The Modernization Of Iran 1921 1941:

The Modernization of Iran Amin Banani, 1969

A Social History of Modern Tehran Ashkan Rezvani

Naraghi, 2023-01-05 Tehran the capital of Iran since the late eighteenth century is now one of the largest cities in the Middle East Exploring Tehran's development from the nineteenth to the mid twentieth century Ashkan Rezvani Naraghi paints a vibrant picture of a city undergoing rapid and dynamic social transformation Rezvani Naraghi demonstrates that this shift was the product of a developing discourse around spatial knowledge in which the West became the model for the social practices of the state and sections of Iranian society As traditional social spaces such as coffee houses bathhouses and mosques were replaced by European style cafes theatres and sports clubs Tehran and its people were irreversibly altered Using an array of archival sources Rezvani Naraghi stresses the agency of everyday inhabitants in shaping urban change This enlightening history not only allows us to better understand the contours of contemporary Tehran but to develop a new way of imagining talking about and building the city

Imagining Iran Majid Sharifi, 2013-08-22

Thematically this book problematizes Iranian official nationalism It reviews how every modern Iranian regime since the constitutional revolution of the 1905-06 has failed to legitimize its official identity resulting in the fall of five different regimes The book details how the collapse of each regime resulted in the interruption of the official meaning of being Iranian as well as the meanings of its enemies What remained the same was how every Iranian regime represented itself as the agent of a particular national desire defined in terms of making Iran to become sovereign developed democratic and constitutional Nonetheless no regime was able to convince a great majority of the people that it achieved what it represented This book makes three specific contributions The first contribution is pedagogical By focusing on the dynamics of regime changes it provides a heuristic model for identifying challenges that all Iranian regimes have faced Moreover the book is a comprehensive review of the disruptive oppressive and bloody nature of the rise and fall of different regimes The second contribution is theoretical Rather than examining the behavior of various Iranian regimes in isolation from their international context the book examines how each regime got to understand itself in relations to its imperial others By examining the governmental rationality of each regime the book offers a better theoretical framework for understanding political development not only in Iran but also in all other Middle Eastern and South Asian states Finally the third contribution of this

book is its critical approach to the main body of the literature on Iran modernity development democracy and constitutionalism

Persian Literature and Modernity Hamid Rezaei Yazdi, Arshavez Mozafari, 2018-12-07 Persian Literature and Modernity recasts the history of modern literature in Iran by elucidating the bonds between the classical tradition and modernity and exploring textual generic and discursive formations through heterodoxical investigations This is first done through the rehabilitation of concepts embedded in tradition including the mun zirah debate Ahr man the demonic tajarrud radical aloneness and n riz yat discontent Following this are broader structural and processual treatments including the emergence of the genre of the social novel the international dimension of Persian and Persianate canon formation and the development of salvage ethnography and anthropological discourse in Iran Covering literary experiments from the twelfth to the twentieth centuries the chapters in this volume make a case for stepping outside the bounds of orthodox literary scholarship in Iranian studies with its associated political and orientalist determinants in order to provide a more nuanced conception of literary modernity in Iran Offering an alternative reading of modernity in Persian literature this book is an invaluable resource for scholars and students interested in the history of modern Iran and Persian Literature *Iran* Abbas Amanat, 2017-10-24 A masterfully researched and compelling history of Iran from 1501 to 2009 This history of modern Iran is not a survey in the conventional sense but an ambitious exploration of the story of a nation It offers a revealing look at how events people and institutions are shaped by currents that sometimes reach back hundreds of years The book covers the complex history of the diverse societies and economies of Iran against the background of dynastic changes revolutions civil wars foreign occupation and the rise of the Islamic Republic Abbas Amanat combines chronological and thematic approaches exploring events with lasting implications for modern Iran and the world Drawing on diverse historical scholarship and emphasizing the twentieth century he addresses debates about Iran's culture and politics Political history is the driving narrative force given impetus by Amanat's decades of research and study He layers the book with discussions of literature music and the arts ideology and religion economy and society and cultural identity and heritage *Revolution and Reform in Russia and Iran* Ghoncheh Tazmini, 2012-03-30 The Russian Revolutions of 1917 and the Iranian Revolution of 1979 are two examples of dramatic sudden and extraordinary political upheaval that significantly altered the nature of the state and society in the modern age Here Ghoncheh Tazmini provides an unprecedented comparative study of these two major revolutions of the twentieth century which although removed from each other both spatially and temporally have striking similarities Examining the roots events and impact of these two defining upheavals Tazmini analyses how they resemble each other stressing the continuity of the dilemma of modernisation for the Romanov Pahlavi Communist and Islamist rulers alike This book is a significant contribution to both historical and contemporary debates concerning Russian and Iranian politics and to the discourse on the origins and consequences of modernisation and revolution themselves *Iranian Intellectuals in the Twentieth Century* Ali Gheissari, 2010-01-01 Since the middle of the nineteenth century Iranian intellectuals have been

