Sleaze Creatures David Earl Worth, 1995 An illustrated guide to obscure Hollywood horror movies 1956 1959

It Came from 1957 Rob Craig, 2013-09-21 America in the 1950s was a cauldron of contradictions Advances in technology chafed against a grimly conservative political landscape the military industrial complex ceaselessly promoted the Communist menace young marrieds fled crumbling cities for artificial communities known as suburbs and the corporate cipher known as The Organization Man was created along with stifling images of women The decade huddled under the fear of nuclear holocaust was also dedicated to all things futuristic Science fiction was in its salad days in magazines and novels and in motion pictures trying every trick in the book to lure customers back from television including reliance on monster movies All of these forces collided in 1957 when an astounding 57 movies of the science fiction horror and fantasy variety were shown in the United States a record unmatched to this day Reflecting some of the socio political topics of the day several are exceptional examples of their genres This book critically discusses each of the films

Science Fiction America David J. Hogan, 2015-05-07 From the inception of the science fiction film writers directors producers and actors have understood that the genre lends itself to a level of social commentary not available in other formats Viewers find it easier to accept explorations of such issues as domestic violence war xenophobia faith identity racism and other difficult topics when the protagonists exist in future times or other worlds that are only vaguely similar to our own The 22 original essays in this collection examine how the issues in particular science fiction films from 1930 s High Treason to 1999 s The Iron Giant reflect and comment on the prevailing issues of their time The 16 writers including such noted contributors as Ted Okuda Gary Don Rhodes Bryan Senn John Soister and Ken Weiss provide insight on how the genre s wistful daydreaming forthcoming wonders and nightmarish scenarios are often grounded in the grimmer realities of the human condition Films covered include It Came from Outer Space Godzilla The 27th Day Alien and Starship Troopers plus television s The Adventures of Superman the Flash Gordon serials and vintage space cartoons by Fleischer
