The History of All Religions William Burder, 1872 **The Invention of World Religions** Tomoko

Masuzawa, 2005-05-15 The idea of world religions expresses a vague commitment to multiculturalism Not merely a descriptive concept world religions is actually a particular ethos a pluralist ideology a logic of classification and a form of knowledge that has shaped the study of religion and infiltrated ordinary language In this ambitious study Tomoko Masuzawa examines the emergence of world religions in modern European thought Devoting particular attention to the relation between the comparative study of language and the nascent science of religion she demonstrates how new classifications of language and race caused Buddhism and Islam to gain special significance as these religions came to be seen in opposing terms Aryan on one hand and Semitic on the other Masuzawa also explores the complex relation of world religions to Protestant theology from the hierarchical ordering of religions typical of the Christian supremacists of the nineteenth century to the aspirations of early twentieth century theologian Ernst Troeltsch who embraced the pluralist logic of world religions and by so doing sought to reclaim the universalist destiny of European modernity *Ismaili Sources, Studies, History and Traditions* Farhad Daftary, 2025-09-25 Until recently Ismailis were studied and evaluated almost exclusively on the basis of evidence often fabricated by adversaries Thus a variety of legends and misrepresentations circulated in Europe as well as among other Muslim communities regarding the teachings and practices of this Shi'i Muslim community With the access of modern scholars to numerous Ismaili manuscript sources preserved in Yemen Syria Iran Central Asia and India a completely new image of the Ismailis has emerged A leading authority in Ismaili studies Farhad Daftary draws on the results of modern scholarship in the studies collected here on Ismaili history and aspects of Ismaili thought and traditions The Traditions of Islam Alfred Guillaume, 1924 Ismaili History and Intellectual Traditions Farhad Daftary, 2017-08-07 The Ismailis represent an important Shi'i Muslim community with rich intellectual and literary traditions The complex history of the Ismailis dates back to the second eighth century when they separated from other Shi'i groups under the leadership of their own imams Soon afterwards the Ismailis organised a dynamic revolutionary movement known as the da'wa or mission for uprooting the Sunni regime of the Abbasids and establishing a new Shi'i caliphate headed by the Ismaili imam By the end of the third ninth century the Ismaili d's operating secretly on behalf of the movement were active in almost every region of the Muslim world from Central Asia and Persia to Yemen Egypt and the Maghrib This book brings together a collection of the best works from Farhad Daftary one of the foremost authorities in the field The studies cover a range of specialised topics related to Ismaili history historiography institutions theology law and philosophy amongst other intellectual traditions elaborated by the Ismailis The collation of these invaluable studies into one book will be of great interest to the Ismaili community as well to anyone studying Islam in general or Shi'i Islam in particular Values in Islamic Culture and the Experience of History N. Evolution Younus Samadzada, 2022-01-14 This book chronologically documents the rise and fall of the major religions of the world and explores the role that various cultural factors such as dance, trance, music, song, and language have played in this evolution. The role that leaders play in the evolution of religion is also discussed. Starting from the primitive religions of hunter-gatherer societies in which religion was not part of any institution, the next stages of human life from the agricultural revolution to the modern religions of today are discussed. Among the modern religions discussed are Judaism, Buddhism, Christianity, Islam, Scientology, and numerous others. The reader is further provided with a unique perspective on the potential good and evil aspects of religion and the very reality of the existence of a God or gods and the possible downfalls of the religious belief system.

European Racism: A History in Documents Lisa M. Todd, Gary K. Waite, 2024-05-22 European Racism collects more than 130 primary sources from religious tracts, legal codes, and government edicts to novel excerpts, paintings, illustrations, and songs to help readers trace the development and spread of racism in Europe from the Middle Ages to the present day. The volume is organized into six sections revealing how Europeans developed racist attitudes toward various groups: Jews, Muslims, Black Africans, Asians, the Romani, and global Indigenous Peoples. Sources demonstrate how racism intersects with gender roles, sexual identities, economic status, religious affiliation, national origin, and military alliances and include examples of historical anti-racist resistance. There is a general volume introduction and six section introductions and 42 illustrations. Brief headnotes accompany each document, and marginal glossing throughout helps students with unfamiliar references and terminology. An alternative table of contents presents documents chronologically.

Introduction to Suriname Gilad James, PhD, Suriname is a small country located in South America bordered by French Guiana to the east, Guyana to the west, Brazil to the south, and the Atlantic Ocean to the north. Formerly known as Dutch Guiana, Suriname is the smallest country in South America and has a population of approximately 600,000 people. Suriname is a diverse country with a mixture of cultures including indigenous people, Creole, Maroons, descendants of African slaves, Hindustani from the Indian subcontinent, and Javanese. The official language of Suriname is Dutch, while Sranan Tongo, an English-based creole language, is widely spoken. The economy of Suriname is heavily dependent on exports of bauxite, gold, and oil. Despite being a relatively small country, Suriname has a rich cultural heritage, boasting diverse cuisines, music, dances, and traditions. The country is also known for its natural attractions, such as the Amazon Rainforest, the Brownsberg Nature Park, and the Kaieteur Falls.
