## **The Morals Of Literature:**

**The Moral Imagination** Christopher Clausen, 1986 Spanning many historical and literary contexts Moral Imagination brings together a dozen recent essays by one of America's premier cultural critics David Bromwich explores the importance of imagination and sympathy to suggest how these faculties may illuminate the motives of human action and the reality of justice These wide ranging essays address thinkers and topics from Gandhi and Martin Luther King on nonviolent resistance to the dangers of identity politics to the psychology of the heroes of classic American literature Bromwich demonstrates that moral imagination allows us to judge the right and wrong of actions apart from any benefit to ourselves and he argues that this ability is an innate individual strength rather than a socially conditioned habit Political topics addressed here include Edmund Burke and Richard Price's efforts to define patriotism in the first year of the French Revolution Abraham Lincoln's principled work of persuasion against slavery in the 1850s the erosion of privacy in America under the influence of social media and the use of euphemism to shade and anesthetize reactions to the global war on terror Throughout Bromwich considers the relationship between language and power and the insights language may offer into the corruptions of power Moral Imagination captures the singular voice of one of the most forceful thinkers working in America today Moral Upbringing through the Arts and Literature Pawel Kazmierczak, Jolanta Rzegocka, 2018-12-17 Mark Twain the great American writer of the South whose characters struggle with difficult choices famously said Always do what is right It will gratify half of mankind and astound the other Taking Twain's phrase as a starting point this book considers how literature and art explore different systems of values and principles of conduct and how they can teach us to cope at times of trial Morality remains one of the most contested areas of thought and ethics in the modern world due to numerous misapprehensions and the move away from solidarity from what we share and hold in common particularly our inherent pursuit of virtue and consideration of principles concerning the distinction between right and wrong good and bad Featuring essays by scholars from countries which have seen traditions of virtue and character formation perish in the course of tragic social experiments this book highlights the role of literature and arts in educating about virtues and character in both a regional and global context The volume offers philosophical analysis of moral education and engages with the literary canon discussing the ways in which virtue was taught and can still be taught with Aristotle as one of the regained tools of learning The essays span countries from England Spain Italy and Belgium to the USA Costa Rica ancient China and Israel with Poland the Polish Lithuanian Commonwealth and Central Europe receiving considerable coverage They address themes of virtue and character formation from the Bronze Age to the present and serve as inspiring reading for educators literary scholars historians ethicists artists and active readers **The Enigma of Good and Evil: The Moral Sentiment in Literature** Anna-Teresa Tymieniecka, 2006-08-27 Striking toward peace and harmony the human being is ceaselessly torn apart in personal social national life by wars feuds inequities and intimate personal conflicts for which there seems to be no respite Does the human

condition in interaction with others imply a constant adversity Or is this conflict owing to an interior or external factor of evil governing our attitudes and conduct toward the other person To what criteria should I refer for appreciation judgment direction concerning my attitudes and my actions as they bear on the well being of others At the roots of these questions lies human experience which ought to be appropriately clarified before entering into speculative abstractions of the ethical theories and precepts Literature which in its very gist dwells upon disentangling in multiple perspective the peripeteia of our life experience offers us a unique field of source material for moral and ethical investigations Literature brings preeminently to light the Moral Sentiment which pervades our life with others our existence tout court Being modulated through the course of our experiences the Moral Sentiment sustains the very sense of literature and of personal human life Tymieniecka

*Literature and Moral Theory* Nora Hämäläinen, 2017-05-18 Literature and Moral Theory investigates how literature in the past 30 years has been used as a means for transforming the Anglo American moral philosophical landscape which until recently was dominated by certain ways of doing theory It illuminates the unity of the overall agenda of the ethics literature discussion in Anglo American moral philosophy today the affinities and differences between the separate strands discernible in the discussion and the relationship of the ethics literature discussion to other complexly overlapping trends in late 20th century Anglo American moral philosophy neo Aristotelianism post Wittgensteinian ethics particularism and anti theory It shows why contemporary philosophers have felt the need for literature how they have come to use it for their own philosophically radical purposes of understanding and argument and thus how this turn toward literature can be used for the benefit of a moral philosophy which is alive to the varieties of lived morality **Ethics, Literature, and Theory** Stephen K. exploration shows that in the early modern world printed works on morality and ethics served as an important conveyor of classic Jewish folktales and as an important channel of leisure reading in premodern Jewish culture Utilizing a corpus of over 400 Musartales author Vered Tohar carefully opens a path to understand the thematic and poetic features of those tales This innovative reframing of early modern Musar texts reveals a new history of Jewish folklore and emphasizes the continuity of Hebrew literature from medieval to modern era Tohar classifies these stories which she calls the Musar folktales into four genres adapted from classic poetic studies tragedy comedy parable or social exemplum and theological allegory As parables of vice and virtue the works featured here were originally printed and circulated in early modern Jewish communities and each contained themes of love and hate good and evil loyalty and betrayal or life and death Beyond their traditional function of ethical and moral edification Tohar advances the Musar texts as an archive of Hebrew tales and their ideological traditions This innovative reframing of early modern Musar texts reveals a new history of Jewish folklore and a new way to read those texts

