The Mysteries Of Clear Light The Emerging Identity Second Trilogy:

The Mysteries of Clear Light 2 Thespian Michaels, Esmi Fernau, 2016-09-19 The Mysteries of Clear Light The Emerging Identity is the second trilogy in an open ended series Consider this what if everything you have ever been told about Spirit were incorrect that in fact there is no attainment to reach for no enlightenment to strive towards What if in your pursuit of Spiritual Truths in your zest to embody some mystical ideals you have lost the very path humanity was meant to follow At the heart of timelessness lies the wellspring from which true individuality derives You are eternally in process of becoming you are forever under construction there are no established standards on which to base your earthly life Each of you is a Cosmos in miniature whose course cannot be determined by human standards The very fact of seeking is an acknowledgment of lack whereas just being as you are is a celebration of existence itself We the authors are not anything you cannot be Neither prophets nor gurus we simply relate the story we came to tell Clearly written never didactic at times irreverent and funny eternal yet new the knowledge we share reflects the timeless love of the Entities who bring you this wisdom and gently remind you the reader of your true identity We do not teach for in truth there is nothing to learn The realizations and conclusions you reach are your own we merely present you with a different viewpoint and show you alternatives Your immortal spirit will help you make your optimal choices and direct you toward the purpose for which you incarnated Your reward is not the enlightenment you have always had it is the freedom to make full use of the powers within you

Self/Same/Other Heather Walton, Andrew Hass, 2000-03-01 This collection of essays explores the way our notions of self other subjectivity gender and the sacred text are being re visioned within contemporary theory These new ways of conceiving create upheavals and radical shifts that rework our understanding of philosophical psychological political sexual and spiritual identity allowing us to trace the fault lines regulatory forces exclusions and unmarked spaces both within our selves and within the discourses that attend these selves As such revisionings break down borders and the encounter of literature and theology becomes a crucial focus for these explorations as the self learns to resituate its own being creatively vis a vis others and ultimately the Other Critical Companion to Toni Morrison Carmen Gillespie, 2007 Toni Morrison winner of the Nobel Prize in Literature in 1993 is perhaps the most important living American author This work examines Morrison s life and writing featuring critical analyses of her work and themes as well as entries on related topics and relevant people places and influences

Beckett Et la Religion Marius Buning, Matthijs Engelberts, Onno Rutger Kusters, 2000 **The Goddess Myth in Contemporary Literature and Popular Culture** Mary J. Magoulick, 2022-02-04 Honorable Mention for the 2022 Elli K ng s Maranda Prize awarded by the Women s Section of the American Folklore Society Goddess characters are revered as feminist heroes in the popular media of many cultures However these goddess characters often prove to be less promising and more regressive than most people initially perceive Goddesses in film television and fiction project worldviews and messages that reflect mostly patriarchal culture included essentialized gender assumptions in contrast to the feminist

empowering levels many fans and critics observe Building on critiques of other skeptical scholars this feminist folkloristic approach deepens how our remythologizing of the ancient past reflects a contemporary worldview and rhetoric Structures of contemporary goddess myths often fit typical extremes as either vilified destructive dark and chaotic typical in film or television or romanticized positive even utopian typical in women s speculative fiction This goddess spectrum persistently essentializes gender stereotyping women as emotional intuitive sexual motherly beings good or bad precluded from complex potential and fuller natures Within apparent good over evil pop culture narrative frames these goddesses all suffer significantly However a few recent intersectional writers like N K Jemisin break through these dark reflections of contemporary power dynamics to offer complex characters who evince hopepunk They resist typical simplified reductionist absolutes to offer messages that resonate with potential for today s world Mythic narratives featuring goddesses often do but need not serve merely as ideological mirrors of our culture s still problematically reductionist approach to women and all humanity

Space(s) of the Fantastic David Punter, C. Bruna Mancini, 2020-12-29 This book provides a series of new addresses to the enduring problem of how to categorize the Fantastic The approach taken is through the lens of spatiality the Fantastic gives us new worlds although of course these are refractions of worlds already in being In place of real spaces whatever they might be the Fantastic gives us imaginary spaces although within those spaces historical and cultural conflicts are played out albeit in forms that stretch our understanding of everyday location and our usual interpretations of cause and effect Many authors are addressed here from a variety of different geographical and national traditions thus demonstrating how the Fantastic as a mode a genre a way of thinking imagining and writing continually traverses borders and boundaries We hope to move the ongoing debate about the Fantastic forward in a scholarly as well as an engaging way
