Sleepwalking Through History:

Sleepwalking Through History Haynes Johnson, 2003 National bestseller In this brilliantly readable book a Pulitzer Prize winning journalist chronicles the Reagan decade when America fell from dominant world power to struggling debtor nation and when optimism turned to foreboding In human terms and living case histories Haynes Johnson captures the drama and tragedy of an era nurtured by greed and a morality that found virtue in not getting caught It is morning again in America Reagan s campaign commercials told us and for too long we embraced that convenient lie Indeed the problems that came to plague us in that decade are with us even more today as Johnson memorably demonstrates in his afterword Notes on an Era written especially for this new paperback reissue This book will remain a signature work of political analysis for years to come Bulletin of the Atomic Scientists ,1991-09 **Sleepwalking through history** ,1992 *Deconstructing Reagan* Kyle Longley, Jeremy Mayer, Michael Schaller, John W. Sloan, 2015-01-28 Although he left office nearly 20 years ago Ronald Reagan remains a potent symbol for the conservative movement The Bush administration frequently invokes his legacy as it formulates and promotes its fiscal domestic and foreign policies His name is watchword for campus conservatives who regard him in a way that borders on hero worship Conservative media pundits often equate the term Reaganesque with personal honor fiscal rectitude and unqualified success in dealing with foreign threats But how much of the Reagan legacy is based on fact how much on idealized myth And what are the reasons political and otherwise behind the mythmaking *Deconstructing Reagan* is a fascinating study of the interplay of politics and memory concerning our fortieth president While giving credit where credit is due the authors scrutinize key aspects of the Reagan legacy and the conservative mythology that surrounds it **Between Promise and Policy** John Karaagac, 2002-01-01 *Between Promise and Policy* is a thoughtful and intriguing study that compares the professed ideals and actual realities of conservative reformism leading up to and during the Reagan presidency The author examines Ronald Reagan s defense program his policies to reduce the size of the federal government regulatory reform and the reprioritizing of government expenditures Karaagac concludes that the Reagan administration effectively employed ideology as a political tool President Reagan could alternate between being pragmatic and flexible in order to score political victories while making a stand as a staunch defender of conservative principles in order to rally his supporters **An All-Consuming Century** Gary Cross, 2000-09-14 The unqualified victory of consumerism in America was not a foregone conclusion The United States has traditionally been the home of the most aggressive and often thoughtful criticism of consumption including Puritanism Prohibition the simplicity movement the 60s hippies and the consumer rights movement But at the dawn of the twenty first century not only has American consumerism triumphed there isn t even an ism left to challenge it *An All Consuming Century* is a rich history of how market goods came to dominate American life over that remarkable hundred years between 1900 and 2000 and why for the first time in history there are no practical limits to consumerism By 1930 a distinct consumer society had emerged in the United States in which the taste

speed control and comfort of goods offered new meanings of freedom thus laying the groundwork for a full scale ideology of consumer s democracy after World War II From the introduction of Henry Ford s Model T so low in price that no man making a good salary will be unable to own one and the innovations in selling that arrived with the department store window displays self service the installment plan to the development of new arenas for spending amusement parks penny arcades baseball parks and dance halls Americans embraced the new culture of commercialism with reservations However Gary Cross shows that even the Depression the counterculture of the 1960s and the inflation of the 1970s made Americans more materialistic opening new channels of desire and offering opportunities for more innovative and aggressive marketing The conservative upsurge of the 1980s and 90s indulged in its own brand of self aggrandizement by promoting unrestricted markets The consumerism of today thriving and largely unchecked no longer brings families and communities together instead it increasingly divides and isolates Americans Consumer culture has provided affluent societies with peaceful alternatives to tribalism and class war Cross writes and it has fueled extraordinary economic growth The challenge for the future is to find ways to revive the still valid portion of the culture of constraint and control the overpowering success of the all consuming twentieth century

Museums without Borders Robert R. Janes, 2015-12-14 Drawing together nearly 40 years of experience *Museums without Borders* presents the key works of one of the most respected practitioners and scholars in the field Through these selected writings Robert R Janes demonstrates that museums have a broader role to play in society than is conventionally assumed He approaches the fundamental questions of why museums exist and what they mean in terms of identity community and the future of civil life This book consists of four Parts Indigenous Peoples Managing Change Social Responsibility and Activism and Ethics The Parts are ordered chronologically and each begins with an introduction and an overview of the ensuing articles which situates the papers in their historical and cultural contexts Using an interdisciplinary approach that combines anthropology ethnography museum studies and management theory Janes both questions and supports mainstream museum practice in a constructive and self reflective manner offering readers alternative viewpoints on important issues Considering concepts not generally recognized in

