The Minimum Dwelling:

The Minimum Dwelling Karel Teige, 2002 Teige envisioned the minimum dwelling not as a reduced version of a bourgeois apartment or rural cottage but as a wholly new dwelling type built with the cooperation of architects sociologists economists health officials physicians social workers politicians and trade unionists

The Minimum Dwelling Karel Teige, 2002 The Minimum Dwelling Revisited Aristotle Kallis, 2023-10-05 This book provides an intellectual history of the modernist minimum dwelling exploring how early modernism saw mass housing as a primary vehicle for achieving the utopian transformation of society It reappraises the often overlooked 2nd and 3rd CIAM conferences 1929 31 addressing their engagement with the minimum dwelling and revealing them both as milestones in the organisation's annals and as seminal moments in the history of interwar modernism In 1929 an eclectic international group of avant garde modernist architects including Ernst May Mart Stam Walter Gropius and Le Corbusier met in Frankfurt for the second instalment of the CIAM conferences They discussed a design programme for cost effective good quality housing seeking new approaches and processes to maximize quality and functionality while ensuring affordability for the wider population In exploring the meaning and form of the minimum dwelling they also re defined dwelling as the hub of a new way of living proposing a revolutionary multi scalar approach to urban design based on the concept of the Existenzminimum optimally minimal housing Despite the two conferences falling short of the organizer's expectations and being overshadowed by later instalments the participating architects sanctioned a semantic shift from minimum as bare necessity to a very different aspirational kind of minimalism transforming the entire conversation on mass low cost dwelling in design social and ethical terms Split into two parts The Minimum Dwelling Revisited first takes a genealogical approach to explore the provenance of the concept of minimum dwelling prior to the 2nd and 3rd CIAM conferences it then traces the proceedings of the two conferences themselves Addressing the origins of the minimum dwelling concept but also its legacies and serving as a corrective to the overemphasis on 4th CIAM conference and the Athens Charter the book is essential reading for scholars researching urban design during the Interwar period

Warsaw Housing Cooperative Magdalena Matysek-Imielińska, 2019-07-25 This book discusses the unknown and remote urban experiment of modernist social practices and dreams of a better tomorrow It describes the history of the Warsaw Housing Cooperative not as a historical relic or a single case study but instead analyses this working class social housing estate in itself an extremely interesting emancipatory project from the perspective of contemporary urban studies It focuses on issues related to the power of architecture architects and the estate residents themselves the city's performative actions problems related to the polycentric character of the city authorities the opportunities of building urban institutions and social identities and urban common goods Inspired by the history of the Warsaw Housing Cooperative the book investigates how the estate residents assisted by social reformers today called urban activists organised the urban space of performative democracy and how they developed anti capitalist urban survival strategies and created new lifestyles It also analyses how passive tenants turned into active citizens claiming their right to the city The inspiring book is intended for researchers in the field of performative studies urban sociologists critical urban studies researchers animators of social life and urban activists

Housing India Urmi Sengupta, Annapurna Shaw, Debolina Kundu, 2024-11-15 In this unique book on housing in India 11 leading scholars come together to offer a critical appraisal of current housing policies and programmes in India Contributions contextualise and conceptualise the Indian housing paradigm with an integrated perspective covering diverse regions and themes related to housing such as Financial constraints to adequate housing in India Policy implementation dynamics of national housing programmes in India using evidence from Madhya Pradesh Indigenous urbanism and mass housing programmes in Aizawl Mizoram Studies of the peripheralisation of low income housing in Ahmedabad Gujarat and Chennai Tamil Nadu The chapters in the book show how each theme affects the other and suggest policy directions on the

basis of past successes and failures They seek new vocabularies to describe the processes of housing over 1.3 billion Indians particularly capturing urban formations in the small and big cities of India where housing plays the most dominant role The book offers varied perspectives representing diverse regions and themes together presenting a microcosm of housing problems and solutions in India Housing India will be a key resource for researchers and practitioners of housing and social policy urban sociology built environment urban planning public policy development studies and economics It will also appeal to housing professionals aiming to obtain qualifications and wanting a broad understanding of the housing provision in India This book was originally published as a special issue of the International Journal of Housing Policy **Housing Vouchers** E. Jay Howenstine, 2017-09-04 Outside the United States the idea of a consumer housing subsidy is a highly developed concept Housing allowances shelter allowances rent allowances or rent rebates as they are called have been paid out on a larger scale for longer periods of time on an entitlement basis with a much greater variety of rationales than in the United States As the United States moves ahead with its demonstration program it is timely to examine and evaluate foreign experiences with the consumer housing approach E Jay Howenstine addresses common questions that have puzzled many policymakers How do consumer housing subsidies work For tenants Homeowners Builders And government officials Gathered here is the definitive experience of the countries that have employed them From Australia to the United Kingdom here is the reality gleaned from a dozen countries and brought to bear on the United States Both the virtues and the limitations of the approach are presented in detail for everyone interested in housing This study is divided into three major parts First Howenstine reviews the historical background and analyzes housing allowance strategies that foreign governments have adopted A second part examines in detail the major principles and elements with which governments have fashioned their systems The third part examines the impact of housing allowance systems and weighs them in the light of the original objectives Conclusions are also drawn about foreign experiences Should financial assistance to low income families be in the form of consumer housing subsidies or producer housing subsidies or some synthesis of the two systems Should the housing allowance be maintained as a separate housing policy or should it be integrated into a general income maintenance policy This book addresses an increasingly prominent portion of the housing market Art and its Responses to Changes in Society Martin Germ, Martina Malešič, Ines Unetič, 2016-08-17 Art and its Responses to Changes in Society brings together studies of young researchers dealing with the topics of decline transformation and rebirth from various points of view characteristic of several different fields of the humanities and social sciences in order to yield new insights into the analyzed subjects The topics discussed here are diverse on the one hand several chapters deal with the metamorphosis of particular pictorial or architectural motifs and concepts while on the other studies are included that are dedicated to the analysis of the opera of individual artists to various periods in architecture and landscape architecture and to national and state commissions in art as well as representations of WW2 atrocities in Yugoslavia and attempts to artistically reaffirm Christian

