**Borders** Shameem Black,2010-01-12 Theorists of Orientalism and postcolonialism argue that novelists betray political and cultural anxieties when characterizing the Other Shameem Black takes a different stance Turning a fresh eye toward several key contemporary novelists she reveals how border crossing fiction represents socially diverse groups without resorting to stereotype idealization or other forms of imaginative constraint Focusing on the work of J M Coetzee Amitav Ghosh Jeffrey Eugenides Ruth Ozeki Charles Johnson Gish Jen and Rupa Bajwa Black introduces an interpretative lens that captures the

ways in which these authors envision an ethics of representing social difference. They not only offer sympathetic portrayals of the lives of others but also detail the processes of imagining social difference. Whether depicting the multilingual worlds of South and Southeast Asia, the exportation of American culture abroad, or the racial tension of postapartheid South Africa, these transcultural representations explore social and political hierarchies in constructive ways. Boldly confronting the orthodoxies of recent literary criticism, *Fiction Across Borders* builds upon such seminal works as Edward Said's *Orientalism* and offers a provocative new study of the late twentieth-century novel.

The Creative Qualitative Researcher Ronald J. Pelias, 2019-03-29

*The Creative Qualitative Researcher* is designed to help readers see the range of possibilities of creative scholarship. The phrase "creative qualitative researchers" points toward scholars who call upon their literary skills to evoke the emotional and intellectual complexity of their subjects, who deploy their vulnerable relational and reflexive selves to expose and change problematic cultural practices, and who engage their embodied ideological and ethical sensibilities as researchers. Part I introduces chapters on four qualitative methods: autoethnography, performative writing, narrative inquiry, and poetic inquiry. Each of these four method chapters presents the method written in the style it features, provides writing prompts for exploring the chapter's themes, and offers written examples of the method. Part II, divided into four chapters, aims to develop creative qualitative research skills relevant to the methods discussed in Part I. Chapter 5 discusses empathy and ethics. Chapter 6 is a primer on creative writing. Chapter 7 identifies some alternative ideas for using the words of others, and Chapter 8 focuses on collaborative improvisation to compose scholarly work. Each of the chapters in Part II includes a large number of writing exercises, prompts, and strategies to assist scholars in becoming better creative researchers. By the end of the book, readers will know what creative research might entail and will have a clear understanding of the methods. Working with the various writing strategies, readers will see the potential of creative research and gain skills for its use.
