Conrad,2005 Over the last several decades academic discourse on racial inequality has focused primarily on political and social issues with significantly less attention on the complex interplay between race and economics African Americans in the U S Economy represents a contribution to recent scholarship that seeks to lessen this imbalance This book builds upon and significantly extends the principles terminology and methods of standard economics and black political economy Influenced by path breaking studies presented in several scholarly economic journals this volume is designed to provide a political economic analysis of the past and present economic status of African Americans The chapters in this volume represent the work of some of the nation s most distinguished scholars on the various topics presented The individual chapters cover several well defined areas including black employment and unemployment labor market discrimination black entrepreneurship racial economic inequality urban revitalization and black economic development The book is written in a style free of the technical jargon that characterizes most economics textbooks While the book is methodologically sophisticated it is accessible to a wide range of students and the general public and will appeal to academicians and practitioners alike

Urban America Reconsidered David L. Imbroscio,2011-01-15 The aftermath of Hurricane Katrina laid bare the tragedy of American cities What the storm revealed about the social conditions in New Orleans shocked many Americans Even more shocking is how widespread these conditions are throughout much of urban America Plagued by ineffectual and inegalitarian governance acute social problems such as extreme poverty and social and economic injustice many American cities suffer a fate similar to that of New Orleans before and after the hurricane Gentrification and corporate redevelopment schemes merely distract from this disturbing reality Compounding this tragedy is a failure in urban analysis and scholarship Little has been offered in the way of solving urban America s problems and much of what has been proposed or practiced remains profoundly misguided in David Imbroscio s view In *Urban America Reconsidered* he offers a timely response He urges a reconsideration of the two reigning orthodoxies in urban studies regime theory which provides an understanding of governance in cities and liberal expansionism which advocates regional policies linking cities to surrounding suburbs Declaring both approaches to be insufficient and sometimes harmful Imbroscio illuminates another path for urban America remaking city economies via an array of local economic alternative development

strategies or LEADS Notable LEADS include efforts to build community based development institutions worker owned firms publicly controlled businesses and webs of interdependent entrepreneurial enterprises Equally notable is the innovative use of urban development tools to generate indigenous stable and balanced growth in local economies Urban America Reconsidered makes a strong case for the LEADS approach for constructing progressive urban regimes and addressing America s deepest urban problems

The Economies Of Central City Neighborhoods Richard Bingham,Zhongcai Zhang,2018-03-05 In The Economies of Central City Neighborhoods Bingham and Zhang examine the location of industry employment in a variety of producer and consumer oriented industries in relation to major neighborhood characteristics such as demographic labor force socioeconomic and housing variables While the primacy of poverty is an aspect of central city neighborhoods that drives the growth and decline of neighborhood economies it implies the significance of effective intervention at early stages of neighborhood economic disintegration Neighborhood cluster of industries suggests a direction of neighborhood redevelopment and the pervasive spill over effects of this necessitate the coordination among redevelopment initiatives of bordering neighborhoods The research in this text contributes to the urban literature by providing an industry by industry analysis of the economies of central city sub areas in Ohio This study is informative and illuminating to central city revitalization redevelopment planning and related efforts that often take place at the neighborhood level
