In War We Trust Chris J.

Dolan, 2018-01-18 There is a long standing tradition in Western culture of differentiating between just and unjust wars 11 September 2001 has stimulated a debate in the West which holds that although people who are opposed to war in principle may disagree that any such distinction can possibly be made the basic ideas involved seem to present a plausible argument that there are times when war is at the very least just and politically necessary These and other issues are addressed in this

study The consistent theme throughout this book is that significant ethical issues and moral dilemmas have been raised as they pertain to the forceful expression of American power via the Bush Doctrine s assertion of the right to engage in first strikes against states and non states in the wake of the 11 September 2001 terrorist attacks This book is intended for those with an interest in political science history leadership studies and foreign policy analysis A Rhetorical Conversation Jordan D. Finkin, 2010-01-25 This book is about Jewish language The fact that Jews speak and write in distinctive ways is well known The journalist Mike Royko called it Hebonics These forms of expression actually draw from many sources and have been employed in popular culture from Henry Roth s Call It Sleep to the novels of Saul Bellow to contemporary television What has received less attention is what allowed these modern forms to flow from a rich body of Yiddish literature This book fills that gap by exploring the language of modern Yiddish literature addressing emblematically why Jews answer a question with a question Through a series of case studies A Rhetorical Conversation explores various distinctive aspects of Yiddish literature to explain the nature and importance of Jewish discourse the way of speaking writing arguing and thinking developed by Yiddish culture based on prolonged and intimate contact with traditional texts
