The Modern American Tradition, 1972-01-01 **Library of Congress catalog--Books: subjects** United States, 1976
Library of Congress Catalog Library of Congress, 1970 A cumulative list of works represented by Library of Congress printed cards **Writers Directory** NA NA, 2016-03-05 **Tariff Question in the Gilded Age** Joanne Reitano, 2010-11-01

Protective tariffs were part of American life long before the era of NAFTA and GATT In the late nineteenth century the tariff question was one of the most controversial issues of the day As Joanne Reitano shows in this far reaching study the ensuing debate was anything but an empty exercise in political rhetoric occupying only politicians and lobbyists The tariff was of central concern to a broad cross section of people because of its perceived relationship to immediate economic problems such as wages prices and trusts In fact it became a means for many Americans to wrestle with the implications of the country's rapid growth and the impact of industrial capitalism on American life Reitano focuses on the election year of 1888 when the tariff was adopted as a cause célèbre by President Grover Cleveland Congress the two major parties and the press At the heart of the debate was the Mills Bill for tariff reduction Although the bill failed to pass Reitano finds in the rancorous public debate a barometer of changes in the American mind in the Gilded Age She carefully blends intellectual political economic and social issues through analyses of the Congressional Record press coverage of the debate academic and polemical literature political cartoons and the presidential campaign Ultimately Reitano contends that ideas about political economy have always been central to the American mind They were so in the Gilded Age as they are today *The Publishers' Trade List Annual*, 1981 *The New American History* American Historical Association, 1997 Originally released in 1990 The New American History edited for the American Historical Association by Eric Foner has become an indispensable volume for teachers and students In essays that chart the shifts in interpretation within their fields some of our most prominent American historians survey the key works and themes in the scholarship of the last three decades Along with substantially revised essays from the first edition this volume presents three entirely new ones on intellectual history the history of the West and the histories of the family and sexuality The second edition of The New American History reflects in Foner's words the continuing vitality and creativity of the study of the past how traditional fields are being expanded and redefined even as new ones are created Author note Eric Foner is DeWitt Clinton Professor of History at Columbia University He is the author of numerous books including *Reconstruction 1863-1877* which was awarded the Bancroft Prize **American Book Publishing Record Cumulative, 1950-1977** R.R. Bowker Company. Department of Bibliography, 1978 *Palgrave Advances in Intellectual History* R. Whatmore, B. Young, 2006-05-26 The past three decades have seen a remarkable growth of interest in intellectual history and this book provides the first comprehensive survey of recent research in this field Each chapter considers developments in intellectual history and shows the ways intellectual historians have contributed to more established disciplinary enquiries *The Worlds of American Intellectual History* Joel Isaac, James T. Kloppenberg, Michael

O'Brien, Jennifer Ratner-Rosenhagen, 2017 *The Worlds of American Intellectual History* follows American thinkers and their ideas as they have crossed national institutional and intellectual boundaries The volume explores ways in which American ideas have circulated in different cultures It also examines the multiple sites from social movements museums and courtrooms to popular and scholarly books and periodicals in which people have articulated and deployed ideas within and beyond the borders of the United States Selected Essays , 1988 **Fire in the Minds of Men** James H. Billington, 1999 This book traces the origins of a faith perhaps the faith of the century Modern revolutionaries are believers no less committed and intense than were Christians or Muslims of an earlier era What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority This inherently implausible idea energized Europe in the nineteenth century and became the most pronounced ideological export of the West to the rest of the world in the twentieth century Billington is interested in revolutionaries the innovative creators of a new tradition His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century The theater was Europe of the industrial era the main stage was the journalistic offices within great cities such as Paris Berlin London and St Petersburg Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto romanticism of Germany as the critical rationalism of the French Enlightenment The conversion of social theory to political practice was essentially the work of three Russian revolutions in 1905 March 1917 and November 1917 Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power Despite his hard realism about the adverse practical consequences of revolutionary dogma Billington appreciates the identity of its best sponsors people who preached social justice transcending traditional national ethnic and gender boundaries When this book originally appeared The New Republic hailed it as remarkable learned and lively while The New Yorker noted that Billington pays great attention to the lives and emotions of individuals and this makes his book absorbing It is an invaluable work of history and contribution to our understanding of political life **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1974 **American Labyrinth** Raymond Haberski, Jr., Andrew Hartman, 2018-12-15 *American Labyrinth* contains a stimulating and useful collection of essays by historians reflecting on American intellectual history As a whole the book convinces the reader that the field of intellectual history is enjoying a renaissance The book will be especially prized by intellectual historians but historians of many different persuasions will find these essays rewarding too Choice Intellectual history has never been more relevant and more important to public life in the United States In complicated and confounding times people look for the principles that drive action and the foundations that support national ideals *American Labyrinth* demonstrates the power of intellectual history to illuminate our public life and examine our ideological assumptions This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread

interest Raymond Haberski Jr and Andrew Hartman asked a group of nimble sharp scholars to respond to a simple question How might the resources of intellectual history help shed light on contemporary issues with historical resonance The answers all rigorous original and challenging are as eclectic in approach and temperament as the authors are different in their interests and methods Taken together the essays of American Labyrinth illustrate how intellectual historians operating in many different registers at once and ranging from the theoretical to the political can provide telling insights for understanding a public sphere fraught with conflict In order to understand why people are ready to fight over cultural symbols and political positions we must have insight into how ideas organize enliven and define our lives Ultimately as Haberski and Hartman show in this volume the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas

Historiography in the Twentieth Century Georg G. Iggers, 2013-01-01 No one looking for a well informed introduction to the key views of history adopted by professional historians could find a better one than this Richard J Evans author of In Defence of History A broad perspective on historical thought and writing with a new epilogue In this book now published in ten languages a preeminent intellectual historian examines the profound changes in ideas about the nature of history and historiography Georg G Iggers traces the basic assumptions upon which historical research and writing have

been based and describes how the newly emerging social sciences transformed historiography following World War II The discipline s greatest challenge may have come in the last two decades when postmodern ideas forced a reevaluation of the relationship of historians to their subject and questioned the very possibility of objective history Iggers sees the contemporary discipline as a hybrid moving away from a classical macrohistorical approach toward microhistory cultural history and the history of everyday life The new epilogue by the author examines the movement away from postmodernism towards new social science approaches that give greater attention to cultural factors and to the problems of globalization The book has all the virtues one associates with Georg Iggers lucidity detachment balance and the ability to reveal the relation between trends in historical writing and their political and cultural contexts Peter Burke Cambridge University The Boundaries of Freedom of Expression & Order in American Democracy Thomas R. Hensley, 2001 On Monday May 4th 1970 members of the Ohio National Guard fired 61 rounds of bullets into the Kent State University students protesting about the invasion of Cambodia This work develops the ideas of the first symposium on American democracy established to commemorate the tragedy **Library of Congress Catalogs** Library of Congress, 1976 **The South Atlantic Quarterly** John Spencer Bassett, Edwin Mims, William Henry Glasson, William Preston Few, William Kenneth Boyd, William Hane Wannamaker, 1979 **National Union Catalog** , 1973
