Slow Through Eden A Novel:

Thomas Hardy: The Novels Norman Page, 2017-03-04 This book is designed to serve as a practical guide for students and others wishing to improve their skills in the detailed analysis and discussion of Hardy's prose texts. Its aim is to sharpen readers' awareness of the complexity and subtlety of Hardy's art by encouraging responsiveness to such aspects as language and style, imagery and symbol, descriptive and dramatic method and narrative technique. At the same time, extracts are considered not in isolation but in relation to the overall purposes of a highly organised text. While the main focus is on four of Hardy's most widely read novels, the twenty-four examples of close analysis cover six major themes that are relevant to all his fiction. There are also numerous references to his other writings in prose and verse. The second part of the book provides in succinct form essential background material, including an outline of Hardy's life and career and an account of the literary, historical and intellectual contexts of his fiction. As well as a guide to further reading, a chapter is devoted to samples of criticism illustrating a range of approaches to the chosen texts and representing the work of important critics past and present.

The Pace of Fiction Brian Gingrich, 2021-07-15 The Pace of Fiction redefines the literary history of the novel by analyzing its most elaborate feature, its pace. It moves from the rise of the novel to realism and modernism. It starts by tracing the evolution of two narrative units: scenes shown slowly and summaries told swiftly. These units emerge from the conflict of epic and drama, gain shape in the commentaries of Fielding and Goethe, and become dynamically opposed in nineteenth-century realism. In *Middlemarch*, they rotate in regular sequence: summaries move swiftly until scenes slow them down; scenes play out dramatically until summaries sweep them forward. Their movement imitates the conflict of fate and free will. Over the course of the nineteenth century, however, scenic impulses overtake summary storytelling. The reader sees the tendency already in Austen's dialogues, Hawthorne's tableaux, or Balzac's battering drama, and finds it in Jane Eyre's placement of summaries in private scenes. When Flaubert extends scenic vividness to all of his summaries, and when Henry James subordinates his summaries to scenic consciousness, the extreme pressure of scene upon summary brings the opposition of realist pacing to collapse. But other oppositions arise in the modernisms that follow. In the alternation of stasis and kinesis of drifting thoughts and everyday actions of stories and acts of storytelling, in Proust, Joyce, Woolf, Mann, Hemingway, pace gathers and creates meaning in new ways.

Recognizing the Romantic Novel Jillian Heydt-Stevenson, Charlotte Sussman, 2010-01-01 The field of literature changed dramatically at the end of the eighteenth century as, under the shadow of Romanticism, the novel became the most important literary genre of its day. Often neglected, the novels of the Romantic era puzzle critics yet are much more concerned with the unexpected, the unconventional, and the uncanny than their immediate predecessors or successors, and their authors include some of the most important novelists of British literary history: Jane Austen, Fanny Burney, James Hogg, Mary Shelley, and Sir Walter Scott, among them. Featuring contributions from distinguished scholars in the field, *Recognizing the Romantic Novel* evaluates the vibrancy and centrality of the Romantic novel, showcasing

the important new voices and directions in the field and showing it can hold its own in the canon of literary scholarship These essays offer us a lens through which we may recognize the Romantic novel as it has never been recognized before Times Literary Supplement *Thomas Hardy's Novel Universe* Pamela Gossin, 2017-03-02 In this the first book length study of astronomy in Hardy's writing historian of science and literary scholar Pamela Gossin brings the analytical tools of both disciplines to bear as she offers unexpected and sophisticated readings of seven novels that enrich Darwinian and feminist perspectives on his work extend formalist evaluations of his achievement as a writer and provide fresh interpretations of enigmatic passages and scenes In an elegantly crafted introduction Gossin draws together the shared critical values and methods of literary studies and the history of science to articulate a hybrid model of scholarly interpretation and analysis that promotes cross disciplinary compassion and understanding within the current contention of the science culture wars She then situates Hardy's own deeply interdisciplinary knowledge of astronomy and cosmology within both literary and scientific traditions from the ancient world through the Victorian era Gossin offers insightful new assessments of *A Pair of Blue Eyes* *Far from the Madding Crowd* *The Return of the Native* *Two on a Tower* *The Woodlanders* *Tess of the D'Urbervilles* and *Jude the Obscure* arguing that Hardy's personal synthesis of ancient and modern astronomy with mythopoetic and scientific cosmologies enabled him to write as a literary cosmologist for the post Darwinian world The profound new myths that comprise Hardy's novel universe can be read as a sustained set of literary thought experiments by which he critiques the possibilities limitations and dangers of living out the storylines that such imaginative cosmologies project for his time and ours *Eternity's Ennui* M.B. Pranger, 2010-10-05 Augustine articulates temporality as focus rather than duration It encompasses the shift from the future through the present to the past Yet this a causal free floating concept of time has never been applied to the shape of Augustine's own narrative in the *Confessions* or to that other vintage Augustinian problem predestination This book examines Augustinian temporality by experimentally projecting it onto modernist authors Kleist Henry James Kafka Beckett who are less dependent on sequential narrative and more concerned with the fragility and sustainability of voice in time Processed through this mill of unfamiliar readings the poignant problem of Augustinian time is how focus can account for digression How can one deal with an unfathomably brief notion of time while eternity's *longueur* hovers over it *The Bright Book of Life* Harold Bloom, 2021-12-28 America's most original and controversial literary critic writes trenchantly about forty eight masterworks spanning the Western tradition from *Don Quixote* to *Wuthering Heights* to *Invisible Man* in his first book devoted exclusively to narrative fiction In this valedictory volume Yale professor Harold Bloom who for more than half a century was regarded as America's most daringly original and controversial literary critic gives us his only book devoted entirely to the art of the novel With his hallmark percipience remarkable scholarship and extraordinary devotion to sublimity Bloom offers meditations on forty eight essential works spanning the Western canon from *Don Quixote* to *Book of Numbers* from *Wuthering Heights* to *Absalom Absalom* from *Les Misérables* to *Blood Meridian* from *Vanity Fair* to

Modern Criticism and Theory Nigel Wood,David Lodge,2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection s aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual

materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today **Directions Home** George Elliott

indicating Percy Shelley's amendments and contributions. For the first time we can hear Mary's sole voice which is colloquial, fast-paced and sounds more modern to a contemporary reader. We can also see for the first time the extent of Percy Shelley's contribution: some 5,000 words out of 72,000 and his stylistic and thematic changes. His occasionally florid prose is in marked contrast to the directness of Mary's writing. Interesting too are Percy's suggestions which humanize the monster, thus shaping many of the major themes of the novel as we read it today. In these two versions of *Frankenstein* we have an exciting new view of one of literature's greatest works.
