The Mingling of the Canadian and American Peoples Marcus Lee Hansen, 1941 **The Mingling of the Canadian and American Peoples** Marcus Lee Hansen, John Bartlet Brebner, 1970 *The Mingling of the Canadian and American Peoples* Marcus Lee Hansen, 1940 **Immigrants in American History** Elliott Robert Barkan, 2013-01-17 This encyclopedia is a unique collection of entries covering the arrival adaptation and integration of immigrants into American culture from the 1500s to 2010 Few topics inspire such debate among American citizens as the issue of immigration in the United States Yet it is the steady influx of foreigners into America over 400 years that has shaped the social character of the United States and has favorably positioned this country for globalization Immigrants in American History Arrival Adaptation and Integration is a chronological study of the migration of various ethnic groups to the United States from 1500 to the present day This multivolume collection explores dozens of immigrant populations in America and delves into major topical issues affecting different groups across time periods For example the first author of the collection profiles African Americans as an example of the effects of involuntary migrations A cross disciplinary approach derived from the contributions of leading scholars in the fields of history sociology cultural development economics political science law and cultural adaptation introduces a comparative analysis of customs beliefs and character among groups and provides insight into the impact of newcomers on American society and culture **The Mighty Niagara** John N. Jackson, 2003-03 makes some notable contributions to the popular and scholarly literature about the Niagara region a welcome addition to the literature of US Canada cross border studies The Canadian Historical Review provides a most engaging and eloquently written story a learned tale of the Niagara region s associated historical triumphs and abiding challenges The book s geographical and social histories will be of interest not only to residents of the Niagara Frontier but to anyone who has ever been fascinated by the complexly related natural and technological wonders that have helped to make Niagara one of the world s most famous and enduring icons ISLE This in depth regional study of the Niagara Frontier traces the evolution of landscape and patterns of settlement on both sides of the Niagara River extending from St Catharines Ontario to Lockport New York This significant region astride an international frontier both connects and separates unites and divides Canadian and American territories bordering the Niagara River Like map overlays that build on an underlying base geography Professor Jackson s chronological approach begins with the qualities of the physical background and their ongoing ramifications up to the present for the use and development of land He then adds the Native settlements showing their trails and economic activities while highlighting the amazing fact that certain Native features remain an intrinsic part of the modern landscape The next time period reveals that the previous human landscapes once continuous across the Niagara River became acutely discontinuous with the creation in 1783 of an unseen but divisive international boundary Subsequent chapters follow the changes over the course of time as canals railways hydroelectric power and the dominance of the automobile in the present era all transform the

environment Jackson also discusses Niagara Falls as the fulcrum around which the Niagara Frontier has developed and the impact of the tourist industry on the region This thorough analysis of an important international region will be of great use to students of regional urban and historical geography as well as to anyone involved in cross boundary trade education or tourism John N Jackson St Catharines Ontario is professor emeritus of applied geography at Brock University and the author of fourteen previous books on regional geography and history John Burtiak St Catharines now retired was the special collections librarian and university archivist at Brock University Gregory P Stein Buffalo NY is associate professor of geography and planning at SUNY College at Buffalo The Making of Modern Immigration Patrick J. Hayes,2012-02-13

Combining the insight of two dozen expert contributors to examine key figures events and policies over 200 years of U S immigration history this work illuminates the foundations of the ethnic and socioeconomic makeup of our nation The two volume *The Making of Modern Immigration An Encyclopedia of People and Ideas* is organized around a series of four dozen in depth essays on specific aspects of American immigration history since the founding of the Republic This encyclopedia addresses the major historical themes and contemporary research trends related to U S immigration canvassing all the major policy endeavors on immigration in the last two centuries In addition to documenting immigration policy the contributors devote extensive attention to the historiography of immigration supplementing theories with cutting edge sociological data Not content with providing a comprehensive overview of immigration history however the work also offers probing investigations of key figures behind the ideas that have shaped the nation s self understanding Taken as a whole this seminal work lifts out the personalities and policies that surround the composition of America s national identity illuminating the past as a series of lessons for the future *Fundamentalists in the City* Margaret Lamberts Bendroth,2005-07-14