why How is regret different from other backward looking emotions In The Moral Psychology of Regret scholars from several disciplines including philosophy gender studies disability studies law and neuroscience come together to address these and other questions related to this ubiquitous emotion that so many of us seem to dread And while regret has been somewhat under theorized as a subject worthy of serious and careful attention this volume is offered with the intent of expanding the discourse on regret as an emotion of great moral significance that underwrites how we understand ourselves and each other

*The Value of Literature* Rafe McGregor,2016-08-22 In *The Value of Literature* Rafe McGregor employs a unique approach the combination of philosophical work on value theory and critical work on the relationship between form and content to present a new argument for and defence of literary humanism He argues that literature has value for art for culture and for humanity in short that it matters Unlike most contemporary defenders of literary value the author s strategy does not involve arguing that literature is good as a means to one of the various ends that matter to human beings It is not that literature necessarily makes us cleverer more sensitive more virtuous more creative or just generally better people Nor is it true that there is a necessary relation between literature and edification clarification cultural critique catharsis or therapy Rather than offer an argument that forges a tenuous link between literature and truth or literature and virtue or literature and the sacred this book analyses the non derivative sui generic value characteristic of literature and demonstrates why that matters as an end in itself

**Literature** Charles Marc Des Granges,1921      **Rethinking Empathy through Literature** Meghan Marie Hammond,Sue J. Kim,2014-07-11 In recent years a growing field of empathy studies has started to emerge from several academic disciplines including neuroscience social psychology and philosophy Because literature plays a central role in discussions of empathy across disciplines reconsidering how literature relates to feeling with others is key to rethinking empathy conceptually This collection challenges common understandings of empathy asking readers to question what it is how it works and who is capable of performing it The authors reveal the exciting research on empathy that is currently emerging from literary studies while also making productive connections to other areas of study such as psychology and neurobiology While literature has been central to discussions of empathy in divergent disciplines the ways in which literature is often thought to relate to empathy can be simplistic and or problematic The basic yet popular postulation that reading literature necessarily produces empathy and pro social moral behavior greatly underestimates the complexity of reading literature empathy morality and society Even if empathy were a simple neurological process we would still have to differentiate the many possible kinds of empathy in relation to different forms of art All the complexities of literary and cultural studies have still to be brought to bear to truly understand the dynamics of literature and empathy      **Cyclopaedia of Biblical, Theological, and Ecclesiastical Literature** John McClintock,1888      **Teaching Ethics through Literature** Suzanne S. **God & Culture** D. A. Carson, John Woodbridge, 2020-07-30 This book examines a number of facets of contemporary culture and sets forth what thoughtful Christians have been and should be thinking about each one. Written in honor of Carl F. H. Henry on the occasion of his eightieth birthday, the essays in *God and Culture* are on these topics and by these contributors: hermeneutics, Kevin J. Vanhoozer; pluralism, D. A. Carson; eschatology, Geoffrey W. Bromiley; anthropology, Robert J. Priest; psychology, Warren J. Heard Jr.; philosophy, George I. Mavrodes; history, Lewis W. Spitz; economics, Ian Smith; law, Phillip E. Johnson; politics, Sir Fred Catherwood; literature, Leland Ryken; art, Edmund P. Clowney; media, Larry W. Poland; science, Charles B. Thaxton; environment, Loren Wilkinson; bioethics, Nigel M. de S. Cameron; human sexuality, Armand M. Nicholi Jr.; personal life, style and leisure, J. I. Packer. Each of these authors has demonstrated a profound interest in thinking Christianly about his subject. Some of the essays scan the ways previous Christians have tried to evaluate each cultural slice; all of them offer some guidance regarding what Christians need to bear in mind as our culture rushes on. Some contributors adopt the well-known grid of H. Richard Niebuhr in his classic *Christ and Culture*; others cut fresh paths. The aim throughout is to foster fidelity to Christ and his gospel while encouraging a comprehensive Christian outlook on our rapidly changing world.
