as the larger theoretical implications of events management Drawing on diverse viewpoints and theoretical perspectives the book draws wider comparisons to connect events management to larger themes in the social sciences such as human animal relations nationalism place branding event impacts event experience and inclusion and exclusion The book is a contribution to two fields In relation to human animal studies it focuses on how the Icelandic horse breed is marketed and celebrated through top tier competition whereas from an events management perspective it considers the role of the event in community building the practical and theoretical aspects of running a sustainable equestrian event and the issues that arise in multispecies event contexts
