The Mind Of William Paley A Philosopher And His Age

Adrian Hastings

The Mind Of William Paley A Philosopher And His Age:

The Mind of William Paley D. L. LeMahieu, 1976 **The Cambridge History of Eighteenth-century Philosophy** Knud Haakonssen, 2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted **Utilitarianism in the Age of Enlightenment** Niall O'Flaherty, 2019 Studies the influential tradition of theological utilitarianism in the eighteenth century through the lens of William Paley s life and thought **David Hume: Dialogues Concerning Natural Religion In Focus** Stanley Tweyman, 2013-05-02 Based on the original handwritten manuscript this book provides a new accurate edition of Hume s important work faithful to his original text marginal notes and changes Stanley Tweyman s comprehensive introduction gives an interpretation of the Dialogues as a whole as well as close analysis of each of the work s twelve parts Hume s views on evil are discussed in four previously published articles and the volume concludes with an extensive bibliography Originally published in 1991 **The Oxford Handbook of Nineteenth-Century Christian Thought** Joel Rasmussen, Judith Wolfe, Johannes Zachhuber, 2017-06-22 Through various realignments beginning in the Revolutionary era and continuing across the nineteenth century Christianity not only endured as a vital intellectual tradition contributed importantly to a wide variety of significant conversations movements and social transformations across the diverse spheres of intellectual cultural and social history The Oxford Handbook of Nineteenth Century Christian Thought proposes new readings of the diverse sites and variegated role of the Christian intellectual tradition across what has come to be called the long nineteenth century It represents the first comprehensive examination of a picture emerging from the twin recognition of Christianity s abiding intellectual influence and its radical transformation and diversification under the influence of the forces of modernity Part one investigates changing paradigms that determine the evolving approaches to religious matters during the nineteenth century providing readers with a sense of the fundamental changes at the time Section two considers human nature and the nature of religion It explores a range of categories rising to prominence in the course of the nineteenth century and influencing the way religion in general and Christianity in particular were conceived Part three focuses on the intellectual cultural and social developments of the time while part four looks at Christianity and the arts a major area in which Christian ideas stories and images were used adapted changes and challenged during the nineteenth century Christianity was radically pluralized in the nineteenth century and the fifth section is dedicated to Christianity and Christianities The chapters sketch the major churches and confessions during the period The final part considers doctrinal themes registering the wealth and scope through broad narrative and individual example This authoritative reference work offers an indispensable overview of a period whose forceful ideas continue to be present in contemporary theology **The Spiritual Journal of Henry David Thoreau** Malcolm Clemens Young, 2009 Most people who care about nature cannot help but use religious language to

describe their experience We can trace many of these conceptions of nature and holiness directly to influential nineteenth century writers especially Henry David Thoreau 1817-1862 In *Walden* he writes that God himself culminates in the present moment and that in nature we encounter the workman whose work we are But what were the sources of his religious convictions about the meaning of nature in human life

Charles Darwin In Cambridge: The Most Joyful Years John Van Wyhe, 2014-05-27 Charles Darwin's years as a student at the University of Cambridge were some of the most important and formative of his life Thereafter he always felt a particular affection for Cambridge For a time he even considered a Cambridge professorship as a career and sent three of his sons there to be educated Unfortunately the remaining traces of what Darwin actually did and experienced in Cambridge have long remained undiscovered Consequently his day to day life there has remained unknown and misunderstood This book is based on new research including newly discovered manuscripts and Darwin publications and gathers together recollections of those who knew Darwin as a student This book therefore reveals Darwin's time in Cambridge in unprecedented detail

The Bloomsbury Encyclopedia of Utilitarianism James E. Crimmins, 2017-01-26 The idea of utility as a value goal or principle in political moral and economic life has a long and rich history Now available in paperback *The Bloomsbury Encyclopedia of Utilitarianism* captures the complex history and the multi-faceted character of utilitarianism making it the first work of its kind to bring together all the various aspects of the tradition for comparative study With more than 200 entries on the authors and texts recognised as having built the tradition of utilitarian thinking it covers issues and critics that have arisen at every stage There are entries on Plato Epicurus and Confucius and progenitors of the theory like John Gay and David Hume together with political economists legal scholars historians and commentators Cross-referenced throughout each entry consists of an explanation of the topic a bibliography of works and suggestions for further reading Providing fresh juxtapositions of issues and arguments in utilitarian studies and written by a team of respected scholars *The Bloomsbury Encyclopedia of Utilitarianism* is an authoritative and valuable resource