museum practice such as the Roman leadership model of *primus inter pares* and the Buddhist concept of mindfulness Janes argues that the global museum community must examine how they can meet the needs of the planet and its inhabitants Museums without Borders charts the evolving role of the contemporary museum in the face of environmental societal and ethical challenges and explores issues that have and will continue to shape the museum sector for decades to come This book demonstrates that it is both reasonable and essential to expand the purpose of museums at this point in history not only because of their unique characteristics and value to society but also because of Janes respect and admiration for their rich legacy It is time that museums assist in the creation of a new caring and more conscious future for themselves and their communities This can only be done through authentic engagement with contemporary issues and aspirations

A New World-System Donald G. Reid, 2020-11-18 *A New World System From Chaos to Sustainability* examines the present crisis in the social and ecological environment that is producing profound potentially catastrophic challenges to the planet and humanity and outlines a process for moving forward to address these critical issues This book is a cautionary interpretation of the present and vision for the future Unlike other books on this or allied subjects that are focused singularly Part 1 surveys the five major threats facing humanity today climate change inequality and poverty new technologies migration and globalization It approaches the challenge of integrating these phenomena into a global picture from a systems perspective rather than taking a purely reductionist approach to understanding what is occurring in the world today Part 2 moves from identifying the problems to solving them with chapters examining the ability of the present world system to address these issues and outlining a process for action The book concludes by discussing what could follow capitalism as a social organizing strategy and perhaps more importantly the consequences to the planet if we do not construct a new world system This book is essential reading for students and scholars of sustainable development climate change environmental studies rural and urban planning environmental psychology political economy sociology social policy leisure studies and environmental politics More broadly it is a vital resource for all those interested in building a sustainable society

Marching in Step Alexander Macaulay, 2011-03-01 Combining the nuanced perspective of an insider with the critical distance of a historian Alexander Macaulay examines The Citadel's reactions to major shifts in postwar life from the rise of the counterculture to the demise of the Cold War The Citadel is widely considered one of the most traditional institutions in America and a bastion of southern conservatism In *Marching in Step* Macaulay argues that The Citadel has actually experienced many changes since World War II changes that often tell us as much about the United States as about the American South Macaulay explores how The Citadel was often an undiluted showcase for national debates over who deserved full recognition as a citizen most famously first for black men and later for women As the boundaries regarding race gender and citizenship were drawn and redrawn Macaulay says attitudes at The Citadel reflected rather than stood apart from those of mainstream America In this study of an iconic American institution Macaulay also raises questions over issues of southern distinctiveness and sheds light on the

South's real and imagined relationship with the rest of America

AIDS in the Heartland

Katie Batza, 2025-10-14 Histories of AIDS in the United States typically regard San Francisco and New York to be the epicenters of the crisis The Midwest if considered at all appears as a footnote to the social medical and political struggles of coastal queer

communities But the US heartland cultivated its own distinct strategies for survival that became the surprising and lasting blueprint for LGBTQ politics today Unearthing this complex story health activism expert Katie Batza masterfully illustrates the diversity resilience innovation and influence of the Midwest s responses to the AIDS epidemic Though AIDS cases were relatively low compared to the coasts the conservative political and religious landscape lack of medical infrastructure and diffuse gay communities brought Midwesterners together in unexpected ways Weaving compelling oral histories with remarkable archival research Batza sheds light on the moving stories of a constellation of essential responders such as crop duster pilots church van drivers nuns tribal leaders and synagogue ladies in places such as decommissioned convents backyard barbecues high school gyms and city parks These unique collaborations fostered loud radical queer politics and homonormative strategies alike but the myth of a homogenously white Christian and heterosexual heartland endured In AIDS in the Heartland Batza contends that the respectability and palatability of the heart of the nation prevail as core values in national LGBTQ political strategies today

Her Hands Dr. Emma Day,2023-08-01 In Her Hands examines the various strategies women have utilized to fight for recognition as individuals vulnerable to and living with HIV AIDS across multiple settings since the 1980s Taking a new chronological and thematic approach to the study of the US epidemic it explores five arenas of women s AIDS activism transmission and recognition reproductive justice safer sex campaigns for queer women the carceral state and HIV prevention and treatment In so doing it moves the historical understanding of women s experiences of AIDS beyond their exclusion from the initial medical response and the role women played as the supporters of gay men Asking how and on what terms women succeeded in securing state support In Her Hands argues that women protesting the neglect of their health care needs always risked encountering punitive intervention on behalf of the symbolic needs of fetuses and children as well as wider society deemed to need protecting from them
