*Octavio Paz* Nicholas Caistor, 2008-02-15 Both an artist and activist Octavio Paz won the Nobel Prize for literature in 1990 This recognition was the culmination of decades of work as Paz strove to marry traditional Mexican poetry with distinctly surrealist and Spanish influences Along with his work Paz's contribution to the intellectual debates of his time such as those over the role of Mexican art in national identity cannot be overemphasized In *Octavio Paz* Nicholas Caistor takes a fresh look at Paz's exquisite poetry and fascinating life Born during the Mexican Revolution Paz spent his youth fighting to free Mexico from the ideologies of both the left and right He traveled to the United States then to Spain where he fought with the Republicans against Franco's Nationalists He eventually served as a diplomat in India before returning to his homeland in 1968 where he again became a vocal opponent of the government As Caistor demonstrates Paz's personal journey in those years was as exciting as his public life He details here the multiple marriages and passionate friendships that inevitably made

their way into Paz's poetry Both concise and insightful Octavio Paz reveals the life that informs a poetry that is deeply expressive and distinctly political

*The Dissenting Voice* Martin S. Stabb, 2014-05-23 Political social and aesthetic change marked Latin American society in the years between 1960 and 1985 In this book Martin Stabb explores how these changes made their way into the essayistic writings of twenty six Spanish American intellectuals Stabb posits that dissent against ideology against simplistic notions of

technological progress against urban values and even against the direct linear expository style of the essay itself characterizes the work of these contemporary essayists. He draws his examples from major canonical figures including Paz Vargas Llosa, Fuentes and Cortázar and from lesser known writers who merit a wider readership such as Monterroso, Zaid Edwards and Ibarguengoitia. This exploration overturns many conventional assumptions about Latin American intellectuals and also highlights some of the other achievements of authors famous primarily for novels or short stories.

**A Luis Leal Reader** Luis Leal, 2007-09-11 Since his first publication in 1942, Luis Leal has likely done more than any other writer or scholar to foster a critical appreciation of Mexican, Chicano and Latin American literature and culture. This volume bringing together a representative selection of Leal's writings from the past sixty years is at once a wide-ranging introduction to the most influential scholar of Latino literature and a critical history of the field as it emerged and developed through the twentieth century. Instrumental in establishing Mexican literary studies in the United States, Leal's writings on the topic are especially instructive, ranging from essays on the significance of symbolism, culture and history in early Chicano literature to studies of the more recent use of magical realism and of individual New Mexican, Tejano and Mexican authors such as Juan Rufo, Carlos Fuentes, José Montoya and Mariano Azuela. Clearly and cogently written, these writings bring to bear an encyclopedic knowledge, a deep understanding of history and politics and an unparalleled command of the aesthetics of storytelling from folklore to theory. This collection affords readers the opportunity to consider or reconsider Latino literature under the deft guidance of its greatest reader.

**Essays in Honor of Lois Parkinson Zamora** John Ochoa, Monika Kaup, 2022-10-03 Honoring the lifework of the comparative literature scholar *From the Americas to the World: Essays in Honor of Lois Parkinson Zamora* traces artistic and cultural pathways that connect Latin American literature and culture to the Americas and to the world beyond. The essays in this collection cover three critical fields: comparative hemispheric American literature, magical realism and the Baroque New World Baroque. Beginning with a critical reassessment of hemispheric American studies, these essays analyze the works of a wide array of writers such as Roberto Bolaño, Alejo Carpentier, Gabriel García Márquez, Waldo Frank and José Lezama. These chapters build upon the legacy of the scholarship done by Dr. Zamora and exemplify the pattern of literary studies that she has driven forward.

**Avant-garde Orientalism** David LeHardy Sweet, 2017-01-20 This study explores the work of Western avant-garde writers who traveled to and wrote about Asia and North Africa. Though exoticist in outlook, many of these writers were also anti-colonialist and thus avoided some of the pitfalls of academic orientalism by assuming an aesthetics of diversity while employing strategies of provocation and reciprocity. As a survey of works on travel including essays, novels, poems and plays, the book challenges or modifies many postcolonial assumptions about Western writers on the Orient, from the French Surrealists to the American Beats and even transnational authors of the new millennium. Through a synthesis of avant-garde, postcolonial and travel literature theories, *Avant-garde Orientalism* works in the best tradition of comparative literary study to identify and analyze a

distinct category of world literature

**Mindfulness and Educating Citizens for Everyday Life** Malgorzata

Powietrzynska, Kenneth Tobin, 2016-07-23 Mindfulness and Educating Citizens for Everyday Life invites readers to explore the role mindfulness can play in mediating how we enact social life in today's increasingly challenging and challenged world. The educators and researchers who have contributed to this book use mindfulness as a lens to address and untangle what is becoming a profoundly complicated way of being within the reality of global capitalism. Education is framed broadly; the research transcends the walls of classrooms and includes museums, nursing homes, hospitals, AA meetings, and homes. Hence the chapters feature participants occupying varied social positions and spaces that may be situated in different parts of the globe. The authors address two overarching and dialectically related themes of mindfulness and wellness, and collectively the chapters expand possibilities for readers to act mindfully in a world in which wellness and wellbeing are pervasive concerns as a fragile Earth adapts to a dynamic flux of human-led changes that threaten the future of lifeworlds that support humanity and myriad species that face extinction. The authors do not offer oversimplified solutions to dramatically switch direction and preserve life as we have known it. Instead, the ideas that emerge from the research presented in this volume expand possibilities for informed conduct, self-help, and educating citizens with a goal of individuals and collectives transforming lifeworlds by embracing mindfulness-saturated ontologies.

