The Moro Affair ; And, the Mystery of Majorana Leonardo Sciascia,1987      *The Moro Affair* Leonardo Sciascia,2004-05-31 On March 16 1978 Aldo Moro a former Prime Minister of Italy was ambushed in Rome Within three minutes the gang killed his escort and bundled Moro into one of three getaway cars An hour later the terrorist group the Red Brigades announced that Moro was in their hands on March 18 they said he would be tried in a people s court of justice Seven weeks later Moro s body was discovered in the trunk of a car parked in the crowded center of Rome The Moro Affair presents a chilling picture of how a secretive government and a ruthless terrorist faction help to keep each other in business Also included in this book is The Mystery of Majorana Sciascia s fascinating investigation of the disappearance of a major Italian physicist during Mussolini s regime      **Inquisition and Inquiry** Anne Mullen,2000 This study focuses on the narrative form which figured prominently in Sciascia s literary production in the 1970s and 1980s that is inchiesta the non fiction investigative essay based principally on Manzoni s Storia della colonna infame The Column of Infamy In his inchieste Sciascia investigates episodes in history from the time of the Inquisition through to his own contemporary times where intolerance and injustice outmatch human weakness and fear This study considers Sciascia s commingling of detective and investigative writing and his attempts at historiography One striking feature of his narrative technique is his reliance on literature to interpret the past      **Contemporary Italian Narrative and 1970s Terrorism** David Ward,2017-02-13 This book is about literary representations of the both left and right wing Italian terrorism of the 1970s by contemporary Italian authors In offering detailed analyses of the many contemporary novels that have terrorism in either their foreground or background it offers a take on postmodern narrative practices that is alternative to and more positive than the highly critical assessment of Italian postmodernism that has characterized some sectors of current Italian literary criticism It explores how contemporary Italian writers have developed narrative strategies that enable them to represent the fraught experience of Italian terrorism in the 1970s In its conclusions the book suggests that to meet the challenge of representation posed by terrorism fiction rather than fact is the writer s best friend and most effective tool      **Italian Literature in the Nuclear Age** Maria Anna Mariani,2022 Explores the notion of the bystander in the Nuclear Age by focusing on the Italian situation as a paradigmatic case It re frames Italy s mix of implication and powerlessness not only as a geopolitical question but as a way to re think the role of the side lined intellectual in the face of mass extinction      *Rough Guide to Conspiracy Theories, The (3rd)* James McConnachie,Robin Tudge,2013-02-01 Fully revised and updated The Rough Guide to Conspiracy Theories sorts the myths from the realities the allegations from the explanations and the paranoid from the probable Who might be trying to convince us that climate change is or isn t real What is the truth behind the death of Osama bin Laden and is he still alive When did the CIA start experimenting with mind control Where is the HAARP installation and did it have anything to do with the Japanese tsunami disaster Why is surveillance in our cities and online so widespread and what are the real benefits This

are arrested and photographed by the police In many ways mug shots are our history Using a dazzling selection of mug shots that are arrestingly raw in their starkness and strangely eloquent in their simplicity this absorbing humorous often bewildering collection sheds a whole new light on our rebellious century From political icons Martin Luther King Jr and Angela Davis to A list celebrities Hugh Grant and 50 Cent from killer Ted Kaczynski to the actor who aided in Abraham Lincoln's assassination from prisoners of Auschwitz to a bearded Saddam Hussein all of them declare a simple truth The last 150 years told through police photography is truly an alternative history Author Giacomo Papi's brisk and insightful commentary enlightens us with intriguing backstories and little known facts A feast for the eyes and the mind Booked presents an ingenious and utterly unique snapshot of our times **What Is Real?** Giorgio Agamben,2018-11-13 Eighty

years ago Ettore Majorana a brilliant student of Enrico Fermi disappeared under mysterious circumstances while going by ship from Palermo to Naples How is it possible that the most talented physicist of his generation vanished without leaving a trace It has long been speculated that Majorana decided to abandon physics disappearing because he had precociously realized that nuclear fission would inevitably lead to the atomic bomb This book advances a different hypothesis Through a careful analysis of Majorana's article The Value of Statistical Laws in Physics and Social Sciences which shows how in quantum physics reality is dissolved into probability and in dialogue with Simone Weil's considerations on the topic Giorgio Agamben suggests that by disappearing into thin air Majorana turned his very person into an exemplary cipher of the status of the real in our probabilistic universe In so doing the physicist posed a question to science that is still awaiting an answer

formulations might people create and live by if they were able to escape from the control of the Question and to imagine the political economic and cultural differences within Italy in some other way This timely book reveals how Southern Italians have been affected by distorted versions of a complex reality similar to the discourse of Orientalism In situating the devaluation of Southern Italian culture in relation to the recent emergence of anti mafia ideology in the South and the threat posed to national unity by the Lombard League it also illuminates the world s stiff inter regional competition for investment capital

**How Nietzsche Came in From the Cold** Philipp Felsch, 2024-03-07 Nietzsche s reputation like much of Europe lay in ruins in 1945 Giving a platform to a philosopher venerated by the Nazis was not an attractive prospect for Germans eager to cast off Hitler s shadow It was only when two ambitious antifascist Italians Giorgio Colli and Mazzino Montinari began to comb through the archives that anyone warmed to the idea of rehabilitating Nietzsche as a major European philosopher Their goal was to interpret Nietzsche s writings in a new way and free them from the posthumous falsification of his work The problem was that 10 000 barely legible pages were housed behind the Iron Curtain in the German Democratic Republic where Nietzsche had been officially designated an enemy of the state In 1961 Montinari moved from Tuscany to the home of actually existing socialism to decode the real Nietzsche under the watchful eyes of the Stasi But he and Colli would soon realize that the French philosophers making use of their edition were questioning the idea of the authentic text and of truth itself Felsch retraces the journey of the two Italian editors and their edition telling a gripping and unlikely story of how one of Europe s most controversial philosophers was resurrected from the baleful clutch of the Nazis and transformed into an icon of postmodern thought

**The SAGE Encyclopedia of Terrorism, Second Edition** Gus Martin, 2011-06-15 Six years after publication of the first edition of the best selling Encyclopedia of Terrorism much has changed on the national security scene Despite the dark promises of Osama bin Laden following the 9 11 attacks the United States has not experienced any major domestic terror incidents Al Qaeda itself is believed to be a severely crippled organization But while U S wars in Afghanistan and Iraq not to mention the arrival of the Obama administration a new balance of power within Congress and an increasingly fragile economic picture have significantly affected the national security picture the threat of economic chaos and massive loss of life due to terror attacks has not abated Indeed in July 2008 analysts pointed out that even a relatively small terrorist organization could present a dire threat with some experts arguing that a biological chemical or even nuclear attack on a major U S city is all but inevitable In this highly charged rapidly shifting environment we are pleased to present the The SAGE Encyclopedia of Terrorism Second Edition a thoroughly updated and expanded edition of the original highly regarded reference work Nearly 100 000 words of new material will be added along with fully updated original entries and expanded coverage New introductory essays will explore the impact of terrorism on economics public health religion and even pop culture Ethical issues such as the role of torture in interrogations competing notions of security versus liberty and the debates over FISA legislation and Guantanamo Bay will also be covered Two dozen entries on significant recent events
