**Contesting Indochina** M. Kathryn Edwards, 2016-06-14 How does a nation come to terms with losing a war especially an overseas war whose purpose is fervently contested In the years after the war how does such a nation construct and reconstruct its identity and values For the French in Indochina the stunning defeat at Dien Bien Phu ushered in the violent process of decolonization and a fraught reckoning with a colonial past Contesting Indochina is the first in depth study of the competing and intertwined narratives of the Indochina War It analyzes the layers of French remembrance focusing on state sponsored commemoration veterans associations special interest groups intellectuals films and heated public disputes These narratives constitute the ideological battleground for contesting the legacies of colonialism decolonization the Cold War and France s changing global status The Road to Dien Bien Phu Christopher Goscha, 2022-03-29 A multifaceted history of Ho Chi Minh s climactic victory over French colonial might that foreshadowed America s experience in Vietnam On May 7 1954 when the bullets stopped and the air stilled in Dien Bien Phu there was no doubt that Vietnam could fight a mighty colonial power and win After nearly a decade of struggle a nation forged in the crucible of war had achieved a victory undreamed of by any other national liberation movement The Road to Dien Bien Phu tells the story of how Ho Chi Minh turned a ragtag guerrilla army into a modern fighting force capable of bringing down the formidable French army Taking readers from the outbreak of fighting in 1945 to the epic battle at Dien Bien Phu Christopher Goscha shows how Ho transformed Vietnam from a decentralized guerrilla state based in the countryside to a single party communist state shaped by a specific form of War Communism Goscha discusses how the Vietnamese operated both states through economics trade policing information gathering and communications technology He challenges the wisdom of counterinsurgency methods developed by the French and still used by the Americans today and explains why the First Indochina War was arguably the most brutal war of decolonization in the twentieth century killing a million Vietnamese most of them civilians Panoramic in scope The Road to

Dien Bien Phu transforms our understanding of this conflict and the one the United States would later enter and sheds new light on communist warfare and statecraft in East Asia today [The End of the First Indochina War](#) James Waite, 2012-08-21

The French withdrawal from Vietnam in 1954 was the product of global pressures and triggered significant global consequences. By treating the war as an international issue, this book places Indochina at the center of the Cold War in the mid 1950s. Arguing that the Indochina War cannot be understood as a topic of Franco-US relations but ought to be treated as international history, this volume brings in Vietnamese and other global agents including New Zealand, Australia, and especially Britain, as well as China and the Soviet Union. Importantly, the book also argues that the successful French withdrawal from Vietnam, a political defeat for the Eisenhower administration, helped to avert outright warfare between the major powers, although with very mixed results for the inhabitants of Vietnam who faced partition and further bloodshed. [The End of the First Indochina War](#) explores the complexities of intra-alliance competition over global strategy, especially between the United States and British Commonwealth, arguing that these rivalries are as important to understanding the Cold War as east-west confrontation. This is the first truly global interpretation of the French defeat in 1954 based on the author's research in five western countries and the latest scholarship from historians of Vietnam, China, and Russia. Readers will find much that is new, both in terms of archival revelations and original interpretations. **The French Indochina War 1946-54** Martin Windrow, 2013-06-20

The states of Indochina had been French colonies or protectorates since the 19th century. However, in March 1945, the Japanese interned all French troops and officials and turned over all civil government to local authorities. The power vacuum caused by the Japanese surrender allowed the Viet Minh, a strong revolutionary organisation, to be established throughout Vietnam. When the French returned to the north, incidents between French and VM troops were inevitable; negotiations collapsed and the French opted for a military solution. This book examines the history of the conflict and the forces of both sides. [Historical Dictionary of the Indochina War \(1945-1954\)](#) Christopher E. Goscha, 2011

**Summary:** This first historical dictionary in English of the Indochina War 1945-54 provides the most comprehensive account to date of one of the most important conflicts of the twentieth century. Using over 1,600 personally researched and crafted entries, Goscha provides in-depth expert coverage of the Indochina War in all its dimensions. A succinct historical introduction frames the dictionary. Rather than settling for a strictly politico-military account of the war, the author adopts a path-breaking dual international and interdisciplinary approach. Thus, readers will not only find information on politics and military campaigns; they will also discover the remarkable impact this war had on intellectual, social, cultural, economic, and artistic domains in France, Indochina, and elsewhere. [The Second Indochina War](#) William S. Turley, 2008-10-17

Now in a thoroughly revised and updated edition, this classic history of the Vietnam War as seen by all participants takes into account the wealth of research and writing on the war since the book's original publication more than two decades ago. Leading scholar William S. Turley combines original research, thorough knowledge of the literature, his own

insight from many trips to Vietnam during and since the war and sound interpretation into a succinct and well crafted analysis that provides balanced treatment of the Vietnamese Lao Khmer and American dimensions of the war     *Legislation on the Indochina War* United States. Congress. House. Foreign Affairs,1971     Dien Bien Phu Anthony Tucker-Jones,2017-08-30 When the world held its breath It is 25 years since the end of the Cold War now a generation old It began over 75 years ago in 1944long before the last shots of the Second World War had echoed across the wastelands of Eastern Europewith the brutal Greek Civil War The battle lines are no longer drawn but they linger on unwittingly or not in conflict zones such as Iraq Somalia and Ukraine In an era of mass produced AK 47s and ICBMs one such flashpoint was French Indochina At the end of the Second World War France sought to reassert its military prestige but instead suffered humiliating defeat at Dien Bien Phu in French colonial Indochina The First Indochina war became a textbook example of how not to conduct counterinsurgency warfare against nationalist guerrillas Anthony Tucker Jones guides the reader through this decisive conflict with a concise text and contemporary photographs providing critical insight into the conduct of the war by both sides and its wider ramifications The Viet Minh after resisting the Japanese in Indochina sought independence for Vietnam from France The French with limited military resources moved swiftly to reassert control in 1945 sparking a decade long conflict French defense of Hanoi rested on holding the Red River Delta making it a key battleground When the Viet Minh invaded neighboring Laos the French deployed to fight a set piece battle at Dien Bien Phu in 1954 but instead were trapped All relief attempts failed and French defenses were slowly overwhelmed America considered coming to the garrisons rescue using nuclear weapons but instead left it to its fate which set the scene for the Algerian and the Vietnam conflicts
