Debunking the Myths of Colonization Samar Attar,2010-04-13 Debunking the Myths of Colonization examines Salman Rushdie s thesis on the paradoxical nature of colonialism and its horrific impact on the psyche of the colonized It probes Frantz Fanon s theories concerning the relationship between colonizers and colonized and attempts to apply these theories to modern Arabic literature Like Rushdie and Fanon many Arab writers have embarked on a journey to the metropolis of their ex colonial masters Due to their encounter with English or French culture they have written memoirs poems or fictions in which they have represented themselves and the other Their representations differ markedly according to their own make up as human beings their class education experiences and

gender Yet what brings them together is their love hate relationship with the ex colonizer In the case of the Palestinian writers however there is only bitterness and bewilderment at Israel as a colonizing power in the 21st century and its Jewish citizens who were once victims in Europe but now have turned into victimizers *Proceedings of the National Science Council, Republic of China* ,2002