Fundamentalists in the City is a story of religious controversy and division set within turn of the century and early twentieth century Boston It offers a new perspective on the rise of fundamentalism emphasizing the role of local events both sacred and secular in deepening the divide between liberal and conservative Protestants The first part of the narrative beginning with the arrest of three clergymen for preaching on the Boston Common in 1885 shows the importance of anti Catholicism as a catalyst for change The second part of the book deals with separation told through the events of three city wide revivals each demonstrating a stage of conservative Protestant detachment from their urban origins **Irish in Ontario, 1st**

Edition Donald Harman Akenson,1984-08-01 Hailed as one of the most important books on social sciences of the last fifty years by the Social Sciences Federation of Canada Akenson argues that despite the popular conception of the Irish as a city people those who settled in Ontario were primarily rural and small town dwellers Though it is often claimed that the experience of the Irish in their homeland precluded their successful settlement on the frontier in North America Akenson s research proves that the Irish migrants to Ontario not only chose to live chiefly in the hinterlands but that they did so with marked success Akenson also suggests that by using Ontario as an historical laboratory it is possible to make valid

assessments of the real differences between Irish Protestants and Irish Catholics characteristics which he contends are much more precisely measurable in the neutral environment of central Canada than in the turbulent Irish homeland While Akenson is careful not to over generalize his findings he contends that the case of Ontario seriously calls into question conventional beliefs about the cultural limitations of the Irish Catholics not only in Canada but throughout North America **Peopling the Plains** James R. Shortridge,1995 This engaging and richly annotated atlas illustrates the distribution of Kansas settlers from diverse cultural and ethnic origins in America and around the world James R Shortridge explores how frontier settlement patterns were influenced by railroad routes and promotion land prices and speculation practices homesteading laws U S and international social economic and political conditions terrain weather and pioneer perseverance He also demonstrates that many legacies of the original settlers have endured and are apparent today in social political agricultural and religious customs throughout the state Providing new and enlightening insight into a unique cultural heritage Peopling the Plains is an invaluable building block for anyone interested in the people and places of Kansas past and present *Irish in Ontario, Second Edition* Donald Harman Akenson,1999-06-01 Akenson argues that despite the popular conception of the Irish as a city people those who settled in Ontario were primarily rural and small town dwellers Though it is often claimed that the experience of the Irish in their homeland precluded their successful settlement on the frontier in North America Akenson s research proves that the Irish migrants to Ontario not only chose to live chiefly in the hinterlands but that they did so with marked success Akenson also suggests that by using Ontario as an historical laboratory it is possible to make valid assessments of the real differences between Irish Protestants and Irish Catholics characteristics which he contends are much more precisely measurable in the neutral environment of central Canada than in the turbulent Irish homeland While Akenson is careful not to over generalize his findings he contends that the case of Ontario seriously calls into question conventional beliefs about the cultural limitations of the Irish Catholics not only in Canada but throughout North America *The Changing Face of Corpus Linguistics* Antoinette Renouf,Andrew Kehoe,2016-08 Preliminary Material Antoinette Renouf and Andrew Kehoe The corpus user s chorus Based on The Major General s Song from Gilbert and Sullivan s The Pirates of Penzance Antoinette Renouf and Andrew Kehoe Introduction The changing face of corpus linguistics Antoinette Renouf and Andrew Kehoe Oh Canada Towards the Corpus of Early Ontario English Stefan Dollinger Favoring Americanisms vs before and in Early English in Australia A corpus based approach Clemens Fritz Computing the Lexicons of Early Modern English Ian Lancashire EFL dictionaries grammars and language guides from 1700 to 1850 testing a new corpus on points of spokenness Manfred Markus The Old English Apollonius of Tyre in the light of the Old English Concordancer Antonio Miranda Garc a Javier Calle Mart n David Moreno Olalla and Gustavo Mu oz Gonz lez Prediction with SHALL and WILL a diachronic perspective Maurizio Gotti Circumstantial adverbials in discourse a synchronic and a diachronic perspective Anneli Meurman Solin and P iivi Pahta Changes in textual structures of book advertisements in the ZEN Corpus Caren auf