**The Global Manager's Guide to Cultural Literacy** Christine

Uber Grosse, 2019-04-29 Global managers need to communicate and connect with many different cultures. The new language of business is cultural literacy, which encompasses basic knowledge of business language, culture, and the local economy. This book provides a general overview and specific examples of cultural literacy. It will provide managers with a basic understanding of the business language, culture, and economy of seven countries in the G 20, including Brazil, Mexico, and the US in the Americas; China and South Korea in Asia; and France and Germany in Europe. For global managers, knowing even the basics about a country's culture, language, and economy is invaluable for making connections, doing business, and communicating across cultures. Clearly, managers do not have time to learn the language of every country they visit. However, they can invest time to develop basic cultural literacy of the countries to which they travel. Cultural literacy gives them a baseline of knowledge to connect with customers, suppliers, and co-workers and shows respect for people and their culture. It also helps businesspeople find common ground on which to build business relationships. This volume offers business students and managers a quick introduction to language basics and cultural knowledge and familiarity with the business environment of seven countries. In addition, it provides a template for developing basic business language literacy and building business connections with people from other countries.

**Jorge Teillier** Teresa R. Stojkov, 2002

The study concludes with a rereading of Teillier's poetry itself. Stojkov's analyses depend upon a sense of the subject's constituting consciousness and the ability of the reader to participate in it. Through the approach proposed here, she arrives at a method not only for reading Teillier's poetry but also for evaluating its unique significance within both the national and international contexts. JACKET *The Poetry of the Americas* Harris Feinsod, 2017-09-08 The Poetry of the Americas offers a lively and detailed history of relations among poets in the US and Latin America spanning three decades from the Good Neighbor diplomacy of World War II through the Cold War cultural policies of the late 1960s Connecting works by Martín Adán, Elizabeth Bishop, Paul Blackburn, Jorge Luis Borges, Julia de Burgos, Ernesto Cardenal, Jorge Carrera Andrade, Allen Ginsberg, Langston Hughes, José Lezama Lima, Pablo Neruda, Charles Olson, Octavio Paz, Heberto Padilla, Wallace Stevens, Derek Walcott, William Carlos Williams and many others Feinsod reveals how poets of many nations imagined a poetry of the Americas that linked multiple cultures even as it reflected the inequities of the inter American political system This account offers a rich contextual study of the state sponsored institutions and the countercultural networks that sustained this poetry from Nelson Rockefeller's Office of the Coordinator for Inter American Affairs to the mid 1960s avant garde scene in Mexico City This innovative literary historical project enables new readings of such canonical poems as Stevens's Notes Toward a Supreme Fiction and Neruda's The Heights of Macchu Picchu but it positions these alongside lesser known poetry translations anthologies literary journals and private correspondences culled from library archives across the Americas The Poetry of the Americas thus broadens the horizons of reception and mutual influence and of formal historical and political possibility through which we encounter midcentury American poetry recasting traditional categories of U S or Latin American literature within a truly hemispheric vision

**How Is World Literature Made?** Gesine Müller, 2021-11-22 The debate over the concept of world literature which has been taking place with renewed intensity over the last twenty years is tightly bound up with the issues of global interconnectedness in a polycentric world Most recently critiques of globalization related conceptualizations in particular have made themselves heard to what extent is the concept of world literature too closely connected with the political and economic dynamics of globalization Such questions cannot be answered simply through theoretical debate The material side of the production of world literature must therefore be more strongly integrated into the conversation than it has been Using the example of Latin American literatures this volume demonstrates the concrete construction processes of world literature To that purpose archival materials have been analyzed here notes travel reports and correspondence between publishers and authors The Latin American examples provide particularly rich information about the processes of institutionalization in the Western world as well as new perspectives for a contemporary mapping of world literature beyond the established dynamics of canonization

**The Multimedia Works of Contemporary Latin American Women Writers and Artists** Jane Elizabeth Lavery, Sarah Bowskill, 2023 In contemporary Latin America an emerging crosscurrent of pioneering female writers and artists with an interest in transgressing traditional boundaries of genre media gender and nation are using their work to voice dissent against pressing social issues including neo liberal consumerism environmental degradation mass migration and gender violence Bringing together analyses by scholars from the US Europe and Latin America with reflections by Ana Clavel Eugenia Prado Bassi Eli Neira Regina José Galindo Carla Faesler Mónica Nepote Pilar Acevedo Gabriela Golder Mariela

Yeregui Jacalyn Lopez Garcia and Lucia Grossberger Morales on their own practice this volume proposes new critical approaches to new forms of expression which encapsulate rich transnational cultural flows and grass roots political activism Via an analysis of multimedia interventions and practice the volume shows how the work of these women draws attention to the constructed nature of all boundaries and borders be they between nations or people in an increasingly globalised and digitalised world
