The Motherland:

Readings in Philippine Literature, 1994 Dancer Colum McCann, 2009-06-23 Taking his inspiration from biographical facts novelist McCann tells the erotically charged story of the Russian dancer Rudolf Nureyev through the cast of those who knew him And at the heart of the spectacle stands the artist himself willful lustful and driven by a never to be met need for perfection *No Heavenly Bodies* Christine E. Evans, Lars Lundgren, 2023-11-28 The compelling and little known history of satellite communications that reveals the Soviet and Eastern European roles in the development of its infrastructure Taking its title from Hannah Arendt's description of artificial earth satellites *No Heavenly Bodies* explores the history of the first two decades of satellite communications Christine E Evans and Lars Lundgren trace how satellite communications infrastructure was imagined negotiated and built across the Earth's surface including across the Iron Curtain While the United States and European countries' roles in satellite communications are well documented Evans and Lundgren delve deep into the role the Soviet Union and other socialist countries played in shaping the infrastructure of satellite communications technology in its first two decades Departing from the Cold War binary and the competitive framework that has animated much of space historiography and telecommunications history *No Heavenly Bodies* focuses instead on interaction cooperation and mutual influence across the Cold War divide Evans and Lundgren describe the expansion of satellite communications networks as a process of negotiation and interaction rather than a simple contest of technological and geopolitical prowess In so doing they make visible the significant overlaps shared imaginaries points of contact and exchange and negotiated settlements that determined the shape of satellite communications in its formative decades That Noble Quest David M. Anthems and the Making of Nation States Aleksandar Pavkovic, Christopher Kelen, 2015-10-28 Anthems are symbolic means through which nations present themselves to the world Accordingly creating seven new nation states out of the bones of Yugoslavia required new anthems Why did these new states opt for century old national songs or failing this for the anthems without words What are the images and symbols that each of these states chose as their national signatures and how were these chosen This book explores a variety of images of nationhood or the absence of them in the lyrics of the official anthems and of competing national songs and traces their historical trajectory from the time of their conception to their legal entrenchment This is the first full length study into the symbolic representations of nationhood in the recently created nation states of the Balkans **'We Belong to Them'** Tünde Puskás, 2009 This book explores what happens with ethnic and national identifications built on the same ethnocultural grounds but under different socioeconomic circumstances Territorial and non territorial minorities have traditionally been considered not susceptible to comparison because it was assumed that groups organized on different grounds were distinctively separate phenomena In this study the comparative method is used to throw new light on how ethnic and national identifications are constructed negotiated and re constructed in territorial and non territorial minority contexts The author investigates whether the ethnic and national identification and

articulation processes of Hungarians in Slovakia and Hungarians in Sweden constitute different types of Hungarianness Drawing on extensive interview material the empirical focus is on the interaction of self narratives and public narratives The author seeks to challenge the notion that national minorities and diaspora communities are fundamentally different in their understanding of nationhood and their relationship to an external national homeland The Landscape of Stalinism Evgeny Dobrenko, Eric Naiman, 2011-11-15 This wide ranging cultural history explores the expression of Bolshevik Party ideology through the lens of landscape or more broadly space Portrayed in visual images and words the landscape played a vital role in expressing and promoting ideology in the former Soviet Union during the Stalin years especially in the 1930s At the time the iconoclasm of the immediate postrevolutionary years had given way to nation building and a conscious attempt to create a new Soviet culture In painting architecture literature cinema and song images of landscape were enlisted to help mold the masses into joyful hardworking citizens of a state with a radiant utopian future all under the fatherly guidance of Joseph Stalin From backgrounds in history art history literary studies and philosophy the contributors show how Soviet space was sanctified coded and sold as an ideological product They explore the ways in which producers of various art forms used space to express what Katerina Clark calls a cartography of power an organization of the entire country into a hierarchy of spheres of relative sacredness with Moscow at the center The theme of center versus periphery figures prominently in many of the essays and the periphery is shown often to be paradoxically central Examining representations of space in objects as diverse as postage stamps a hikers magazine advertisements and the Soviet musical the authors show how cultural producers attempted to naturalize ideological space to make it an unquestioned part of the worldview Whether focusing on the new or the centuries old whether exploring a built cityscape a film documentary or the painting Stalin and Voroshilov in the Kremlin the authors offer a consistently fascinating journey through the landscape of the Soviet ideological imagination Not all features of Soviet space were entirely novel and several of the essayists assert continuities with the prerevolutionary past One example is the importance of the mother image in mass songs of the Stalin period another is the boundless longing inspired in the Russian character by the burden of living amid vast empty spaces But whether focusing on the new or the centuries old whether exploring a built cityscape a film documentary or the painting Stalin and Voroshilov in the Kremlin the authors offer a consistently fascinating journey through the landscape of the Soviet ideological imagination **Japanese War Orphans** Jiaxin Zhong, 2021-11-25 After Japan s defeat in August 1945 some Japanese children were abandoned in China and raised by Chinese foster parents They were unable to return to Japan even during the mass repatriation carried out by the Japanese government in the 1950s Most of them returned to Japan in the 1980s They are called Japanese war orphans They are victims of the Sino Japanese War and have been exploited and abandoned by the Japanese government They are also border people who have lived in the interstices between two nations China and Japan and are migrants who have exploited the gap in economic development between Japan and China to seek individual happiness Modern East Asia

