The Most Obliging Man In Europe Life And Times Of The Oxford Scout:

The Most Obliging Man in Europe Christopher Platt, 1986 A Serious Endeavour Laura Schwartz, 2011-07-21 Neither a cosy anecdotal inside story nor a straightforward account of women's struggle to enter the university this history of St Hugh's College Oxford looks both upstairs and downstairs at dons and undergraduates but also at domestic staff What did it mean for the would be school teacher the flapper on the motorcycle the depression era grammar school girl and the student revolutionary of the 1970s to re-invent themselves as educated women Who remained excluded from this emancipated identity What were the tensions between old and new generations of dons and undergraduates And what of the first Principal's notorious belief in time travel In this innovative study Schwartz explores the relationship between personal and collective identity in one of the first higher educational establishments run by and for women during a period in which women's role both in society and university education changed beyond recognition Based on new and original research A Serious Endeavour offers a fresh and sometimes disquieting perspective on the history of gender and education in twentieth century Britain opening up new ways of thinking about the development of women's higher education Between Empire and Revolution Allison Drew, 2015-09-30 Sidney Bunting's life offers a unique perspective on the British Empire illustrating the complex social networks and values that were carried across the world in the name of empire Drawing on archival material including the Bunting family papers and records of Bunting's Oxford years this work presents his biography Music in Twentieth-century Oxford Robin Darwall-Smith, Susan Wollenberg, 2023 Music has always played a central role in the life of Oxford both in the city and the university whether through the great collegiate choral foundations the many amateur choirs and instrumentalists or the professional musicians regularly drawn to perform there Oxford with its collegiate system and its centuries long tradition of musical activity therefore presents a distinctive and multi-layered picture of the role of music in urban culture and university life 0 While college and university life dominate the volume the collection also draws attention to the city's musical life underlining music's unique ability to link town and gown Volume chapters tackle varied subjects such as the Oxford Bach Choir music in the city churches and the major choral foundations The volume also tells the story of the development of the University's Music Faculty music in the women's colleges and the University Opera Club Special attention is given to prominent Oxford composers including Edmund Rubbra Kenneth Leighton and Robert Saxton The University College Musical Society and the Oxford and Cambridge Musical Club which served as a kind of laboratory for such significant figures as Ralph Vaughan Williams and Walford Davies also feature prominently The volume will be indispensable reading for scholars and students of music in twentieth century Britain as well as those interested more generally in the history of Oxford's thriving cultural life in the university its colleges and the city *The History of the University of Oxford: Volume VII: Nineteenth-Century Oxford, Part 2* M. G. Brock, M. C. Curthoys, 2000-11-16 Volume VII of The History of the University of Oxford completes the survey of nineteenth century Oxford begun in Volume VI After 1871 both teachers and

students at Oxford were freed from tests of religious belief The volume describes the changed mental climate in which some dons sought a new basis for morality while many undergraduates found a compelling ideal in the ethic of public service both at home and in the empire As the existing colleges were revitalized and new ones founded the academic profession in Oxford developed a peculiarly local form centred upon college tutors who stood in somewhat uneasy relation with the University's professors The various disciplines which came to form the undergraduate curriculum in both the arts and sciences are subject to major reappraisal and Oxford's hidden curriculum is explored through accounts of student life and institutions including organized sport and the Oxford Union New light is shed on the social origins and previous schooling of undergraduates A fresh assessment is made of the movement to establish women's higher education in Oxford and the strategies adopted by its promoters to implant communities for women within the masculine culture of an ancient university Other widened horizons are traced in accounts of the University's engagement with imperial expansion social reform and the educational aspirations of the labour movement as well as the transformation of its press into a major international publisher The architectural developments considerable in quantity and highly varied in quality receive critical appraisal in a comprehensive survey of the whole period covered by Volumes VI and VII 1800-1914 By the early twentieth century the challenges of socialism and democracy together with the demand for national efficiency gave rise to a renewed campaign to address issues such as promoting research abolishing compulsory Greek and more generally broadening access to the University Under the terrible test of the First World War still more deep-seated concerns were raised about the side-effects of Oxford's educational practices and the volume concludes with some reflections on the directions which the University had taken over the previous fifty years

series blurb No private institutions have exerted so profound an influence on national life over the centuries as the universities of Oxford and Cambridge Few universities in the world have matched their intellectual distinction and none has evolved and maintained over so long a period a strictly comparable collegiate structure Now a completely new and full-scale History of the University of Oxford from its obscure origins in the twelfth century until the late twentieth century has been produced by the university with the active support of its constituent colleges Drawing on extensive original research as well as on the centuries-old tradition of the study of the rich source material the History is altogether comprehensive appearing in eight chronologically arranged volumes Together the volumes constitute a coherent overall study yet each has a unity of its own under individual editorship and brings together the work of leading scholars in the history of every university discipline and of its social institutional economic and political development as well as its impact on national and international life The result is a history not only more authoritative than any previously produced for Oxford but more ambitious than any undertaken for any other European university and certain to endure for many generations to come

