## **The Miseducation Of American Teachers:**

*The Miseducation of American Teachers* James D. Koerner, 1963 American schools can never be better than the ability and training of American teachers But who is the American teacher today and how is he educated For two years James Koerner searched for the answers to these questions He visited teachers colleges and schools of education throughout the country interviewed hundreds of students and professors of education poured over transcripts study programs and course outlines This is his report It is blunt to the point and scathing It shows our teacher training institutions to be filled with weak students being taught by weak faculties in courses that are vacuous and ineffectual But Mr Koerner is a constructive critic aware of new signs of progress and convinced that reform is possible Throughout he offers sane and specific recommendations for improving the caliber of the American teaching profession Back cover *The Miseducation of American Teachers* James D. Koerner, 1963 *The Trouble with Ed Schools* David F. Labaree, 2008-10-01 American schools of education get little respect They are portrayed as intellectual wastelands as impractical and irrelevant as the root cause of bad teaching and inadequate learning In this book a sociologist and historian of education examines the historical developments and contemporary factors that have resulted in the unenviable status of ed schools offering valuable insights into the problems of these beleaguered institutions David F Labaree explains how the poor reputation of the ed school has had important repercussions shaping the quality of its programs its recruitment and the public response to the knowledge it offers He notes the special problems faced by ed schools as they prepare teachers and produce research and researchers And he looks at the consequences of the ed school's attachment to educational progressivism Throughout these discussions Labaree maintains an ambivalent position about education schools admiring their dedication and critiquing their mediocrity their romantic rhetoric and their compliant attitudes *The Racialized Experiences of Asian American Teachers in the US* Jung Kim, Betina Hsieh, 2021-11-29 Drawing on in depth interviews this text examines how Asian American teachers in the US have adapted persisted and resisted racial stereotyping and systematic marginalization throughout their educational and professional pathways Utilizing critical perspectives combined with tenets of Asian Critical Race Theory Kim and Hsieh structure their findings through chapters focused on issues relating to anti essentialism intersectionality and the broader social and historical positioning of Asians in the US Applying a critical theoretical lens to the study of Asian American teachers demonstrates the importance of this framework in understanding educators experiences during schooling training and teaching and in doing so the book highlights the need to ensure visibility for a community so often overlooked as a model minority and yet one of the fastest growing racial groups in the US This text will benefit researchers academics and educators with an interest in the sociology of education multicultural education and teachers and teacher education more broadly Those specifically interested in Asian American history and the study of race and ethics within Asian studies will also benefit from this book ***The Struggle for the Soul of Teacher Education* Kenneth M. Zeichner, 2017-10-10** The

Struggle for the Soul of Teacher Education is a much needed exploration of the unprecedented current controversies and debates over teacher education and professionalism Set within the context of neo liberal education reforms across the globe the book explores how the current struggles over teaching and teacher education in the US came about as well as reflections on where we should head in the future Zeichner provides specific examples of work that moves teacher education toward greater congruency between ideals and practices while outlining the basis for a new form of community based teacher education where universities and other program providers local communities school districts and teacher unions share responsibility for the preparation of teachers Ultimately Zeichner problematizes an uncritical shift to more practice and clinical experience and discusses the enduring problems of clinical teacher education that need to be addressed for this shift to be educative Readers are sure to gain insight on transforming teacher education so it more adequately addresses the need to prepare teachers capable of providing a high quality education with access to a rich and broad curriculum and culturally and community responsive teaching for everyone s children      *A Manual on Certification Requirements for School Personnel in the United States* ,1964      Rethinking Teacher Preparation Program Design Etta R. Hollins,Connor K. Warner,2021-05-30 This book provides a framework concrete examples and tools for designing a high quality academically robust preservice teacher preparation program that empowers teachers with the depth of professional knowledge and the skills required to become adaptable responsive K 12 teachers ready to engage with diverse groups of students and to achieve consistent learning outcomes Renowned teacher educators Etta R Hollins and Connor K Warner present a systematic approach for developing a teacher preparation program characterized by coherence continuity consistency integrity and trustworthiness as well as one that is firmly grounded in collaboration between faculty community members and other school practitioners This book offers an evidence based roadmap relevant for teacher educators administrators scholars agencies at the state and national levels and any organization that serves teacher educators      From Aide to Teacher George R. Kaplan,1977      **The SAGE Handbook of Philosophy of Education** Richard Bailey,Robin Barrow,2010-04-14 Section one of the book explores the nature of the philosophy of education and its relation to other aspects of educational theory and research Section two is devoted to particular thinkers of the past and more general coverage of the history of philosophy of education Section three is dedicated to contemporary philosophical thought on education providing the basis and reference point for an exploration of contemporary issues      *Teacher Education Around the World* Linda Darling-Hammond,ANN LIEBERMAN,2013-06-19 Teachers are the most important single element of the education system but what does it take to create high quality teachers in today s world Around the world countries are struggling to understand how to change their schools to meet global demands International comparisons have shown that schools in Finland lead the league tables but why is this what new policies and practices in teacher education have they developed and how do they support the changes A number of European and Asian countries also top the list when it comes to providing high quality teacher education but there is little information

