Littell's Living Age ,1917 Gender-Related Variation in the Speech of English and Romanian Adolescents Costin-Valentin Oancea, 2016-09-23 This book represents a synchronic sociolinguistic analysis of gender related variation in the speech of English and Romanian adolescents It is motivated by the belief that variation is a characteristic of natural language and that a comprehensive understanding of language must include a grasp of the nature and function of variation The book analyses sociolinguistic features of adolescent speech that occur in natural spontaneous everyday speech thus representing a major contribution to the study of language in its social context **Aerial Age Weekly** ,1919 Sporting Review "Craven, 1839 **Glasgow** Caroline Macafee, 1983-01-01 The Glasgow toonheid vernacular is certainly the most vital and widespread if least prestigious form of present day Scots No comprehensive description has existed so far Macafee s sociolinguistic research having barely scratched the surface Caroline Macafee s long introduction to the emergence and present distribution of the variety is not only a memorable feat in itself it is also closely related to the 73 texts which include