The Mind of Gladstone David Bebbington, 2004-03-11 Gladstone's ideas are far more accessible for analysis now that following the publication of his diaries a record of his reading is available This book traces the evolution of what the diaries reveal as the statesman's central intellectual preoccupations theology and classical scholarship as well as the groundwork of his early Conservatism and his mature Liberalism In particular it examines the ideological sources of Gladstone's youthful opposition to reform before scrutinizing his convictions in theology These are shown to have passed through more stages than has previously been supposed he moved from Evangelicalism to Orthodox High Churchmanship on to Tractarianism and then further to a broader stance that eventually crystallized as a liberal Catholicism His classical studies focused primarily on Homer also changed over time from a version that was designed to defend a traditional worldview to an approach that exalted the depiction of human endeavour in the ancient Greek poet An enduring principle of his thought about religion and antiquity was the importance of community but a fresh axiom that arose from the modifications of his

views was the centrality of all that was human The twin values of community and humanity are shown to have conditioned Gladstone's rhetoric as Liberal leader so making him in terms of recent political thought a communitarian rather than a liberal but one with a distinctive humanitarian message As a result of a thorough scrutiny of Gladstone's private papers the Victorian statesman is shown to have derived a distinctive standpoint from the Christian and classical sources of his thinking and so to have left an enduring intellectual legacy It becomes apparent that his religion Homeric studies and political thought were interwoven in unexpected ways The evolution of Gladstone's central intellectual preoccupations with religion and Homer is the theme of this book It shows how the statesman developed from Evangelism to Orthodox High Churchmanship on to Tractarianism and then further to a broader stance that eventually crystallized as a liberal Catholicism It demonstrates also that his Homeric studies developed over time Neither aspect of his thinking was kept apart from his politics Gladstone's early conservatism emerged from a blend of classical and Christian themes focusing on the idea of community While that motif persisted in his speeches as Liberal leader the category of the human emerged from his religious and Homeric ideas to condition the presentation of his Liberalism In Gladstone's mind there was an intertwining of theology Homeric studies and political thought

Lady Trevelyan and the Pre-Raphaelite Brotherhood John Batchelor, 2011-12-31 An entertaining account of an extraordinary cultural and historical event the establishment by one highly intelligent woman of a salon of the arts in a beautiful country house in Northumberland Wallington Hall was remote from the major centres of artistic activity such as London and Edinburgh Yet Pauline Trevelyan single handedly made it the focus of High Victorian cultural life Among those she attracted into her orbit were Ruskin Swinburne the Brownings the Rossettis Dante Gabriel Christina and William Michael Carlyle and Millais and other members of the Pre-Raphaelite Brotherhood The penniless but clever daughter of a clergyman Pauline Jermyn married an older man whom she met through a shared passion for geology Sir Walter Trevelyan was a philanthropist teetotal vegetarian pacifist and very rich With his encouragement she collected works of art and decorated Wallington Hall with a cycle of vast paintings on the history of Northumberland She was a patron of the arts who provided a fostering environment for many of the geniuses of her day After her death Swinburne wept every time her name was mentioned

God and Nature David C. Lindberg, Ronald L. Numbers, 2023-11-15 Since the publication in 1896 of Andrew Dickson White's classic *History of the Warfare of Science with Theology in Christendom* no comprehensive history of the subject has appeared in the English language Although many twentieth century historians have written on the relationship between Christianity and science and in the process have called into question many of White's conclusions the image of warfare lingers in the public mind To provide an up to date alternative based on the best available scholarship and written in nontechnical language the editors of this volume have assembled an international group of distinguished historians In eighteen essays prepared especially for this book these authors cover the period from the early Christian church to the twentieth century offering fresh appraisals of such encounters as the trial of Galileo the formulation of the Newtonian

