Ammerman,Michel Hersen,2012-12-06 Since the publication of the first edition in 1991 there has been substantial progress in our understanding of the etiology and associated features of domestic violence As in the first edition this book elucidates and highlights the complex multidisciplinary issues facing clinicians who work with family violence cases Each chapter combines two illustrative cases with a broader discussion of the issues that are encountered by clinicians working with families that engage in abuse or neglect      **Slaughter of the Innocents** Conseil de la radio-television canadienne,1971      **Four Perspectives on the Status of Child Abuse and Neglect Research** Herner and Company,1977      Living Nonviolently Gabriel Moran,2011-03-31 Are human beings naturally violent Is war the fate of the human race Despite the depressing record of the past the world s future depends upon avoiding war and drastically reducing violence Living Nonviolently Language for Resisting Violence examines carefully the language of violence and war One of the first casualties of violence is language which in turn makes resistance to violence difficult to articulate In the first four chapters Gabriel Moran proposes distinctions for the interconnected ideas of force power aggressiveness violence and war not to invent a new and logical language but to ground the meaning of these terms in our human experience That revitalization of ordinary language depends upon an inclusive language of men and women adults and children human and nonhuman animals The fifth chapter locates the potential for both encouraging violence and resisting violence in the peculiar logic of religion Jesus Sermon on the Mount is commonly invoked by people who say that nonviolence may be an admirable ideal for a few people but it is irrelevant for most people and for all nations in this chapter Moran examines the widely misunderstood sermon in detail to illustrate its potential for resisting violence For a conclusion he discusses practical means of education that are helpful to reaching some understanding of violence and resistance to violence Living Nonviolently is written for scholars in peace studies political philosophy or religious studies and for anyone who wishes to understand the roots of violence and war      National Library of Medicine Current Catalog National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70      The Spectrum Of Child Abuse R. The Management of Child Protection Services Robert Sanders, 2019-05-23 First published in 1999 The Management of Child Protection Services is not about child abuse but about child protection It is about the arrangements that professionals from different disciplines make to ensure they operate together effectively to protect the most vulnerable children in society The book examines five different contexts of child protection historical cross cultural structural managerial and professional and consideration of the operation of Area Child Protection Committees In exploring these contexts the book seeks to address such questions as how can universal standards be applied to protect vulnerable children whilst avoiding ethnocentrism and from where are derived historically and cross culturally the models of child protection adopted in the UK today It also seeks to identify the different professional contexts roles and contributions of agencies involved in child protection with a view to promoting interdisciplinary understanding These questions and understandings are necessary if changes currently being

contemplated are to enhance the effectiveness of child protection      *Child Abuse and Neglect Programs* Community Research Applications, Inc, National Institute of Mental Health (U.S.), 1977      *Violence in Canada* Jeffrey Ross, 2017-09-29

Many people consider Canada particularly in comparison to its southern cousin as a peaceable kingdom. However, as the historical record demonstrates, Canadians have never been a thoroughly non-violent people. *Violence in Canada* highlights from an interdisciplinary perspective the major areas and contexts where violence takes place. Consisting of thirteen contributions, the book forms an indispensable guide to the subject. All of the authors are experts in their field, many with international reputations and are drawn from the fields of sociology, political science, history, and criminology. The foreword by Ted Robert Gurr, author of *Violence in America*, is followed by an historical analysis of violence on the Canadian western frontier. Other scholars describe contemporary violence by and against indigenous peoples, women, children, and the elderly in labor-related disputes, homicide, police and prison violence, terrorism, and discuss government responses and policy implications. Each chapter specifically addresses the sociological and political dimensions of violence. The authors make ample use of statistics and empirical research. Jeffrey Ian Ross's introduction outlines the sociopolitical dynamics of violence, and his summary chapter offers directions for future research. When the book was first published in 1995, it was widely praised by scholarly journals and has since become a standard text in the study of violence and modern Canadian cultural studies. The book is all the more valuable as its new introduction places its findings in the context of research that has been produced since the original publication. *Violence in Canada* will be of interest to sociologists, criminologists, and political scientists. Jeffrey Ian Ross is an associate professor in the Division of Criminology, Criminal Justice, and Social Policy, and fellow with the Center for Comparative and International Law, University of Baltimore. His work has appeared in many academic journals and chapters in academic texts, as well as articles in popular magazines in Canada and the United States. He is the author, co-author, editor, or co-editor of eight books. Ted Robert Gurr is Distinguished University Professor at the University of Maryland. Among his books are *Why Men Rebel* and *Violence in America*.