about what and how they are doing the work and how they have made changes The leading international contributors to this book describe the systemic policies and practices of teacher education in eight high achieving countries and how they are dealing with teacher quality equity and the changing global society Among the countries that are doing well Finland Singapore the Netherlands the UK Hong Kong Canada Australia and the USA there is an interesting diversity of policies and practices that support their changes in education including emphasis on the preparation induction support and assessment of new teachers focus on teacher retention teachers professional knowledge and continuing professional development curriculum change and critical policies In addition the chapters highlight the local cultural imperatives that influence and shape the preparation of quality teachers and make change both possible and problematic Teacher Education Around the World examines what can be learned from the different countries what policies and practices seem transferable and which seem embedded in the particulars of the culture of the country It describe themes that cut across all the countries documenting not only what they are but how the countries go about supporting and sustaining changes in teacher education This book will prove itself an absolute essential for all those involved in teacher education teaching and educational policy

**Lessons from the Teachers for a New Era Project** G. McDiarmid, Kathryn Caprino, 2017-07-06 Chronicling a high profile and ambitious teacher preparation reform project that took place across 11 diverse U S institutions this volume examines the strategies program changes accomplishments and challenges from the Teachers for a New Era Project TNE TNE aimed to improve the preparation of K 12 teachers and address mounting criticisms of university based teacher education Funded primarily by the Carnegie Corporation of New York TNE targeted the most persistent problems in university based teacher preparation programs focused on evidence based assessment of program impact and developed strategies for improvement Exploring both the successes and tensions that arose from the program this book contributes to future teacher education and program assessment endeavors and offers lessons that can inform current policies and practices

*Historical Foundations of Education* Theodore Michael Christou, 2023-03-23 This volume considers history as a foundational discipline in education It shows how history is a means for exploring what it means to be human by considering those stories sources forces and contexts that shape the way we construct narratives History is more than content no matter what we might recall from our experiences in schools The volume shows how studying history is one means of uncovering why institutions beliefs policies and practices are as they are Educational structures are like all things mutable History empowers the individual to be an actor in this process of change and to act judiciously About the Educational Foundations series Education as an academic field taught at universities around the world emerged from a range of older foundational disciplines The Educational Foundations series comprises six volumes each covering one of the foundational disciplines of philosophy history sociology policy studies economics and law This is the first reference work to provide an authoritative and up to date account of all six disciplines showing how each field s ideas methods theories and approaches can contribute to

research and practice in education today The six volumes cover the same set of key topics within education which also form the chapter titles Mapping the Field Purposes of Education Curriculum Schools and Education Systems Learning and Human Development Teaching and Teacher Education Assessment and Evaluation This structure allows readers to study the volumes in isolation by discipline or laterally by topic and facilitates a comparative thematic reading of chapters across the volumes Throughout the series attention is paid to how the disciplines comprising the educational foundations speak to social justice concerns such as gender and racial equality

**The Importance of Philosophy in Teacher Education** Andrew D. Colgan, Bruce Maxwell, 2019-08-29 The Importance of Philosophy in Teacher Education maps the gradual decline of philosophy as a central integrated part of educational studies Chapters consider how this decline has impacted teacher education and practice offering new directions for the reintegration of philosophical thinking in teacher preparation and development Touching on key points in history this valuable collection of chapters accurately appraises the global decline of philosophy of education in teacher education programs and seeks to understand the external and endemic causes of changed attitudes towards a discipline which was once assigned such a central place in teacher education Chapters illustrate how a grounding in the theoretical and ethical dimensions of teaching learning and education systems contribute in meaningful ways to being a good teacher and trace the consequences of a decline in philosophy on individuals professional development and on the evolution of the teaching profession more broadly With this in mind the text focusses on the future of teacher education and considers how we can ensure that philosophy of education feeds into the excellence of teaching today This book will be of great interest to graduate postgraduate students as well as research scholars in the field of educational philosophy and history of education In addition it will be useful for those involved in teacher education and in particular course module and program development

**The Stories We Tell** Valerie N. Faulkner, Patricia L. Marshall, Lee V. Stiff, 2019-08-29 The Stories We Tell Math Race Bias Opportunity positions educators as professional decision makers whose every day choices are deeply consequential After exploring topics ranging from the early identification of talent the use of demographic characteristics to make academic decisions and the problematic

casting of a gap in mathematical performance as about the students themselves the book explores how professional decision making and a more precise use of data can impact mathematical performance outcomes With gentle precision the book analyzes the patterns of practice in place as educators sort children according to perceived needs Through case studies the authors reconfigure the mathematics achievement gap as being about opportunity provided or denied at both the classroom and systemic levels The book has implications for school personnel as well as others curious about how opportunity impacts outcomes and how data is or is not used to make decisions about children Educators who challenge themselves to engage with the possibility of bias and then face the stories we tell ourselves about the race talent development student merit relationship will have the opportunity to write a powerful and equitable story going forward
