplete and mixed with other literary styles the other bringing realistic vulnerable experience into narration The second is the key concern of this work though it does not exclude the first as it asks questions about realism as such entering into a polemic with the tradition of literary realism Realism then is not primarily understood as a narrative style but as a narration that tests the probability of nonhuman vulnerable experience and makes it real The book consists of three parts The first presents examples of how realism has been redefined in trauma studies and how it may refer to animal experience The second explores what is added to the narrative by literature including the animal perspective the zoonarrative and how it is conducted zoocriticism The third analyses cultural texts such as painting circuses and memorials which realistically generate

animal vulnerability and provide non anthropocentric frameworks anchoring our knowledge in the experience of fragile historical reality *On Dolls* Kenneth Gross,2023-12-19 Some of the greatest thinkers and writers of our age meditate on play and the mysteries of inanimate life This unusual literary collection contains writings from Baudelaire Kleist Rilke Freud Kafka Walter Benjamin Bruno Schulz Elizabeth Bishop Dennis Silk and Marina Warner The essays and reflections explore the seriousness of play and the mysteries of inanimate life the unknown spaces dust lost objects and small animals that fill any house which have provoked many writers to take the side of these dead or non human things resulting in some of the most profound passages in literature The collection is introduced and edited by Kenneth Gross On Dolls includes contributions from Heinrich Von Kleist On the Marionette Theatre Charles Baudelaire The Philosophy of Toys Sigmund Freud The Uncanny Rainer Maria Rilke On the Dolls of Lotte Pritzel Frank Kafka The Cares of a Family Man Bruno Schulz Tailor s Dummies Walter Benjamin Old Toys The Toy Exhibition at the Markisches Museum Elizabeth Bishop Cirque d Hiver Dennis Silk The Marionette Theatre and Marina Warner On the Threshold Sleeping Beauties **Tradition, Literature and Politics in East-Central Europe** Carl Tighe,2020-12-30 Milan Kundera warned that in in the states of East Central Europe attitudes to the west and the idea of Europe were complex and could even be hostile But few could have imagined how the collapse of communism and membership of the EU would confront these countries with a life that was suddenly and disconcertingly modern and which challenged sustaining traditions in literature culture politics and established views on identity Since the countries of East Central Europe joined the European Union in 2004 the politicians and oppositionists of the centre left who once led the charge against communism have often been forced to give way to right wing authoritarian populist governments These governments while keen to accept EU finance have been determined to present themselves as protecting their traditional ethno national inheritance resisting foreign interference stemming the gay invasion halting Islamic replacement and reversing women s rights They have blamed Communists liberals foreigners Jews and Gypsies revised abortion laws tampered with their constitutions to control the Justice system and taken over the media to an astonishing degree By 2019 amid calls for the suspension of their voting rights both Poland and Hungary had been taken to the European Court of Justice and the European Parliament and had begun to explore ways to put conditions on future EU funding This book focuses on the interface between tradition literature and politics in east central Europe focusing mainly on Poland but also Hungary and the Czech Republic It explores literary tradition and the role of writers to ask why these left liberals who were once ubiquitous in the struggles with communism are now marginalised often reviled and almost entirely absent from political debate It asks in what ways the advent of capitalism normalised literature and what the consequences might be It asks whether the rise of chauvinism is normal in this part of the world and whether the literary traditions that helped sustain independent political thought through the communist years now instead of supporting literature feed nationalist opinion and negative attitudes to the idea of Europe *New Perspectives in Twentieth-Century Polish Literature* Stanislaw Eile,Ursula Phillips,1992-06-18

works that integrate text and material features of the book into an organic whole in accordance with the author's design. The present volume collects essays inspired by this theoretical concept first proposed by Polish poet Zenon Fajfer in 1999 but soon picked up and elaborated on by international scholars. As noted by the contributing authors preceding Jessica Pressman's idea of bookishness and coinciding with N Katherine Hayles' fundamental writings, literature appeared at the end of the 20th century as if to resume and systematize the intuitions and provocative statements of writers concerned with the future of the book. It fits into a wider turn towards the recognition of the embodied nature of information in anthropology, literary textual media and AI studies. Yet its distinctness consists in the fact that it was suggested by a creative writer and that it proposes to see the authorially shaped materiality of writing in terms of a literary genre. The essays collected here present the modernist roots and inspirations of literature, address the semantics of typography and the question of materiality of literary writing and explore how the abstract body of the printed book is transformed into an experience of embodiment. The volume is completed with a reprint of Fajfer's seminal essays with a view to making them more available to English speaking readers.

Polish Literature as World Literature Piotr Florczyk, K. A. Wisniewski, 2022-12-15. This carefully curated collection consists of 16 chapters by leading Polish and world literature scholars from the United States, Canada, Italy and of course Poland. An historical approach gives readers a panoramic view of Polish authors and their explicit or implicit contributions to world literature. Indeed the volume shows how Polish authors from Jan Kochanowski in the 16th century to the 2018 Nobel laureate Olga Tokarczuk have engaged with their foreign counterparts and other traditions, active participants in the global literary network and the conversations of their day. The volume features views of Polish literature and culture within theories of world literature and literary systems with a particular attention paid to the resurgence of the idea of the physical book as a cultural artifact. This perspective is especially important since so much of today's global literary output stems from Anglophone perceptions of what constitutes literary quality and tastes. The collection also sheds light on specific issues pertaining to Poland such as the idea of Polishness and global phenomena including social and economic advancement as well as ecological degradation. Some of the authors discussed like the Romantic poet Adam Mickiewicz or the 1980 Nobel laureate Czesław Miłosz were renowned far beyond the borders of their country while others like the contemporary travel writer and novelist Andrzej Stasiuk embrace regionalism seeing as they do in their immediate surroundings a synecdoche of the world at large. Nevertheless the picture of Polish literature and Polish authors that emerges from these articles is that of a diverse cosmopolitan cohort engaged in a mutually rewarding relationship with what the late French critic Pascale Casanova has called the world republic of letters.

(Un)masking Bruno Schulz, 2009-01-01. Whatever critical scalpel one selects for dissecting the literary works of Bruno Schulz (1892-1942) there will always be a certain degree of textual resistance which cannot be broken. strategies of reading Schulz's works combinations fragmentations reintegrations being fully aware of course of the relativity of each particular approach In addition the book sets out to explore all of Schulz's creative output i.e. his stories as well as his graphic epistolary and even literary critical works as one of Schulz's main goals was exactly to cross artificially set up boundaries between among other things different artistic media of expression The book for the first time brings together leading Schulzologists Jarzbski Robertson Sproede and their prospective successors Augsburgers Gorin Kato Suchaska Dray ska Underhill Wojda established Polish academics D browski Markowski Skwara Weretiuk and their foreign counterparts De Bruyn Gall Meyer Fraatz Schulte Zielski scholars primarily working on other authors Anessiliwa urek and those focusing on other art forms Sanchez Pardo Watt The editors introduction offers an overview of seven decades of Schulzology The book is of interest for both readers with a general interest in world literature and or a particular interest in Polish and Jewish studies