preoccupied by issues of political and social reform Iran's relation with the modern West and autocracy or arbitrary rule Drawing from a close reading of a broad array of primary sources this book offers a thematic account of the Iranian intelligentsia from the Constitutional movement of 1905 to the post 1979 revolution Ali Gheissari shows how in Iran as in many other countries intellectuals have been the prime mediators between the forces of tradition and modernity and have contributed significantly to the formation of the modern Iranian self image His analysis of intellectuals response to a number of fundamental questions such as nationalism identity and the relation between Islam and modern politics sheds new light on the factors that led to the Iranian Revolution the twentieth century's first major departure from Western political ideals and helps explain the complexities surrounding the reception of Western ideologies in the Middle East **Middle East:**

Tricontinental Hub United States. Department of the Army,1965 **Middle East: Tricontinental Hub: A strategic survey** United States. Department of the Army,1965 **The History of Iran** Elton L. Daniel,2012-01-16 This comprehensive survey of Iran's historical development covers everything from its origins in ancient empires to its status as a modern nation state Iran is a vast country with a storied ancient past a great diversity of cultures and ethnicities and a location in arguably the most unstable area of the world Iran's history over the last two centuries developing as a modern nation state freeing itself from foreign domination and asserting its influence in both the region and the world has been particularly fascinating This title gives an overview of Iranian history written for a general audience It is intended to acquaint readers with the important events and personalities that have shaped that long history In this second edition of The History of Iran the author has thoroughly revised the original content and has added two new chapters one of which is dedicated to Iran in the 21st century Particular attention is paid to explaining the forces that led to the revolution of 1979 and the establishment of the Islamic Republic of Iran as well as the controversies of its domestic and foreign policies The Political Environment Of Economic Planning In Iran, 1971-1983 Hossein Razavi,Firouz Vakil,2019-07-09 The Political Environment of Economic Planning in Iran 1971 1983 From Monarchy to Islamic Republic Hossein Razavi and Firouz Vakil Based on both research and first hand experience this book provides a politico economic analysis of the operation of Iran's economy before and after the revolution of February 1979 The authors discuss the function and effectiveness of economic planning during the shah's tenure and relate the shortcomings of plan preparation and implementation to the explosive psycho economic instability of the regime They then discuss the institutional problems that the revolutionary regime has been facing in operating the economy and foresee the possible consequences of its failure to appropriately deal with these problems Finally analyzing the economic postures of important opposition groups the authors outline future prospects for economic planning in Iran **The Forgotten Years of Kurdish Nationalism in Iran** Abbas Vali,2019-06-26 This book investigates the forgotten years of Kurdish nationalism in Iran from the fall of the Kurdish republic to the advent of the Iranian revolution An original and path breaking investigation of the period it sheds light not only on the historical specificity of the phenomenon of

nationalism in exile but also on the political processes and practices defining the development of Kurdish nationalism in the post revolutionary era Although nationalist landmarks such as the Kurdish republic in 1946 and the resurgence of the movement in the revolutionary conjuncture of 1978 79 have attracted the attention of historians and social scientists in recent years little is known about the three decades of Kurdish nationalism in exile between these two events This analysis draws on contemporary poststructuralist theory to question the concept of the minority in democratic and constitutional theory arguing that it is an effect of the discursive linkage between sovereign power and the dominant ethnic linguistic identity in the nation state This text will appeal to a wide academic audience ranging from the fields of Kurdish Iranian and Middle East Studies to ethnicity nationalism government and political science

A History of the Modern Middle East William L. Cleveland, Martin Bunton, 2024-07-29 A History of the Modern Middle East examines the profound and often dramatic transformations of the region in the past two centuries from the Ottoman and Egyptian reforms through the challenge of Western imperialism to the impact of US foreign policies Built around a framework of political history while also carefully integrating social cultural and economic developments this expertly crafted account provides readers with the most comprehensive balanced and penetrating analysis of the modern Middle East The seventh edition has been substantially revised to reflect the significance of the 2011 Arab Uprisings as a major turning point in the modern history of the region A new chapter considers how regional powers especially in the Gulf are now asserting themselves more forcefully seeking to push their own interests while Russia and China contest America's position Including an annotated and updated bibliography that offers guidance to readers seeking more in depth information and incorporating an online companion website featuring quizzes timelines and instructor resources A History of the Modern Middle East remains the quintessential text for courses on Middle Eastern history