worldview the coming of Darwinism and the ongoing controversies over scientific creationism They explore not only the impact of religion on science but also the influence of science and religion This landmark volume promises not only to silence the persistent rumors of war between Christianity and science but also serve as the point of departure for new explorations of their relationship Scholars and general readers alike will find it provocative and readable Since the publication in 1896 of Andrew Dickson White s classic *History of the Warfare of Science with Theology in Christendom* no comprehensive history of the subject has appeared in the English language Although many twentieth century historians *A World History of Christianity* Adrian Hastings,2000-07-05 This superb volume provides the first genuinely global one volume history of the rise and development of the Christian faith An international team of specialists takes seriously the geographical diversity of the Christian story discussing the impact of Christianity not only in the West but also in Latin America Africa India the Orient and Australasia Who Rules the World Hans Schwarz,2021 Schwarz offers a sweeping survey of views of the problem of evil beginning with the world s major religious traditions before focusing on the major views across the broad span of Christian history Book cover **A History of Christian Thought: From the Protestant Reformation to the twentieth century** Justo L. González,1987 A treatment of the evolution of Christian thought from the birth of Christ to the Apostles to the early church to the great flowering of Christianity across the world The final volume begins with the towering theological leaders of the Protestant Reformation and traces the development of Christian thought through its encounter with modernity *A History of Christian Thought Volume III* Dr. Justo L. Gonzalez,2010-09-01 A treatment of the evolution of Christian thought from the birth of Christ to the Apostles to the early church to the great flowering of Christianity across the world The final volume begins with the towering theological leaders of the Protestant Reformation and traces the development of Christian thought through its encounter with modernity Volume 2 9781426721915 Volume 1 9781426721892 **The Book of God** Colin Jager,2007 The Book of God manages to be at once ambitious deliberate and nuanced in its interconnecting conceptions of philosophy and literary criticism Orrin Wang University of Maryland **The Oxford Handbook of Religion and Science** Philip Clayton,Zachary Simpson,2006 The field of science and religion is exploding in popularity among both academics and the reading public This is a comprehensive and authoritative introduction to the debate written by the leading experts yet accessible to the general reader **The Theology of Jonathan Edwards** Michael J. McClymond,Gerald R. McDermott,2012-01-05 Scholars and laypersons alike regard Jonathan Edwards 1703 58 as North America s greatest theologian The Theology of Jonathan Edwards is the most comprehensive survey of his theology yet produced and the first study to make full use of the recently completed seventy three volume online edition of the Works of Jonathan Edwards The book s forty five chapters examine all major aspects of Edwards s thought and include in depth discussions of the extensive secondary literature on Edwards as well as Edwards s own writings Its opening chapters set out Edwards s historical and personal theological contexts The next thirty chapters connect Edwards s theological loci in the temporally ordered way in

which he conceptualized the theological enterprise beginning with the triune God in eternity with his angels to the history of redemption as an expression of God's inner reality ad extra and then back to God in eschatological glory The authors analyze such themes as aesthetics metaphysics typology history of redemption revival and true virtue They also take up such rarely explored topics as Edwards's missiology treatment of heaven and angels sacramental thought public theology and views of non-Christian religions Running throughout the volume are what the authors identify as five basic theological constituents trinitarian communication creaturely participation necessitarian dispositionalism divine priority and harmonious constitutionalism Later chapters trace his influence on and connections with later theologies and philosophies in America and Europe The result is a multi-layered analysis that treats Edwards as a theologian for the twenty-first century global Christian community and a bridge between the Christian West and East Protestantism and Catholicism conservatism and liberalism and charismatic and non-charismatic churches

Religion, Business and Wealth in Modern Britain David Jeremy, 2006-08-21 The relationship of economics capitalism and wealth to the ethics and morality of religion has intrigued and challenged policymakers pressure groups theologians sociologists economists and historians for centuries Here David Jeremy addresses these questions in the context of modern Britain His preliminary survey of historical controversies within religion and business and the accompanying chronology of significant events since the 1770s are an extremely useful introduction for those unfamiliar with the field

Beyond the Republican Revival Eric Ghosh, 2020-10-29 This is the first book-length treatment of both the non-positive and the positive liberty strands of the republican revival in political and constitutional theory The republican revival pursued especially over the last few decades has presented republicanism as an exciting alternative to the dominant tradition of liberalism The book provides a sharply different interpretation of liberty from that found in the republican revival and it argues that this different interpretation is not only historically more faithful to some prominent writers identified with the republican tradition but is also normatively more attractive The normative advantages are revealed through discussion of some central concerns relating to democracy and constitutionalism including the justification for democracy and the interpretation of constitutional rights The book also looks beyond republican liberty by drawing on the republican device of sortition selection by lot It proposes the use of large juries to decide bill of rights matters This novel proposal indicates how democracy might be reconciled with constitutional review based on a bill of rights Republicanism is not pitted against liberalism the favoured values and institutions fit with liberal commitments

Unveiling the Magic of Words: A Report on "**The Mind Of William Paley A Philosopher And His Age**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance.
