## **The Moral Development Of Children:**

**Moral Child** William Damon, 2008-06-30 William Damon offers the first much needed overview of the evolution and nurturance of children's moral understanding and behavior from infancy through adolescence at home and in school Drawing on the best professional research and thinking Professor William Damon charts pragmatic workable approaches to foster basic virtues such as honesty responsibility kindness and fairness methods that can make an invaluable difference throughout children's lives

**The Moral Development of Children** Norman Williams, Sheila Williams, 1972 **The Emergence of Morality in Young Children** Jerome Kagan, Sharon Lamb, 1987 How and when do children distinguish right from wrong Several prominent psychologists and a moral philosopher join in these essays to confront this issue and related questions and to clarify the controversies surrounding them Introducing cross cultural and cross disciplinary viewpoints the resulting volume is a landmark in the study of moral development

**Moral Development** William Kay, 2017-09-13 Although the work of Piaget dealt with the intellectual development of children and that of Goldman with a child's religious thought there had hitherto been no comparable book on child morality to complete the developmental picture of the time Originally published in 1968 William Kay's book was designed to fill this gap for he offers a complete description of the moral growth of children from infancy to adolescence Dr Kay was writing specifically for students and practising teachers and carefully avoids specialist jargon where ordinary terms suffice He concludes that the findings of research into attitude formation and change could provide teachers with those techniques to help their pupils become morally mature members of society His book contains a valuable analysis of the development of ideas concerning moral growth and is a bold contribution to the problems of moral education

**A Study of the Moral Development of Children** Marie Cecelia McGrath, 1923 The Ability of Young Children to Distinguish Between Morality and Convention Jörg Böttcher, 2002-12-13 Inhaltsangabe Zusammenfassung Diese theoretische Arbeit beschäftigt sich mit Thema inwieweit entwicklungspsychologische Forschungsbefunde im Bereich der sogenannten frühen Moral Aufklärung zu der Frage beitragen ob Kinder in der Lage sind moralische von konventionellen Normen zu unterscheiden bzw sich diesen Unterscheidungen entsprechend zu verhalten Ausgegangen wird dabei von den Arbeiten Lawrence Kohlbergs der die These vertrat jüngere Kinder unter 10 Jahre alt seien in ihrem sozialen Verhalten nahezu ausschließlich daran orientiert Strafe zu vermeiden bzw in egozentrischer Weise ihre Ziele zu verfolgen Fähigkeiten zur Perspektivenannahme seien nicht vorhanden echtes moralisches Verhalten nach Kohlberg die Orientierung des Handelns an Maßstäben der Gerechtigkeit sei somit bei ihnen nicht möglich Innerhalb verschiedener Forschungsansätze wurde diese Sicht der moralischen Kompetenz jüngerer Kinder in Frage gestellt Es stellte sich heraus dass Kinder unter bestimmten Bedingungen sehr wohl Entscheidungen treffen können die sie mit Rückgriff auf moralische Normen begründen Sie sind auch fähig konventionelle von moralischen Normen zu unterscheiden indem sie moralische Verhaltensregeln beispielsweise als weniger verbindlich betrachten als Konventionen In meinem Überblick stelle

ich die verschiedenen theoretischen und methodologischen Vorgehensweisen der Ans tze dar und arbeite heraus welche Unterschiede in den Forschungsmethoden zu welchen Unterschieden in der Beurteilung der moralischen Entwicklung von Kindern f hren Dabei stellt sich unter anderem heraus dass bestimmte Untersuchungsdesigns geradezu verhindern dass Kinder innerhalb dieser Untersuchungen moralisches Verhalten zeigen k nnen Es ergibt sich ein durch die neueren Ans tze erweitertes und differenzierteres Bild in bezug auf die moralischen F higkeiten von Kindern als das von Kohlberg propagierte Wie ich aufzeige bedeutet dies jedoch in keiner Weise dass Kohlberg durch die neueren Ans tze widerlegt wurde Es wird vielmehr deutlich dass Einseitigkeiten bzw blinde Flecken in den Forschungsans tzen sowohl bei Kohlberg als auch bei seinen Kritikern zu den dargestellten unterschiedlichen Ergebnissen gef hrt haben und dass es darum notwendig ist die unterschiedlichen Ans tze zu integrieren

*The Moral Judgment Of The Child* Piaget, Jean, 2013-11-05 First Published in 1999 Readers will find in this book no direct analysis of child morality as it is practised in home and school life or in children s societies It is the moral judgment that we propose to investigate not moral behaviour or sentiments With this aim in view a large number of children from the Geneva and Neuchatel schools were questioned and held conversations with them similar to those we had had before on their conception of the world and of causality The present volume contains the results of these conversations

abstract In this diploma thesis I want to consider several approaches in the area of moral development research Given the theory of Lawrence Kohlberg young children younger than 10 years of age seem to stay completely under the constraints of authorities and rules According to Kohlberg children s social judgments and behaviors are determined by instrumental aims to satisfy their own needs and wishes or to avoid punishment In this regard the helping of others or meeting the needs of others is only motivated by instrumental considerations Thus in Kohlberg s view young children are not able to think or to act in a genuinely moral way In reaction to Kohlberg other researchers have suggested that young children are capable to make

genuinely moral judgments and to act in a moral way Eisenberg et al 1986 has suggested that young children can have empathic or altruistic feelings which lead them to conduct prosocial acts Other researchers et al Keller 1996 Nunner-Winkler 1993 assert that children under the age of ten years are able to understand and feel moral emotions which they consider as constitutive or as indicators for morality Turiel and his associates et al Turiel 1983 suggest that even children at about 2 years of age are able to differentiate between a moral conventional and personal domain of social knowledge and that children subordinate the importance of personal and conventional rules under the importance of moral rules These approaches to the morality of young children revealed differing results to differing aspects of morality The aim of my work is to examine the above mentioned approaches in order to evaluate the obvious differences between their obtained results and the results of Kohlberg My questions are Is Kohlberg's approach of using authority dilemmas *The Development of Children* Cynthia Lightfoot, Michael Cole, Sheila R.
