Summa Theologiae, Prima Pars: Volume 3, Human Beings and God's Governance of Creation, QQ 75-119 Thomas Aquinas, Thomas de Vio Cajetan, 2023-06-23 This book is an introduction to three questions on love according to St Thomas Aquinas Summa Theologiae I II qq 26 28 These three questions reflect on the nature of love q 26 the causes of love q 27 and the effects of love q 28 It is thus an introduction to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes making the body of the text accessible to more readers **Lying Bodies** Akiko Shimizu, 2008 Lying Bodies explores how to survive with invisible non normative identities by focusing on literally invisible differences The first half of the book attempts a theoretical account of the self in the field of vision drawing on psychoanalytic theories of the formation of the self In order for the

survival of the self with a visual image that both enables and threatens it the book proposes the strategy of the lying body which combines mimicry with equivocalty The second half of the book demonstrates possible forms of the lying body through an analysis of specific examples of cultural practices including works by artists Cindy Sherman and Morimura Yasumasa as well as the claim of invisible sexual differences by feminine looking lesbians
