Staging the Absolute Thomas Seifrid,2023-10-02 Staging the Absolute argues that an array of practices and beliefs came together to define an essential aspect of Russian and Soviet culture in the twentieth century the persistent desire to interrupt or disrupt history Drawing on sources that define the nature of public rituals the book reveals the pervasive presence of the impulse to impede history in Russia s modern era and the realization of the idea in the form of the Stalinist show trials of the 1930s Thomas Seifrid analyses Soviet festivals public displays of agitational propaganda and urban planning together with such modernist precursors as fin de si cle and early twentieth century projects for reviving the theatre modernist adaptations of puppet theatre the Faust legend and its vogue in early twentieth century Russia and the nineteenth century panorama The book reveals that what binds these otherwise disparate phenomena together is a shared impatience with history and a corresponding desire to appropriate urban space Illuminating the deeper meanings in these revived archaic forms Staging the Absolute shows how pervasive the interest in disrupting history was in the Russian modern era **Performing**

Montaging Pushkin Alexandra Smith, 2006 Montaging Pushkin offers for the first time a coherent view of Pushkin's legacy to Russian twentieth century poetry giving many new insights Pushkin is shown to be a Russian forerunner of Baudelaire Furthermore it is argued that the rise of the Russian and European novel largely changed the ways Russian poets have looked at themselves and at poetic language that novelisation of poetry is detectable in the major works of poetry that engaged in a creative dialogue with Pushkin and that polyphonic lyric has been achieved Alexandra Smith locates significant examples of Pushkin's cinematographic cognition of reality suggesting that such dynamic descriptions of Petersburg helped create a highly original animated image of the city as comic apocalypse which followers of Pushkin appropriated very successfully even as far as the late twentieth century Montaging Pushkin will be of interest to all students of Russian poetry as well as specialists in literary theory European studies and the history of ideas Smith's thesis is both startling and original that Pushkin for all his Mozart like fluidity and perfection can be productively read as a poet of pain and violence His reflex was to respond to the totalizing authoritative public landscape of his era with an equally severe but specifically private individualizing disciplined set of demands on the Poet The recurring attention that later generations have paid toward those aspects of Pushkin's life and texts governed by the private right to resist or to initiate violence his duel his struggles with the bureaucracy his failed pursuit of service with honour suggest that this mythologeme is among the most productive in Pushkin's astonishing legacy CARYL EMERSON A Watson Armour III University Professor of Slavic Languages and Literatures Chair of the Slavic Department

Professor of Comparative Literature at Princeton University Smith's innovative study offers a wonderful analysis of how cinematographic editing and polyphony are detected in Russian twentieth century poetry It views Pushkin as a reference obligee of contemporary urban poetry VERONIQUE LOSSKY Professor Emeritus of Russian Literature at the Universite de Paris Sorbonne IV