With Scarcely a Ripple Randy William Widdis, 1998-12-10 Using a prosopographical approach that combines descriptive exposition quantitative tabulation and structural analysis Randy Widdis determines the geographical and social origins of migrants the distance and direction of migration corridors and geographical destinations in both the United States and Canada The study provides a new view of the invisible Anglo Canadian one of the largest and least understood immigrant groups in the United States Widdis's results show that there were many differences between Anglo Canadians and that their experience in the United States was much more complex than is usually assumed With Scarcely a Ripple not only contributes to our understanding of the dynamics of intra regional inter regional and return Anglo Canadian migration but also interprets this movement in terms of the paradox of an emerging Canadian identity and a developing integration with the United States It offers a historical geographical perspective on a subject that in this era of free trade and globalization is more relevant than ever *Repositioning North American Migration History* Marc S. Rodriguez, 2004 An in depth look at trends in North American internal migration This volume gathers established and new scholars working on North American immigration transmigration internal migration and citizenship whose work analyzes the development of migrant and state level institutions as well as migrant networks With contemporary migration research most often focused on the development of transnational communities and the ways international migrants maintain relationships with their sending region that sustain the circular flow of people ideas and traditions across national boundaries it is useful to compare these to similar patterns evident within the terrain of internal migration To date however international and internal migration studies have unfolded in relative isolation from one another with each operating within these distinct fields of expertise rather than across them Although there has been some important linking there has not been a recent major consideration of human migration that works across and within the various borders of the North American continent Thus the volume presents a variety of chapters that seek to consider human migration in comparative perspective across the internal international divide Marc S Rodriguez is Assistant Professor of History at Princeton University Donna R Gabbaccia is the Mellon Professor of History at the University of Pittsburgh James R Grossman is the Vice President of Research and Education at the Newberry Library Chicago Contributors Josef Barton Wallace Best Donna Gabbaccia James Gregory Tobias Higbie Mae Ngai Walter Nugent Annelise Orleck Kunal Parker Kimberly Phillips Bruno Ramirez Marc Rodriguez *Repositioning North American Migration History* is a volume in Studies in Comparative History sponsored by Princeton University's Shelby Cullom Davis Center for Historical Studies **How Cities Won the West** Carl Abbott, 2011-03-03 Cities rather than individual pioneers have been the driving

force in the settlement and economic development of the western half of North America Throughout the seventeenth eighteenth and nineteenth centuries western urban centers served as starting points for conquest and settlement As these frontier cities matured into metropolitan centers they grew from imitators of eastern culture and outposts of eastern capital into independent sources of economic cultural and intellectual change From the Gulf of Alaska to the Mississippi River and from the binational metropolis of San Diego Tijuana to the Prairie Province capitals of Canada Carl Abbott explores the complex urban history of western Canada and the United States The evolution of western cities from stations for exploration and military occupation to contemporary entry points for migration and components of a global economy reminds us that it is cities that won the West And today as cultural change increasingly moves from west to east Abbott argues that the urban West represents a new center from which emerging patterns of behavior and changing customs will help to shape North America in the twenty first century

This Kindred People Edward P. Kohn, 2004-11-22 Kohn shows how Americans and Canadians often referred to each other as members of the same family sharing the same blood and drew upon the common lexicon of Anglo Saxon rhetoric to undermine old rivalries and underscore shared interests Though the predominance of Anglo Saxonism proved short lived it left a legacy of Canadian American goodwill as both nations accepted their shared destiny on the continent Kohn argues that this new Canadian American understanding fostered the Anglo American special relationship that shaped the twentieth century

The Coming of Industrial Order Jonathan Prude, 1985-10-31 This study of antebellum industrialisation in several communities in rural Massachusetts illuminates what industrialisation meant in the early to mid nineteenth century Jonathan Prude probes the tensions produced by the conflict between innovation and the received attitudes and institutions that still shaped daily existence Two connected but discrete areas of tension emerged that between workers and managers within certain manufacturing establishments especially textiles and between manufacturers and the communities in which they were located The book demonstrates that antebellum industrialisation had a rural as well as an urban dimension and that far from being the untroubled process described by some historians it was a phenomenon characterised by deep conflict