An Oxford College at War Alex Bostrom, 2018-11-01 World War One changed the course of history And not only on a global scale as borders shifted and battles raged but on a local level when sons failed to return home and

whole villages were emptied of their young men Oxford was no exception Many of its young scholars left the dreaming spires to become junior officers with 170 joining the local Oxford and Buckinghamshire Light Infantry Regiment before the end of 1914 University buildings were turned from places of study into hospitals and cadet training centres No college was left untouched An Oxford College at War is the story of one college s experience of the war Corpus Christi one of the smallest and oldest Oxford colleges lost a number of its students Based on the moving accounts contained in the College Roll of Honour of those who fell in the Great War this book looks not only at students deaths but also at the role of Corpus as an exemplar Oxford College in the War and the wider role played by the University From those fighting on the front and on the home front to the aftermath of the War for survivors and those left behind An Oxford College at War provides an unparalleled insight into the extraordinary bravery and everyday courage of citizens and students alike *The University of Oxford* L. W. B. Brockliss,2016 This fresh and readable account gives a complete history of the University of Oxford from its beginnings in the 11th century to the present day charting Oxford s improbable rise from provincial backwater to modern meritocratic and secular university with an ever growing commitment to new research *The Mystery at Rake Hall* Maureen Paton,2025-04-24 A marvellous literary thriller Clare Chase In post war Oxford secrets lie behind every door In 1947 with rationing still biting and the black market thriving university don C S Jack Lewis finds himself pulled into a mystery straight from one of his friend Dorothy Sayers novels Susan Temple his brightest student has hidden herself away at Rake Hall a hostel for unmarried outcast mothers and hasn t been heard from since With no experience beyond catching the occasional student plagiarist Lewis is hardly a detective But when Susan s absence continues to haunt him he teams up with her concerned friend Lucy and together they delve into the disturbing rumours of a nasty racket at Rake Hall Can Lewis s nose for the truth separate fact from fiction In *The Mystery at Rake Hall* Maureen Paton whose mother lived at the real life Rake Hall while pregnant with Maureen brilliantly recreates a post war Oxford world as well as imagining an alternative life for one of its most famous residents **The Great Little College** Stephen Hickey,2017-06-01 Based on the recollections of Corpus alumni The Great Little College gives a students eye view of life in this community since 1945 It captures the highs and the lows the surprises and absurdities of an intense and formative phase of young lives Although seemingly timeless it gives a vivid intimate insight into how Corpus life changed with the arrival of women These personal accounts provide a window into life at an Oxford College and highlight how the University has evolved and adapted over the last 70 years As a top global university Oxford has never been more important Although the smallest of its constituent colleges Corpus Christi has long been one of the most distinguished Founded in 1517 as a hive of scholarly activity and admired by Erasmus its more recent alumni range from John Keble to Isaiah Berlin from Vikram Seth to David and Ed Miliband Its intimate character and distinguished record have fostered a unique community special even amongst its peers The whole place felt like a secret garden Nick Witney What a privilege as well as monumental pleasure to have been there One never really leaves the place

Ian Wylie **The History of the University of Oxford: Volume VIII: The Twentieth Century** Brian Harrison, Trevor Henry Aston, 1994-04-07 This volume the eighth in The History of the University of Oxford shows how one of the world's major universities has responded to the formidable challenges offered by the twentieth century Because Oxford's response has not taken a revolutionary or dramatic form outside observers have not always appreciated the scale of its transformation Here full attention is given to the forces for change the rapid growth in provision for the natural and social sciences the advance of professionalism in scholarship sport and cultural achievement the diffusion of international influences through Rhodes scholars two world wars and the University's mounting research priorities the growing impact of government and of public funding the steady advance of women and the impact made by Oxford's broadened criteria for undergraduate admission The volume also provides valuable background material for the discussion of educational policy In short it presents the reader with a rich cornucopia of insight into many aspects of British life **Raymond Carr** María Jesús González Hernández, 2013 Published in collaboration with the Canada Blanch Centre for Contemporary Spanish Studies

Oxoniensia , 1988 **British Book News** British Council, 1986 **Mansfield College, Oxford** Elaine Kaye, 1996 The opening of Mansfield College in Oxford in 1886 reflected the aspirations of Nonconformists once again to play their full part in the cultural religious and educational life of Britain This book reveals the great contribution the College has made to biblical studies to the formation of the United Reform Church in 1972 and to the mediation of Scottish German and American Reformed theology to Oxford **The Carrollian** , 1998 **British Book News** , 1986 **Annual Bibliography of British and Irish History** , 1987 *Below Stairs* Giles Waterfield, Anne French, Matthew Craske, 2003 Traditionally British portraits have concentrated on the upper classes and the famous This book explores the servant be it in a grand or modest house in the country or town telling a fascinating story about power class and human relationships spanning over 400 years of social and economic history **Brasenose** J. Mordaunt Crook, 2008-11-06 Brasenose College Oxford was founded in 1509 by a Bishop William Smith and a lawyer Richard Sutton Both came from the North West of England and the College has always been proud of its links with Lancashire and Cheshire But over the centuries Brasenose or B N C as it is usually known has expanded its reputation world wide in sport law politics literature This is the first general history of Brasenose for more than a hundred years Using college archives letters and diaries it aims to re create something of the variety and texture of academic life over a period of five centuries the learning the conversation the sport the intellectual milieu and physical setting the architecture inside and out the food and drink the quirks of personality the little dramas and absurdities that make up the small change of corporate living Brasenose was the first Oxford college to admit undergraduates on a statutory basis and the first of the men's colleges to decide to admit women From Walter Pater to William Golding from Earl Haig to Archbishop Runcie from Prince Obolenski to Colin Cowdrey from Elias Ashmole and John Buchan to Michael Palin and David Cameron Brasenose has never been short of personalities The originator of rugby football William Webb Ellis the inventor of

bottled beer Alexander Nowell the lyricist of Danny Boy Fred Weatherley the father of political economy Sir William Petty the physicist who discovered the fuel cell Sir William Grove all these were Brasenose men Here Vincent's Club was founded Here Brideshead Revisited was born Sebastian was a Brasenose man Here C S Lewis looked into a chapel wardrobe and emerged in the kingdom of Narnia For the first time this original and entertaining narrative places all these people and hundreds more in the context of college life and in the wider world of university politics Brasenose is very far from being a dull institutional history It bubbles with anecdote and incident This is collective biography on an epic scale The British National