symbolism after the end of socialism As such the book entails diverse scientific perceptions of art and society from antiquity to modernity from architecture to moving picture from the USA to Yugoslavia and from research on an object to observations on a concept The Organization of Transport Massimo Moraglio,Christopher Kopper,2014-12-05 Over the past ten years

the study of mobility has demonstrated groundbreaking approaches and new research patterns These investigations criticize the concept of mobility itself suggesting the need to merge transport and communication research and to approach the topic with novel instruments and new methodologies Following the debates on the role of users in shaping transport technology new mobility research includes debates from sociology planning economy geography history and anthropology This edited volume examines how users policy makers and industrial managers have organized and continue to organize mobility with a particularly attention to Europe North America and Asia Taking a long term and comparative perspective the volume brings together thirteen chapters from the fields of urban studies history cultural studies and geography Covering a variety of countries and regions these chapters investigate how various actors have shaped transport systems creating models of mobility that differ along a number of dimensions including public vs private ownership and operation as well as individual vs collective forms of transportation The contributions also examine the extent to which initial models have created path dependencies in terms of technology physical infrastructure urban development and cultural and behavioral preferences that limit subsequent choices **Equal Opportunity in Housing** United States. Architecture Post Mortem Dr David Bertolini,Dr Simone Brott,Professor Donald Kunze,2013-09-28 Architecture Post Mortem surveys architecture s encounter with death decline and ruination following late capitalism As the world moves closer to an economic abyss that many perceive to be the death of capital contraction and crisis are no longer mere phases of normal market fluctuations but rather the irruption of the unconscious of ideology itself Post mortem is that historical moment wherein architecture s symbolic contract with capital is put on stage naked to all Architecture is not irrelevant to fiscal and political contagion as is commonly believed it is the victim and penetrating analytical agent of the current crisis As the very apparatus for modernity s guilt and unfulfilled drives modernity s debt architecture is that ideological element that functions as a master signifier of its own destruction ordering all other signifiers and modes of signification beneath it It is under these conditions that architecture theory has retreated to an Alamo of history a final desert outpost where history has been asked to transcend itself For architecture s hoped for utopia always involves an apocalypse This timely collection of essays reformulates architecture s relation to modernity via the operational death drive architecture is but a passage between life and death This collection includes essays by Kazi K Ashraf David Bertolini Simone Brott Peggy Deamer Didem Ekici Paul Emmons Donald Kunze Todd McGowan Gevork Hartoonian Nadir Lahiji Erika Naginski and Dennis Maher **Negotiating Domesticity** Hilde Heynen,Gulsum Baydar,2005 A series of essays to challenge and stimulate examining the links between gender domesticity and architecture from a number of

different perspectives and disciplines **Accessory Apartments in Single-Family Housing** Martin Gellen, 2017-07-12 As the reproduction cost of housing has increased consumers have made intensive use of existing dwellings. Conversions of the housing stock have regained prominence as a source of supply. This book introduces the accessory apartment and assesses its potential as an emerging resource for meeting local and national housing needs. Although accessory apartments help meet some of the nation's housing needs, they are not entirely without problems. Some of these are environmental problems such as physical alterations that are out of character with the design and appearance of surrounding structures, while other problems are cultural and ideological. The accessory apartment in a single family house deviates from the image of housing family and neighborhood that prevails in American culture. It symbolizes a change in the way the single family house is used and the kinds of people who live in it. These changes clash with the traditional meanings attached to the categories of residential zoning. Martin Gellen evaluates and answers the following questions throughout the text: How do we live with accessory apartments? Control their number. Ensure their soundness and maintain neighborhood standards. He focuses on the physical planning problems of conversions and examines the zoning issues they raise. This includes a realistic appraisal of the purposes of density and occupancy controls in exclusive single family districts. The author provides new methods for regulation of density and occupancy which permit more flexible use of single family housing to meet the housing needs of a more diverse population. Whether in an aging suburb or new tract, the accessory apartment is a current challenge. This book provides a clear-headed approach toward a popular trend in the ever-changing housing industry.
