The Monastic Achievement:

The Monastic Achievement George Zarnecki,1972 *The Monastic Achievement* Jerzy Żarnecki,1972 **Social Attitudes and Political Structures in the Fifteenth Century** Tim Thornton,2001-02-13 This volume includes papers on political religious social and economic history and the history of ideas during the 15th century The papers challenge existing conceptions and open new avenues of discussion on longstanding debates Themes covered include parliaments and their relationships with the monarchs of the period both in Scotland and in England queens and their role in the 15th century English polity the ideas that lay behind the English claims to the French throne and the rituals of peace making in the Hundred Years War Debates over the importance of lordship and service are also touched upon in a paper which examines Lord Hastings retainers in the defence of Calais while another chapter discusses the local politics of a small Welsh marcher lordship The crucial subject of Lancastrian government finances in the 1450s also receives a fresh examination In religious history papers examine the activity of monastic propagandists and the religious life of cathedrals through the activity of fraternities based in them There are also considerations of a noble widow and of the 15th century rural economy **The Emergence of Monasticism** Marilyn Dunn,2008-04-15 *The Emergence of Monasticism* offers a new approach to the subject placing its development against the dynamic of both social and religious change First study in any language to cover the formative period of medieval monasticism Gives particular attention to the contribution of women to ascetic and monastic life

Caesarius of Arles William E. Klingshirn,2004-02-12 A study of the Christianisation of southern France through the career and writings of Bishop Caesarius of Arles *The Marvellous and the Monstrous in the Sculpture of Twelfth-century Europe* Kirk Ambrose,2013 Richly illustrated consideration of the meaning of the carvings of non human beings from centaurs to eagles found in ecclesiastical settings Representations of monsters and the monstrous are common in medieval art and architecture from the grotesques in the borders of illuminated manuscripts to the symbol of the green man widespread in churches and cathedrals These mysterious depictions are frequently interpreted as embodying or mitigating the fears symptomatic of a dark age This book however considers an alternative scenario in what ways did monsters in twelfth century sculpture help audiences envision perhaps even achieve various ambitions Using examples of Romanesque sculpture from across Europe with a focus on France and northern Portugal the author suggests that medieval representations of monsters could service ideals whether intellectual political religious and social even as they could simultaneously articulate fears he argues that their material presence energizes works of art in paradoxical even contradictory ways In this way Romanesque monsters resist containment within modern interpretive categories and offer testimony to the density and nuance of the medieval imagination KIRK AMBROSE is Associate Professor Chair Department of Art and Art History University of Colorado Boulder **The Catholic Church Through the Ages** John Vidmar, Op,2014-05-14 This one volume survey of the history of the Catholic Church from its beginning through the pontificate of

Demons and the Making of the Monk David BRAKKE, David Brakke, 2009-06-30 In this finely written study of demonology and Christian spirituality in fourth and fifth century Egypt David Brakke examines how the conception of the monk as a holy and virtuous being was shaped by the combative encounter with demons Drawing on biographies of exceptional monks collections of monastic sayings and stories letters from ascetic teachers to their disciples sermons and community rules Brakke crafts a compelling picture of the embattled religious celibate Discipleship Dietrich Bonhoeffer, 2001 Freshly translated from the German critical edition *Discipleship* provides a more accurate rendering of the text and extensive aids and commentary to clarify the theological meaning and social context of this attempt to resist the Nazi ideology BOOK JACKET

Kaelber, 2010-11-01 Explores the Weberian theme of religious asceticism in the context of medieval religion concentrating on the Cathars and Waldensians in southern France Analyzes how the ideology and social organization of religious groups

Noble,2013-01-23 In this groundbreaking work of history David Noble examines the origins and implications of the masculine culture of Western science and technology He begins by asking why women have figure so little in the development of science and then proceeds in a fascinating and radical analysis to trace their absence to a deep rooted legacy of the male dominated Western religious community He shows how over the last thousand years science and the practice and institutions of higher learning were dominated by Christian clerics whose ascetic culture from the late medieval period militated against the inclusion of women in scientific enterprise He further demonstrates how the attitudes that took hold then remained more or less intact through the Reformation and still subtly permeate out thinking despite the secularization of learning Noble also describes how during the first millennium and after women at times gained amazingly broad intellectual freedom and participated both in clerical activities and in scholarly pursuits But as Noble shows these episodic forays occurred only in the wake of anticlerical movements within the church and without He suggest finally an impulse toward defeminization at the core of the modern scientific and technological enterprise as it work to wrest from one half of humanity its part in production the Industrial Revolution s male appropriation of labor and reproduction the millennium old quest for the artificial womb An important book that profoundly examine how the culture of Western Science came to be a world without women [The Merovingian Kingdoms 450 - 751](#) Ian Wood,2014-06-23 A comprehensive survey which begins with the rise of the Franks then examines the Merovingians **Cluniac Monasticism in the Central Middle Ages** Noreen Hunt,2016-01-03

Doctors and Distillers Camper English,2022-07-19 At last a definitive guide to the medicinal origins of every bottle behind the bar This is the cocktail book of the year if not the decade Amy Stewart author of *The Drunken Botanist* and *Wicked Plants* A fascinating book that makes a brilliant historical case for what I ve been saying all along alcohol is good for you okay maybe it s not technically good for you but English shows that through most of human history it s sure beat the heck out of water Alton Brown creator of *Good Eats* Beer based wound care deworming with wine whiskey for snakebites and medicinal mixers to defeat malaria scurvy and plague how today s tipples were the tonics of old Alcohol and Medicine have an inextricably intertwined history with innovations in each altering the path of the other The story stretches back to ancient

times when beer and wine were used to provide nutrition and hydration and were employed as solvents for healing botanicals. Over time alchemists distilled elixirs designed to cure all diseases, monastic apothecaries developed mystical botanical liqueurs, traveling physicians concocted dubious intoxicating nostrums, and the drinks we're familiar with today began to take form. In turn, scientists studied fermentation and formed the germ theory of disease and developed an understanding of elemental gases and anesthetics. Modern cocktails like the Old Fashioned, Gimlet, and Gin and Tonic were born as delicious remedies for diseases and discomforts. In *Doctors and Distillers: Cocktails and Spirits*, expert Camper English reveals how and why the contents of our medicine and liquor cabinets were until surprisingly recently one and the same.

Culture and Religion in Merovingian Gaul, A.D. 481-751 Yitzhak Hen, 2023-09-29. Although often depicted as a barbaric and uncivilised society in the full pejorative meaning of these words, Merovingian Gaul was clearly a Christian society and a direct continuation of the Roman civilisation in terms of social standards, morals, and culture. Using insights provided by social history, archaeology, palaeography, and anthropology, this book studies the problem of Christianisation in early Medieval Gaul from a cultural point of view. While exploiting a huge range of primary and secondary material, Dr Hen does not confine himself to a functional analysis of various cultural and religious activities in Merovingian Gaul but goes on to assess the consequences and implications of such activities for the people themselves and for the subsequent developments in the Carolingian period.