Studies in the Economic History of the Middle East M. A. Cook, 2015-12-22 First Published in 2004 Did medieval Muslims have the concept of a social class If not can we usefully employ the term in analysing their society Were there such things as guilds in the medieval Middle East Would we understand the economic decline of Mamluk Egypt better if we used paradigms derived from the study of the economic history of England and Italy in the fourteenth and fifteenth centuries How much can the enormous fiscal archive of the Ottoman Empire tell us about population history Why was the Middle East so backward if indeed it was compared with the rest of the Afro Asian world in the nineteenth century Have Iran and Iraq better prospects for economic growth than otherwise comparable countries thanks to their oil royalties Or are these paradoxically a hindrance rather than a help The study of the economic history of the Middle East in Islamic times is notoriously underdeveloped This volume contains papers discussed at an international conference held at the School of Oriental and African Studies in 1967 together with three short critical essays which attempt to tie them together Some papers are specific contributions to research others survey wider areas The volume is not a comprehensive history or a systematic inventory but it is hoped that in addition to presenting a set of papers which are interesting in

themselves it will give the reader a tolerable idea of the state of studies in the field **The U.S.-Soviet Confrontation in Iran, 1945-1962** Kristen Blake, 2009-05-15 This book is a study of the origins development and end of the U S Soviet Cold War rivalry in Iran from 1945 to 1962 and its influence on the political and economic development of the country It traces the roots of this rivalry to the Anglo Soviet occupation of Iran in 1941 during the Second World War that subsequently led to U S involvement in Iran in 1942 as part of the Allied war effort While analyzing the superpower rivalry the book also focuses on the development of U S Iranian relations and U S policy toward Iran whose primary goal was to keep Iran free from communism The book traces the development of U S Iranian relations and U S policy toward Iran through the Truman Eisenhower and Kennedy administrations and examines whether there were any elements of continuity among the three administrations in keeping Iran free from communism The book also provides an in depth analysis of the response of the Shah and the Iranian government to foreign power rivalry in Iran **Kurds and the State in Iran** Abbas Vali, 2014-04-11 In early 1946 Kurds declared an independent republic in north west Iran The Mahabad Republic as it became known was the first time that the Kurds experienced self rule in the modern era Although short lived the Republic had a formative influence on the subsequent development of Kurdish nationalist movements in Iran and the wider region Here Abbas Vali disputes the conventional view that the Kurdish Republic was the result of a Soviet conspiracy to dismember Iran a side effect of the Cold War Instead he emphasizes the diversity of the internal Iranian and Kurdish factors that led to the formation of the Republic arguing that the Republic represents the culmination of a new and modern Kurdish national identity This was an identity which emerged in response to the exclusionary effects of the political and discursive processes and practices of the construction of a modern Iranian nation state and national identity since the Constitutional Revolution of 1906 which often excluded and attempted to override a Kurdish one Vali contends that this process largely due to the socio economic and cultural impact of the rule of Pahlavis in reality forced the Kurdish people of Iran to form and reinforce their own ethno linguistic and ethno national community The expressions of this separate identity can be traced through the formation and dissolution of Kurdish national parties such as the Kurdistan Democratic Party of Iran KDPI Kurds and the State in Iran offers an analysis of the formation and effects of the concepts of the state the nation nationalism and ethnic identity which go beyond current ethnicist and constructivist theories thus making it essential reading for anyone interested in the Kurds or the development of national and state identities in the Middle East *Nationalizing Iran* Afshin Marashi, 2011-07-01 When Naser al Din Shah who ruled Iran from 1848 to 1896 claimed the title Shadow of God on Earth his authority rested on premodern conceptions of sacred kingship By 1941 when Mohammad Reza Shah Pahlavi came to power his claim to authority as the Shah of Iran was infused with the language of modern nationalism In short between roughly 1870 and 1940 Iran s traditional monarchy was forged into a modern nation state In *Nationalizing Iran* Afshin Marashi explores the changes that made possible this transformation of Iran into a social abstraction in which notions of state society and culture

converged He follows Naser al Din Shah on a tour of Europe in 1873 that led to his importing a new public image of monarchy an image based on the European late imperial model relying heavily on the use of public ceremonies rituals and festivals to promote loyalty to the monarch Meanwhile Iranian intellectuals were reimagining ethnic history to reconcile authentic Iranian culture with the demands of modernity From the reform of public education to the symbolism surrounding grand public ceremonies in honor of long dead poets Marashi shows how the state invented and promoted key features of the common culture binding state and society The ideological thrust of that century would become the source of dramatic contestation in the late twentieth century Marashi s study of the formative era of Iranian nationalism will be valuable to scholars and students of history sociology political science and anthropology as well as journalists policy makers and other close observers of contemporary Iran