underwent drastic social change These drastic social changes affected the lives of the Japanese war orphans and their families in a variety of ways Over the years Zhong has interviewed Japanese war orphans their Chinese foster parents and Japanese volunteers The title is an interview based sociological study of the issue of Japanese war orphans The first half of the Japanese war orphans lives were spent in China and the latter half in Japan It brings to the fore the dramatic personal histories of the Japanese war orphans surviving in the interstices between two nation states Through analyzing the issue of Japanese war orphans the research on the subject makes the following three points 1 the powerlessness of civilians caught up in modern warfare and the long lasting effects of modern warfare on the life histories of individuals and their families 2 the nature of the modern nation state which exploits and abandons its citizens as though they were expendable and 3 immigration as a product of modernization gaps Scholars pursuing studies in both Japanese society Chinese society and historians of the Sino Japanese war would find this an ideal read Daily Report United States. Media and Communication in the Chinese Diaspora Wanning Sun,John Sinclair,2015-09-16 The rise of China has brought about a dramatic increase in the rate of migration from mainland China At the same time the Chinese government has embarked on a full scale push for the internationalisation of Chinese media and culture Media and communication have therefore become crucial factors in shaping the increasingly fraught politics of transnational Chinese communities This book explores the changing nature of these communities and reveals their dynamic and complex relationship to the media in a range of countries worldwide Overall the book highlights a number of ways in which China s going global policy interacts with other factors in significantly reshaping the content and contours of the diasporic Chinese media landscape In doing so this book constitutes a major rethinking of Chinese transnationalism in the twenty first century

Hughes,2006-04-07 Presenting an analysis of the tension between nationalism and globalization in China since the beginning of the reform and opening period in the late 1970s to the present day this book makes a unique contribution to the on going debate on the nature of Chinese nationalism It shows how nationalism is used to link together key areas of policy making including economic policy national unification and foreign policy Hughes provides historical context to the debate by examining how nationalism became incorporated into the ideology of the Chinese Communist Party in the 1980s and the ways in which this strengthened and combined with globalization discourse through the domestic crisis of the Tiananmen Massacre and the external shock of the Cold War s conclusion The different perspectives towards this resulting orthodoxy are discussed including those of the state and dissent in mainland China and the alternative views from Taiwan and Hong Kong Based on Chinese sources throughout this book offers a systematic treatment of Chinese nationalism providing conceptual insights that allow the reader to grasp the complex weave of Chinese nationalist sentiment today and its implications for the future *Survey of China Mainland Press* United States. Consulate General (Hong Kong, China),1962-07 *The Occasions of Community* Timothy D. Harfield,2017-06-06 Society did not always exist The emergence of disciplinary sociology in the nineteenth century was made possible because of a rethinking of society With modernity society suddenly became a thing that acted upon reality in a way that could be understood separately from the individual and the state Although our modern conception of society is most commonly attributed to Montesquieu many have suggested that it was actually an Italian thinker named Giambattista Vico who first made the discovery How else could Vico found a sociology one hundred and fifty years before the term was coined by Auguste Comte In spite of Vico s reputation as an important proto sociologist however there has never been a systematic study of the concept of society as it appears in his work In *The Occasions of Community* Timothy D Harfield explores several questions about the nature of society with important consequences for the history of the social sciences What were the conditions that made it possible for our modern idea of society to emerge What was it about the modern view of society that made the discipline of sociology possible Is Vico s masterwork *The New Science* rightly praised as an important work of early sociology Or does Vico s

interest in the work of divine providence betray the fact that for all Vico's brilliance as a thinker The New Science was not yet modern

heresy or the so called false Christianity The Gospel will be known to everyone he writes but one part will remain in disbelief in him the other the largest will be heretical not following the teaching of God but building their own faith by their invention although on the basis of the word of God And all such will appropriate themselves the name of Christians There will be a part and containing the true faith as it was betrayed by the Holy Apostles and kept in the Orthodox Church but of these a considerable part will only be Orthodox by name but in their hearts they will not have the order that is required by faith having loved the present age Although the Christian name will be heard everywhere and everywhere churches and church orders will be seen but all this is only visibility but inside the retreat is complete On this soil on the soil of false and hypocritical Christianity the Antichrist will be born and will grow up in the same spirit of appearance without the essence of the matter Then surrendering to Satan he will clearly deviate from the faith and all who do not contain Christianity in truth will be carried away to a clear apostasy from Christ the Lord forcing himself to believe for God Interpretation of 2 Epistle to Thessalonians pp 58 61

Stalin's Last Generation Juliane Fürst, 2010-09-30. Stalin's last generation was the last generation to come of age under Stalin, yet it was also the first generation to be socialized in the post-war period. Its young members grew up in a world that still carried many of the hallmarks of the Soviet Union's revolutionary period, yet their surroundings already showed the first signs of decay, stagnation and disintegration.

Stalin's last generation still knew how to speak Bolshevik still believed in the power of Soviet heroes and still wished to construct socialism yet they also liked to dance and dress in Western styles they knew how to evade boring lectures and lessons in Marxism Leninism and they were keen to forge identities that were more individual than those offered by the state In this book Juliane Furst creates a detailed picture of late Stalinist youth and youth culture looking at young people from a variety of perspectives as children of the war as recipients and creators of propaganda as perpetrators of crime as representatives of fledgling subcultures as believers as critics and as drop outs In the process she illuminates not only the complex relationship between the Soviet state and its youth but also provides a new interpretative framework for understanding late Stalinism the impact of which on Soviet society's subsequent development has hitherto been underestimated including its role in the ultimate demise of the USSR
