## TANGLED WEBS-VOL. III

*The Vampire Black Widow sits atop her throne as the Violin Spider whines his tune and the viper's venom takes its paralyzing effect. Are ye destined to perish in the web of deceit and entangled lies or shall ye take God's hand and find thine way home? So be it for the time is at hand for the choosing.*

**Breaking the Good Mom Myth** Alyson Schafer, 2008-05-19 As a psychotherapist parent educator and parent coach Alyson Sch fer has worked with a great many mothers who in the quest to be a good mother have ended up on the door step of despair Alyson is a forty something suburbanite working mother of two and can speak to these issues both personally and professionally This book explains the psycho social phenomena of how each person creates their own unique good mother myth and then examines why these myths are not only faulty but could in fact lead to poor parenting marital disaster and individual crisis Her years of educating parents around these concepts afford Alyson the skill to take complex ideas and explain them to a lay audience in a compelling and easy to understand way Capitalizing on the need to present parents with information in an easy to digest format the book is presented as a series of personal stories each highlighting a common parenting myth This format will appeal to tired parents who have little time and energy for academia Instead readers learn by taking a voyeuristic peek into the private family lives of the book's characters Readers can identify with the fictitious parents and coaching clients in the stories and see first hand how the characters life experiences shaped their unique good mother myths and how these myths create conflict in their lives The author offers up ideas for how the character can reject her current thinking and adopt a more useful outlook to improve her situation The story arc allows readers to identify and then project how their parenting may be unknowingly going off the rails The goal of this book is to provide parents with some basic education and a means of self discovery Readers uncover their own good mother myths and are given an eye opening glimpse into potential issues to challenge their thinking A great sense of empowerment is restored as mothers become better able to resist the pulls of their personal and cultural myths and instead begin parenting with greater intention and in ways that are more suitable to proper child guidance

*On the Origin of Spin* Brendan Bruce, 2013-06-29 This book was written to try and answer the question where and when did political spin originate. It deals with the techniques of news management developed and used in those advanced democracies who have laws to protect a free press such as the United States of America and to a lesser extent its first cousin several times removed the United Kingdom. Of Great Britain, governmental toleration of free speech, progressive legislation to widen the franchise, vigorous growth in political parties, pluralism, and its consequence, the peaceful coexistence of different interests, convictions, and lifestyles, a healthy adherence to Burkean little platoons of volunteers, and most of all, sophisticated developments in mass media technologies and consumer marketing techniques, all of which means that the Anglo-Saxon cousins are and have always been in the vanguard of news management. Government and media have been at war from the very beginning. At the bottom of this is a struggle for allegiance. The media want the allegiance of their readers and viewers because this brings them the profits they need to remain in business. As Patrick Le Lay, then CEO of the main French private channel TF1, put it: "There are many ways to speak about TV, but in a business perspective, let's be realistic. TF1's job is to help Coca-Cola sell its product. What we sell to Coca-Cola is available human brain time." Government, on the other hand, wants the allegiance of the voter to acquire or retain power. The famous Victorian editor of *The Times*, Thomas Barnes, once said that the newspaper is not an organ through which Government can influence people, but through which people can influence the Government. Politicians would reverse the dictum. And therein lies the *causa belli*. The politician's strategy for winning this war was stated most succinctly by that arch media manipulator David Lloyd George: "what you can't square, you

squash and what you can't squash you square The media for their part are determined to be neither squashed nor squared From 1800 in the US and 1832 in Britain when Germany and Italy were just a glint in the eye of some petty princes and France was recovering from yet another pointless revolution leaving behind yet another example of Kafka's bureaucratic slime competitive party based elections produced extraordinary outbursts of creativity Politicians learned that the art of politics is about making and then winning arguments As each successive cutting edge novelty arrived the spin doctors quickly adapted and improved their techniques by adroitly exploiting the new medium's benefits For two centuries and even before the Anglo Saxons have led the world in spin this is the history of that journey *Barer of the Ghost Nation* John Steiner, 2013-02-25 Wannukaga is the last of his people No one else carries on his cultural traditions It was the end of the world for the healer and spiritual leader He is four hundred years old and he is not alone Afflicted by vampirism from those who slaughtered his nation Wannukaga is further burdened with the spirits of his people inside his mind Shattered by hard economic times St Louis lays atop an older city whose people died out centuries ago save for Wannukaga who wanders its urban decay to this day Locked in a struggle to preserve his people's traditions and adapt to accelerating change the healer must balance his many personalities Two homeless teenagers befriend and help Wannukaga through difficult times against other vampires responsible for the death of his people evade religiously motivated amateur vampire slayers and confront a hardhearted Squad Five operator stepping outside the rules of his unit *Contesting Race and Citizenship* Camilla Hawthorne, 2022-07-15 *Contesting Race and Citizenship* is an original study of Black politics and varieties of political mobilization in Italy Although there is extensive research on first generation immigrants and refugees who traveled from Africa to Italy there is little scholarship about the experiences of Black people who were born and raised in Italy Camilla Hawthorne focuses on the ways Italians of African descent have become entangled with processes of redefining the legal racial cultural and economic boundaries of Italy and by extension of Europe itself *Contesting Race and Citizenship* opens discussions of the so called migrant crisis by focusing on a generation of Black people who although born or raised in Italy have been thrust into the same racist xenophobic political climate as the immigrants and refugees who are arriving in Europe from the African continent Hawthorne traces not only mobilizations for national citizenship but also the more capacious transnational Black diasporic possibilities that emerge when activists confront the ethical and political limits of citizenship as a means for securing meaningful lasting racial justice possibilities that are based on shared critiques of the racial state and shared histories of racial capitalism and colonialism
